STATEMENT OF ISSUE

The purpose of this item is to present comments received from the final Public Hearing for the Connections 2040 Regional Mobility Plan and to gather final comments and recommendations from committee members for final adoption of the long range transportation plan.

HISTORY AND ANALYSIS

Connections 2040 Regional Mobility Plan Report

The Draft Final Connections 2040 Regional Mobility Plan (RMP) can be found using the following Link: http://connections2040rmp.com/connections-2040-regional-mobility-plan-document/

Schedule for Adopting Final Documentation

One of the last tasks associated with the Connections 2040 Regional Mobility Plan (RMP) is the approval of the documentation. CRTPA staff developed the schedule below to outline the process for adoption of the entire plan at the November 16, 2015 CRTPA Board meeting:

1. Draft Connection 2040 RMP Report
The draft report was released on September 24, 2015. CRTPA staff sent emails to all Board members, committees, and any citizen that had provided an email address at any of the RMP public meetings. The release of the report coincided with the public meeting for continued public involvement. Additionally, the September 24, 2015 date serves as the beginning of the 30 day document review process as outlined in the Public Participation Plan. The comments received from the Formal Public Meeting have been provided as an attachment to this agenda item.

2. CRTPA Committee Meetings
The CRTPA Committee Meetings were held on October 6, 2015, and scheduled in the future for November 3, 2015.
3. CRTPA Board Meetings
   The CRTPA Board meeting was held on October 19, 2015, and scheduled to be held in the future on November 16, 2015.

4. October 29, 2015 Public Hearing
   This serves as the official date for taking comments on record regarding the Connections 2040 RMP and the Connection 2040 RMP Report. Newspaper Ads were placed in the four counties of the CRTPA region during the week of October 12, 2015.

5. November 16, 2015 CRTPA Board Meeting
   CRTPA Board members will be provided the results of the Public Hearing, the recommendations of the CRTPA Committees, and the Final Connections 2040 RMP Report to discuss and take action on.

Next Steps

Following recommendation of the committee, the Connections 2040 RMP will be provided to the CRTPA Board to adopt on November 16, 2015. Following adoption, the document will be transmitted to the Florida Department of Transportation and Federal Highway Administration.

Attachments

** A summary of the comments received at the Final Public Hearing will be provided to the committee following the public hearing.

The public hearing takes place on Thursday, October 29, 2015 from 6:00 PM to 8:00 PM in the Tallahassee City Commission Chambers located at 300 South Adams Street in Tallahassee, Florida.
STATEMENT OF ISSUE

A brief update on the design of Woodville Highway (SR 363) from Capital Circle to Paul Russell Road will be provided.

A public meeting on the project has been scheduled to occur in December:

Tuesday, December 8, 2015
5:30 p.m. to 6:30 p.m. EST
North Florida Fairgrounds Building 2
441 Paul Russell Road
Tallahassee, Florida
STATEMENT OF ISSUE

Florida Department of Transportation (FDOT) consultant staff will provide an update on the Thomasville Road Planning Study.

HISTORY AND ANALYSIS

The Thomasville Road Planning Study is under development to explore alternatives to provide additional capacity to north-south roadways on or parallel to Thomasville Road within the proposed study limits. Coordination has been ongoing with Blueprint 2000, City of Tallahassee, Leon County and the Welauenee Interchange project.

Efforts to date include significant coordination for the Methodology Letter of Understanding (MLOU) with the above mentioned parties and CRTPA staff to outline the methods of traffic analysis to be used for this study. This document will indicate agreement with all signed parties as to the methods utilized, and in turn the results, of the traffic analysis. FDOT’s consultant for this project (RS&H) has already completed initial efforts to analyze existing traffic patterns and conditions, as well as completed a subarea validation of the CRTPA 2007 Base Year and 2040 Cost Feasible travel demand models. Upon completion of the MLOU, traffic analysis on potential alternatives will begin. These alternatives include varying levels of improvements to Thomasville Road and Welauenee Boulevard to understand the effects of those improvements on the traffic network. The existing network between those corridors will also be evaluated to identify potential constraints to mobility improvements.

A basic environmental analysis will also be completed as part of this study for each of the three areas being evaluated for potential improvement. Environmental considerations such as contamination, geotechnical features, wetlands, threatened and endangered species habitat, as well as historic and archaeological sites are being considered in these areas.

FDOT is committed to keeping CRTPA updated on developments of this project, and will continue to update staff, committees and the Board at milestones along the way. A project website (http://www.nwflroads.com/22259352201/) is available to any interested person, which provides additional information regarding the project as well as a page to submit comments or questions to FDOT District 3 staff or their consultant.
The November 16, 2015 CRTPA Board Agenda is provided for information.
