11:00 – 11:30 CRTPA BY LAWS DISCUSSION
Staff will review proposed changes to the bylaws of the CRTPA, Citizens Multimodal Advisory Committee (CMAC) and Technical Advisory Committee (TAC). Discussion will include establishment of an Executive Committee for the CRTPA.

If you have a disability requiring accommodations, please contact the Capital Region Transportation Planning Agency at (850) 891-8630. The telephone number of the Florida Relay TDD Service is # 711.
WORKING LUNCH

11:30 – 1:00  CURRENT PROJECT UPDATE AND FEDERAL FUNDS DISCUSSION
Staff will provide the status of major projects and review their current funding needs.
In addition, staff will review potential allocations of the CRTPA’s federal fund allocation.
The MPOAC supports State Legislation that:

- Implements the recommendations from the MPOAC transportation revenue study and other options for expanding transportation revenue sources.

- Restores funding for the Transportation Regional Incentive Program in order to promote regional planning and project development through sustainable funding mechanisms, in addition to documentary stamp revenues.

- Regulates distracted driving as a primary offense by prohibiting the use of electronic wireless communications devices and other similar distracting devices while operating a moving motor vehicle.

- Allows Strategic Intermodal System (SIS) funds to be used on roads and other transportation facilities not designated on the SIS if the improvement will enhance mobility or support freight transportation on the SIS.

- Establishes state funding for railroad crossings to improve safety and establish quiet zones.
The Florida Metropolitan Planning Organization Advisory Council (MPOAC) represents the collective interests of Florida’s 27 MPOs, and assists the MPOs in carrying out the urbanized area transportation planning process by serving as the principal forum for collective policy discussion. The MPOAC was created by the Florida Legislature pursuant to Section 339.175, Florida Statutes, to augment and not supplant the role of the individual MPOs in the cooperative transportation planning process.

The organization is made up of a Governing Board (27 members) consisting of local elected officials from each of the MPOs and a Staff Directors’ Advisory Committee consisting of the staff directors from each of the MPOs. The MPOAC also includes a Policy and Technical Subcommittee and other committees as assigned by the Governing Board. The Policy and Technical Subcommittee annually prepares legislative policy positions and develops initiatives to be advanced during Florida’s legislative session. The MPOAC actively participates in the activities of the national Association of MPOs (AMPO) and the National Association of Regional Councils (NARC) in Washington DC and works with other stakeholder groups to help shape state and national policy regarding metropolitan transportation issues.

**PRIORITY POLICY POSITIONS**

*The MPOAC Supports State Legislation that:*

1. **Implements the recommendations from the MPOAC transportation revenue study and other options for expanding transportation revenue sources.**

   **Key Recommendations:**
   - Expand the Charter County and Regional Transportation System Surtax to allow municipalities over 150,000 in population (or the largest municipality in a county) and all counties located in MPO areas to enact up to a one cent local option surtax by referendum.
   - Index local option fuel taxes to the consumer price index in a manner similar to the current indexing of state fuel taxes.
   - Direct the Florida Department of Transportation to develop a plan and conduct one or more pilot tests to move Florida toward a Mileage Based User Fee, which protects individual privacy, in lieu of the traditional fuel tax.

2. **Regulates distracted driving as a primary offense by prohibiting the use of electronic wireless communications devices and other similar distracting devices while operating a moving motor vehicle.**

   The 2013 Florida legislature enacted the “Florida Ban on Texting While Driving Law.” The law prohibits operation of a moving motor vehicle while manually typing, sending or reading interpersonal communication (texting, e-mailing, instant messaging, etc.) using a wireless communications device, with certain exceptions. The law provides for enforcement of the ban as a secondary offense, meaning a driver would have to be pulled over for some other violation to get a ticket for violating the ban on texting. The 2014 and 2015 Florida Legislatures underscored the severity of distracted driving by considering bills that would have substantially increased the penalty for distracted driving. This legislative proposal would seek to strengthen the enforcement mechanism for the texting while driving ban by making it a primary offense.
3. Restores funding for the Transportation Regional Incentive Program in order to promote regional planning and project development through sustainable funding mechanisms, in addition to documentary stamp revenues.

4. Allows Strategic Intermodal System (SIS) funds to be used on roads and other transportation facilities not designated on the SIS if the improvement will enhance mobility or support freight transportation on the SIS.

Current state law does not permit SIS funds to be spent on roads or other transportation facilities that are not part of the SIS, even if proposed improvements would directly benefit users of SIS facilities by enhancing mobility options or supporting freight movement in a SIS corridor. This legislative proposal would broaden the State’s ability to improve passenger and freight mobility on SIS corridors by making eligible the expenditure of SIS funds on non SIS roads and other transportation facilities where the benefit to users of SIS facilities can be demonstrated.

5. Establishes state funding for railroad crossings to improve safety and establish quiet zones.

This proposal recognizes growing economic activity at Florida’s ports and provides financial support to ensure the continued quality of life and safety in communities along increasingly busy rail corridors.

**ADDITIONAL POLICY POSITIONS**

*The MPOAC Supports State Legislation that:*

- Allows Strategic Intermodal System (SIS) funds to be used on roads and other transportation facilities not designated on the SIS if the improvement will enhance mobility or support freight transportation on the SIS.

- Establishes state funding for railroad crossings to improve safety and establish quiet zones.
