

ADOPTED: JUNE 15, 2020
AMENDED: AUGUST 24, 2021

FISCAL YEAR 2021 – FISCAL YEAR 2025

TRANSPORTATION IMPROVEMENT PROGRAM

CRTPA RESOLUTION 2021-03-6A

A RESOLUTION OF THE CAPITAL REGION TRANSPORTATION PLANNING AGENCY (CRTPA) ENDORSING THE FY 2021 – FY 2025 TRANSPORTATION IMPROVEMENT PROGRAM

Whereas, the Capital Region Transportation Planning Agency (CRTPA) is the organization designated by the Governor of Florida on August 17, 2004 together with the State of Florida, for carrying out provisions of 23 U.S.C. 134 (h) and (i)(2), (3) and (4); CFR 450.324, 326, 328, 330, and 332; and FS 339.175 (5) and (7); and

Whereas, the Transportation Improvement Program (TIP) shall be endorsed annually by the CRTPA and submitted to the Governor of the State of Florida, to the Federal Transit Administration, and to the Federal Highway Administration, through the State of Florida;

Whereas, the TIP is periodically amended to maintain consistency with the Florida Department of Transportation Work Program, and;

Whereas, authorization for federal funding of projects within an urbanized area cannot be obtained unless the projects are included in the CRTPA's TIP;

NOW, THEREFORE LET IT BE RESOLVED BY THE CAPITAL REGION TRANSPORTATION PLANNING AGENCY (CRTPA) THAT:

The CRTPA amends the FY 2021 – FY 2025 Transportation Improvement Program to reflect:

The addition of the Federal Transit Administration (FTA) Helping Obtain Prosperity for Everyone (HOPE) Program \$400,000 grant award in FY21 to StarMetro, to complete a route and optimization study in support of the South City Transit Center.

Passed and duly adopted by the Capital Region Transportation Planning Agency on this 16th day of March 2021.

Attest:

Capital Region Transportation Planning Agency

By: 
Jeremy Matlow, Chairman

Greg Slay, Executive Director

FY 2021 – FY 2025

TRANSPORTATION IMPROVEMENT PROGRAM

AMENDMENTS/MODIFICATIONS PAGE

The following changes have been made to the document subsequent to its June 15, 2020 CRTPA Board adoption:

CR 257B Salt Road Crossing No. 625529Y) (Project #219401-2): Provide funding in FY 21 related to rail safety project at identified crossing location. (Jefferson County) (amended 9/21/20)

Gadsden Co Safe Routes to School - Multiple Locations (Project #441347-1): Provide construction funding in FY 2021 related to various Safe Routes to School sidewalk projects in Gadsden. (Gadsden County) (amended 9/21/20)

Gadsden Safe Routes to School - Town of Havana Lighting (Project #441347-3): Provides funding in FY 21 associated with improving lighting near the Havana Middle School. (Gadsden County) (amended 9/21/20)

Gadsden Safe Routes to School - City of Quincy Lighting (Project #441347-4): Provides funding in FY 21 associated with improving lighting at various school locations in Quincy. (Gadsden County) (amended 9/21/20)

Appendix F (“FHWA - Eastern Federal Lands Highway Division Projects AND Information Items”): Provides funding in FY 21 for the repair and rehabilitation of Route No. 010, Lighthouse Road, at the St Marks National Wildlife Refuge (NWR). (Wakulla County) (amended 9/21/20)

Leon County Retrofit Pedestrian Safety Lighting Multiple Locations (Project No. 447042-2): Provides \$988,000 in Federal Highway Safety funds in FY 21 to construct highway lighting retrofits for signalized intersections at various locations in the City of Tallahassee and Leon County. (Leon County) (amended 11/23/2020)

SR 10/SR 12 (US 90) Jefferson St Sidewalk (Project No. 448451-1): Provides \$302,500 in federal funds for the design phase in FY 21 for the SR 10/SR 12 (US 90) Jefferson St. sidewalk project in the City of Quincy. (Gadsden County) (amended 11/23/20)

SR 10/SR 12 (US 90) Jefferson St Sidewalk (Project No. 448451-1): Provides \$302,500 in federal funds for the design phase in FY 21 for the SR 10/SR 12 (US 90) Jefferson St. sidewalk project in the City of Quincy. (Gadsden County) (amended 11/23/20)

CR 268 Adams St from CR 274 Martin Luther King Jr Blvd to Clark St. (Project No. 436992-1): Provide funding in FY 21 for the construction of a five-foot wide sidewalk on the west side of the road. (Gadsden County) (amended 2/16/21)

SR 57 (US 19) FL-GA Pkwy from CR 57A David Rd to Martin Rd (Project No. 403931-3): Amend the project in the CRTPA's adopted FY 2021 – FY 2025 TIP to reflect the northern termini of the project has changed to Martin Rd., which extends the length of the trail from 2.2 to 2.7 miles. (Jefferson County) (amended 2/16/21)

Federal Transit Administration (FTA) Helping Obtain Prosperity for Everyone (HOPE) Program Grant Award (Project No. To Be Assigned): Amend the project in the CRTPA's adopted FY 2021 – FY 2025 TIP to reflect the HOPE Program grant funding a planning and route optimization study in support of the South City Transit Center (amended 3/16/21).

CR 159 Salem Rd over Swamp Creek Bridge No. 500032 (Project No. 439374-1) and CR 259 over SCL Railroad Bridge No. 540027 (Project No. 439366-1) were administratively amended to reflect the addition of funds in FY 22 (administratively amended July 2021)

CR 159 Salem Rd over Swamp Creek Bridge No. 500032 (Project No. 439374-1) was amended to reflect the increased funding for the construction phase in FY 22 (amended August 2021 by the Executive Committee.)

EXECUTIVE SUMMARY

Purpose of the TIP

Prepared annually, the Transportation Improvement Program (TIP) provides a prioritization of projects covering a five-year period that is consistent with LRTP (“The Regional Mobility Plan”) and contains all transportation projects MPA funded with FHWA & FTA funds and regionally significant projects regardless of funding source (23 C.F.R. 450.326(a)); (49 U.S.C. Chapter 53). The TIP satisfies federal mandates (Title 23 United States Code (U.S.C.) 134 (j)) requiring Metropolitan Planning Organizations (MPOs) to develop a prioritized listing/program of transportation projects covering a period of four years that is consistent with the agency’s long-range transportation plan. The TIP provides a staged, multi-year listing of regionally significant transportation improvements that will be funded by Title 23 and Title 49 U.S.C. funds within the Capital Region Transportation Planning Agency (CRTPA) - the MPO for Florida’s capital region. In addition, the TIP contains all regionally significant projects for which federal action is required, regardless of whether the projects are funded with Title 23 and Title 49 funds. Furthermore, pursuant to Florida Statutes (subsection 339.175(8)(c)) the TIP also provides a list of locally and privately funded projects for information purposes.

State and federally funded projects within the TIP are listed by project type, as follows:

- **Aviation**
- **Bicycle/Pedestrian**
- **Bridge**
- **Major Roadway**
- **Public Transportation**
- **Resurfacing**
- **Transportation Systems Management**

Pursuant to federal law, the TIP must cover a four-year time period with years beyond the four-year time period being considered informational. Florida law, however, mandates that the TIP cover a five-year period. In addition to the satisfying federal mandates, the TIP serves to inform the public of those projects within the CRTPA area that have received funding.

Financial Plan

In accordance with Title 23 CFR Part 450.324, the TIP is a financially constrained document. The document identifies those projects that can be implemented using existing revenue sources, as well as those projects that are to be implemented through use of projected revenue sources based upon the FDOT Final Tentative Work Program and locally dedicated transportation revenues. The TIP is developed by the CRTPA in cooperation with the Florida Department of Transportation (FDOT) and the transit operator, StarMetro, who provide the CRTPA with estimates of available federal and state funds for use in development of the financial plan. Project cost estimates are developed in present day costs and inflated to year of expenditure using inflation factors (“Year of Expenditure”). The chart to the right (“TIP FISCAL CONSTRAINT”) identifies anticipated available funding and estimated project costs over the next 5 years. A summary of funds by funding category and project type is contained within the TIP in the “Funding Source Summary” section and provides more detail on both the funding amounts and sources for each project included in the TIP.

Project Selection

Projects included within the TIP reflect the CRTPA’s transportation priorities. These priorities were adopted by the CRTPA on April 16 and June 17, 2019 and subsequently provided to the FDOT for use in development of the FY 2021 – FY 2025 Tentative Work Program. The CRTPA’s prioritization process individually ranks projects by project type on several project lists and is consistent with the federal requirements of 23 CFR 450.322(b). The TIP prioritization process continues to evaluate projects that have an anticipated effect of reducing both fatal and injury crashes. Specifically, the adopted criteria used in Regional Mobility Plan project selection for the CRTPA’s priority project lists reflect safety as one of the identified criteria in the ranking of projects. Additionally, the CRTPA’s Congestion Management Process Plan is reviewed for potential project identification to ensure the safe and effective integrated management and operation of the region’s multimodal transportation system. More information on the CRTPA’s prioritization process is provided below in the “Project Priority Statement” discussion, as well as in Section 3 of this document (“TIP Basics”). Furthermore, Appendix E (“Adopted Priority Project Lists”) provides the agency’s most recently adopted priorities.

Consistency with Other Plans

All projects included within the TIP are consistent with the CRTPA 2040 Regional Mobility Plan (RMP), adopted on November 15, 2015*. The RMP defines the strategy to accommodate existing and future travel needs for the four-county CRTPA region and is the region's long-range transportation planning document. The adopted RMP contains the following nine (9) broad planning factors identified for special focus:

- Connectivity
- Economic Development
- Access
- Multimodalism
- Land Use
- Security
- Safety
- Public Health
- Natural Resource Protection/Conservation

*NOTE: The updated CRTPA 2045 RMP is under development and is scheduled to be adopted in November 2020.

In addition to consistency with the RMP, the TIP is consistent with the Aviation Master Plan of the Tallahassee Regional Airport and the Transit Development Plan of StarMetro (which was developed in conjunction with the RMP). Furthermore, the TIP is consistent with the approved local government comprehensive plans of the local governments within the CRTPA region (s. 339.175(8)(a) F.S.).

Projects within the TIP are consistent with the Fixing America's Surface Transportation Act (FAST Act) that was signed into law in December 2015. The FAST Act serves as the primary surface transportation legislation and is valid until September 30, 2020. The bill identifies the following ten factors to be considered as part of the review of projects and plans:

- Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency;
- Increase the safety of the transportation system for motorized and non-motorized users;
- Increase the security of the transportation system for motorized and non-motorized users;
- Increase the accessibility and mobility of people and for freight;
- Protect and enhance the environment, promote energy conservation, improve quality of life, promote consistency between transportation improvements and State and local planned growth and economic development patterns;
- Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight;
- Promote efficient system management and operation; and
- Emphasize the preservation of the existing transportation system.
- Improve the resiliency and reliability of the transportation system and reduce or mitigate stormwater impacts of surface transportation.
- Enhance travel and tourism.

Project Priority Statement

Project priorities selected for inclusion within the TIP are consistent with the CRTPA's adopted RMP, as well as the FDOT's Adopted Five Year Work Program. The CRTPA's FY 2021 – FY 2025 priority project lists (PPLs) were adopted on April 16 and June 17, 2019 to provide guidance to the FDOT in development of the State Work Program. The following identifies the eight (8) PPLs adopted by the CRTPA and includes the general criteria that were used in developing each list:

- Regional Mobility Plan (RMP) Roadways PPL (identifies roadway projects). (Project source: The Regional Mobility Plan). The RMP Roadways PPL maintains the project ranking order as developed in the adopted Connections 2040 RMP in which identified projects were ranked based upon the RMP's adopted goals and objectives.
- Regional Mobility Plan (RMP) Bicycle and Pedestrian PPL (identifies bicycle and pedestrian projects). (Project source: The Regional Mobility Plan). The RMP Roadways PPL maintains the project ranking order as developed in the adopted Connections 2040 RMP, in which identified projects were ranked based upon the RMP's adopted goals and objectives.
- Regional Trails PPL (identifies regional trail projects). (Project source: The Regional Mobility Plan & FDOT SUN Trail Network). The Regional Trails PPL is a new CRTPA PPL developed to highlight regional trail projects and unique funding opportunities.
- Transportation Regional Incentives Program (TRIP) (identified project eligible to receive TRIP funding). (Project source: Projects included on the CRTPA's Regionally Significant Transportation Map). The CRTPA coordinates with project sponsors of TRIP eligible projects due to the TRIP funding requirements.
- Transportation Systems Management (TSM) PPL (identifies low cost improvements to the existing transportation system that can be constructed in less than two years (such as intersection improvements)). (Project source: in coordination with the FDOT, the CRTPA develops a list of eligible projects). Typically, projects on the TSM PPL go through a specific FDOT process in order to be included on the list. Factors evaluated in generation of this list included: safety, mobility and estimated current intersection level of service information.
- Transportation Alternatives PPL (provides funding for transportation projects that expand travel choices and enhance the transportation experience by integrating modes and improving the cultural, historic, and environmental aspects of our transportation infrastructure). (Project source: eligible projects solicited by the CRTPA & submitted by eligible sponsors for funding). This list was evaluated and ranked by the TA Subcommittee using seven (7) prioritization criteria prior to adoption by the CRTPA.
- StarMetro PPL (provides a listing of transit projects, *developed by StarMetro*, reflecting projects consistent with StarMetro's adopted Transit Development Plan (TDP).
- Tallahassee International Airport PPL (provides a listing of airport projects, *developed by the Tallahassee Regional Airport*, reflecting consistent with the adopted Airport Master Plan Update.

Appendix E contains the CRTPA's adopted FY 2021 – FY 2025 Priority Project Lists as well as more detail on the prioritization process.

Implemented Projects

Updates of select projects in the CRTPA region are listed in **Appendix B**. Additionally, included within the TIP is the Annual Listing of Federally Obligated Projects located within **Appendix D**. This listing, which is also posted on the CRTPA's website (www.crtpa.org), includes all projects (listed by county) that have received federal obligation in fiscal year 2019 (October 1, 2018 to September 30, 2019). Pursuant to federal law, such a list "shall be published or made available by the metropolitan planning organization for public review" (Title 23 U.S.C. 134(h)(7)(B)). **Appendix D** also provides a listing of FTA obligations developed in concert with StarMetro.

Public Involvement

Typically, TIP public involvement includes conducting public meetings in person within the region to present the document (as well as information regarding the draft priority project lists) in May. However, due to the COVID-19 situation and need to assist in slowing the spread of the virus, adjustments to the manner in which the CRTPA conducted public involvement activities were required. To that end, the CRTPA conducted a virtual meeting on May 27 in which a total of fourteen (14) attendees viewed the presentation live. Although the meeting was not in person, the virtual meeting provided attendees the opportunity to learn about the projects receiving funding in the region as well about the metropolitan transportation planning process. The public was able to submit questions and comments both before and during the meeting. Information regarding the meeting was sent out in an email blast as well as advertised in each of the four (4) county newspapers prior to the meeting. Additionally, the draft TIP was placed on the CRTPA's webpage (www.crtpa.org) in early May and the document was discussed at the CRTPA's two (2) committees (Citizens Multimodal Advisory Committee (CMAC) and Technical Advisory Committee (TAC)), as well as the CRTPA Board meeting in June. Furthermore, the current TIP reflects use of an enhanced public involvement technology and opportunity. Specifically, prior to TIP adoption the public was able to go online and directly comment on projects that were graphically linked to a map of the CRTPA region. Finally, the TIP is a featured CRTPA document placed on the agency's homepage (in addition to the "Documents" page). **Appendix H** ("Public Involvement") documents these efforts.

APPENDIX F (FHWA- Eastern Federal Lands Highway Division (EFLHD) Projects)

This appendix reflects those projects within the CRTPA region that have received funding for transportation improvements on federal lands. Such projects do not impact the funds available to the CRTPA region that are annually prioritized by the agency for inclusion in this document.

TMA Certification & Joint Certification

TMA Certification - The CRTPA's most recent TMA Certification occurred on February 28 – March 2, 2017. At these meetings, CRTPA staff met with the Federal Highway Administration (FHWA), the Federal Transit Administration (FTA), the Florida Department of Transportation (FDOT), and StarMetro to discuss the certification of the CRTPA as a Transportation Management Area (TMA). The TMA Certification Report, dated June 2017, contained six (6) corrective actions related to Transit, Public Participation, Title VI and Related Requirements, Linking Planning and Environment, Congestion Management Process and the Transportation Improvement Program. The certification remains in effect until June 2021. A corrective action related to the TIP (the inclusion of federal obligations related to Federal Transit Administration funding, was addressed and is included in this document (Appendix D).

Joint Certification - Each year, the FDOT District and the MPO must jointly certify the metropolitan transportation planning process as described in 23 C.F.R. §450.336. The District and the MPO create a joint certification package that includes a summary of noteworthy achievements by the MPO and, if applicable, a list of any recommendations and/or corrective actions. The certification package and statement must be submitted to Central Office, Office of Policy Planning (OPP) no later than June 1. The CRTPA's 2019 joint certification was discussed with the CRTPA at its May 19, 2020 meeting.

Congestion Management Process

The CRTPA Congestion Management Process Plan (CMPP) was adopted by the CRTPA on September 18, 2018 (section 339.175(6)(c)(1), F.S.). The CMP provide for the development of tools and strategies focused on the reduction of peak hour vehicle miles of travel, reduction of congestion, the improvement of connectivity between employment centers and areas with concentrations of transportation disadvantaged populations, and support access to jobs. In development of the CRTPA's priority project lists, the adopted CMPP was reviewed for potential identification of projects for inclusion on the agency's priority project list. The CRTPA's Congestion Management Process Plan may be viewed on the CRTPA's website in the "Documents" section.

Transportation Disadvantaged

In accordance with Chapter 427, F.S., the TIP includes information related to transportation disadvantaged services for Gadsden, Jefferson, Leon and Wakulla counties. Specifically, revenues provided for Transportation Disadvantaged services are provided in the "Public Transportation" listing of projects (listed by county). Furthermore, a summary of expenses and revenues by county (provided by the Florida Commission for the Transportation Disadvantaged) is contained within **Appendix C** ("Transportation Disadvantaged"). The region's for local boards (Gadsden, Jefferson, Leon, and Wakulla counties' local transportation disadvantaged coordinating boards) are staffed by the Apalachee Regional Planning Council.

Performance Management

Consistent with 23 C.F.R. 450.326(c)(d), the TIP shall include, to the maximum extent practicable, a description of the anticipated effect of the TIP toward achieving the performance targets identified in the metropolitan transportation plan, linking investment priorities to those performance targets. Performance Management is a strategic approach to connect investment and policy decisions to help achieve performance goals. Performance measures are quantitative criteria used to evaluate progress. Performance measure targets are the benchmarks against which collected data is gauged. The Moving Ahead for Progress in the 21st Century Act (MAP-21) requires State DOTs and MPOs to conduct performance-based planning by tracking performance measures and setting data-driven targets to improve those measures. Performance-based planning ensures the most efficient investment of federal transportation funds by increasing accountability, transparency, and providing for better investment decisions that focus on key outcomes related to seven national goals:

- Improving Safety;
- Maintaining Infrastructure Condition;
- Reducing Traffic Congestion;

- Improving the Efficiency of the System and Freight Movement;
- Protecting the Environment; and,
- Reducing Delays in Project Delivery.

The Fixing America’s Surface Transportation (FAST) Act supplements the MAP-21 legislation by establishing timelines for State DOTs and MPOs to comply with the requirements of MAP-21. State DOTs are required to establish statewide targets and MPOs, such as the CRTPA, have the option to support the statewide targets or adopt their own. Furthermore, the “Transportation Performance Measures Consensus Planning Document”, adopted by the CRTPA on May 19, 2020, was established “to outline the minimum roles of FDOT, the MPOs, and the providers of public transportation in the MPO planning areas to ensure consistency to the maximum extent practicable in satisfying the transportation performance management requirements promulgated by the United States Department of Transportation in Title 23 Parts 450, 490, 625, and 673 of the Code of Federal Regulations (23 CFR)”. The document was “cooperatively developed by the Florida Department of Transportation (FDOT) and Florida’s 27 Metropolitan Planning Organizations (MPOs) through the Florida Metropolitan Planning Organization Advisory Council (MPOAC), and, by representation on the MPO boards and committees, the providers of public transportation in the MPO planning areas.”

Highway Safety Measures/Safety is the first national goal identified in the FAST Act. In March of 2016, the Highway Safety Improvement Program (HSIP) and Safety Performance Management Measures Rule (Safety PM Rule) was finalized and published in the *Federal Register*. The rule requires MPOs to set targets for the following safety-related performance measures and report progress to the State DOT:

- Fatalities;
- Serious Injuries;
- Nonmotorized Fatalities and Serious Injuries;
- Rate of Fatalities per 100M Vehicle Miles Traveled (VMT); and
- Rate of Serious Injuries per 100M VMT.

The 2016 Florida Strategic Highway Safety Plan (SHSP) is the statewide plan focusing on how to accomplish the vision of eliminating fatalities and reducing serious injuries on all public roads. The SHSP was developed in coordination with Florida’s 27 metropolitan planning organizations (MPOs) through Florida’s Metropolitan Planning Organization Advisory Council (MPOAC). The SHSP development process included review of safety-related goals, objectives, and strategies in MPO plans. The SHSP guides FDOT, MPOs, and other safety partners in addressing safety and defines a framework for implementation activities to be carried out throughout the State.

The Florida SHSP and the Florida Transportation Plan (FTP) highlight the commitment to a vision of zero deaths. The FDOT Florida Highway Safety Improvement Program (HSIP) annual report documents the statewide interim performance measures toward that zero deaths vision. As such, the CRTPA acknowledges FDOT statewide HSIP interim safety performance measures and FDOT’s 2018 safety targets, which set the target at “0” for each performance measure to reflect the Department’s goal of zero deaths. The CRTPA, however, set its safety performance targets based upon data collected within the MPO planning area for previous years related to safety performance measures. In February

2018, the CRTPA first adopted safety targets and performance measures for Fatalities; Fatalities per 100 million Vehicle Miles Traveled (VMT); Serious Injuries; Rate of Serious Injuries per 100 million VMT; and, Number of Nonmotorized Fatalities & Nonmotorized Serious Injuries.

Most recently, on February 18, 2020, the CRTPA, utilizing data provided to the CRTPA from FDOT and the FHWA, established an average result for each performance measure from the years 2014 through 2018. The averages were utilized as the 2020 target and performance measure for each Safety Measure and were adopted at the meeting. [Click here](#) to go to the agenda item providing more detail.

2020 CRTPA Adopted Highway Safety Performance Measures

| Draft Safety Performance Measures | Target and Performance Measure |
|---|---------------------------------------|
| Number of fatalities | 58 |
| Rate of fatalities per 100 Million Vehicle Miles Traveled (VMT) | 1.273 |
| Number of serious injuries | 256 |
| Rate of serious injuries per 100 Million VMT | 5.684 |
| Number of non-motorized fatalities and non-motorized serious injuries | 42.2 |

The TIP considers potential projects that fall into specific investment programs established by the MPO. For the CRTPA this includes safety programs and policies such as:

- CRTPA participation in, and monitoring of, the region’s Community Traffic Safety Teams, including renewed focus in 2020 on the Leon CTST;
- CRTPA annual funding commitment (\$500,000) to the Tallahassee Regional Traffic Management Center for operations and traffic maintenance;
- Continued identification and inclusion of pedestrian safety projects on the agency’s Transportation Systems Management Priority Project List;
- Continued focus on bicycle and pedestrian safety through funding and implementation of such projects as well as adoption in 2020 of the Leon County Bicycle and Pedestrian Master Plan;
- Bi-monthly safety coordination meetings held with FDOT District 3;
- CRTPA Urban Attributable (SU) funding guidance, adopted in November 2017, identifying explicit funding for safety projects;
- CRTPA review, in coordination with FDOT and local transportation partners, identifying opportunities for inclusion of safety improvements in near-term resurfacing projects and participation in roadway safety teams;
- Congestion Management Plan Update that includes a focus on the implementation of safety projects (adopted in late 2018).
- Implementation of infrastructure projects that improve regional safety including the continued addition of enhanced lighting at key intersections to improve pedestrian safety, access management improvements to address roadway safety, other transportation systems management and operations projects that improve safety.

The TIP includes specific investment projects that support the CRTPA’s goals including safety, using a prioritization and project selection process. The TIP prioritization process evaluates projects that have an anticipated effect of reducing both fatal and injury crashes. The CRTPA’s goal of reducing fatal and serious injury crashes is linked to this investment plan and the process used in prioritizing the projects is consistent with federal requirements.

Pavement & Bridge Condition Measures/On May 18, 2018, FDOT established statewide performance targets for the pavement and bridge measures. MPOs are required to set four-year targets for all six performance measures for Bridge and Pavement Conditions no later than November 14, 2018 and, consistent with this requirement, on September 18, 2018 the CRTPA adopted the statewide targets shown below:

| CRTPA Adopted Pavement & Bridge Condition Measures | GOAL | 2-Year Target | 4-Year Target |
|---|-------------|----------------------|----------------------|
| PAVEMENT | | | |
| % of Interstate pavements in GOOD condition | ≥ 80 % | Not Required | ≥ 60 % |
| % of Interstate pavements in POOR condition | | Not Required | ≤ 5% |
| % of non-Interstate NHS pavements in GOOD condition | | ≥ 40 % | ≥ 40 % |
| % of non-Interstate NHS pavements in POOR condition | | ≤ 5% | ≤ 5% |
| BRIDGES | | | |
| Percent of NHS bridges by deck area in GOOD condition | ≥ 90 % | ≥ 50 % | ≥ 50 % |
| Percent of NHS bridges by deck area in POOR condition | | ≤ 10% | ≤ 10% |

The CRTPA’s TIP reflects investment priorities established in the CRTPA 2040 Regional Mobility Plan (RMP). The focus of CRTPA’s investments in bridge and pavement condition related to system preservation/maintenance on the Interstate and non-Interstate NHS in the MPO include:

- Pavement replacement or reconstruction (on the NHS) projects contained within the Resurfacing section of this document
- New lanes or widenings of NHS facilities, including resurfacing existing NHS lanes associated with new capacity projects contained within the Major Capacity section of this document
- Bridge replacement or reconstruction projects that are contained within the Bridge section of this document
- New bridge capacity projects as identified in the Bridge section (Section C) of the TIP

Funding in the CRTPA TIP reflects a significant amount of resources to projects that maintain pavement and bridge condition performance. Investments in pavement and bridge condition include pavement replacement and reconstruction, bridge replacement and reconstruction, and new bridge and pavement capacity.

System & Freight Performance Measures/On May 18, 2018, FDOT established statewide performance targets for the system performance measures. The CRTPA is required to set four-year targets for all three performance measures for Level of Travel Time Reliability (LOTTR) and Truck Travel Time Reliability index (TTTR) no later than November 14, 2018. To that end, on September 18, 2018 the CRTPA adopted the statewide targets as adopted by FDOT thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets. These measures are indicated below:

| CRTPA Adopted System & Freight Performance Measures | 2-Year Target | 4-Year Target |
|--|----------------------|----------------------|
| LOTTR | | |
| % of person-miles on the Interstate system that are reliable (Interstate LOTTR) | 75% | 70% |
| % of person-miles on the non-Interstate NHS that are reliable (Non-Interstate NHS LOTTR) | Not Required | 50% |
| TTTR | | |
| Truck travel time reliability (TTTR) | 1.75% | 2.0 |

The CRTPA TIP reflects investment priorities established in the CRTPA 2040 Regional Mobility Plan (RMP). The focus of CRTPA’s investments that address system performance and freight include

- Corridor improvements such as project development activities associated with widening of Capital Circle, Southwest and Orange Avenue identified in the Major Capacity section
- Intersection improvements identified in the Transportation Systems Management section including funding for the maintenance of traffic signals
- Investments in transit, bicycle, or pedestrian systems that promote mode shift such as the extensive funding of the multiuse Coastal Trail along US 98 as identified in the Bicycle and Pedestrian section as well as transit operating and capital funding as contained in the Public Transit section
- TSMO/ITS projects or programs such as annual funding provided to the Tallahassee Advanced Traffic Management System (TATMS), the regional traffic management center identified in the Transportation Systems Management section

The projects included in the TIP are consistent with FDOT's Five Year Work Program, and therefore to FDOT’s approach to prioritize funding to address performance goals and targets. Per federal planning requirements, the state selects projects on the NHS in cooperation with the MPO from the approved TIP. Given the significant resources devoted in the TIP to programs that address system performance and freight, the MPO anticipates that once implemented, the TIP will contribute to progress towards achieving the statewide reliability performance targets. The CRTPA will continue to coordinate with FDOT and transit providers to take action on the additional targets and other requirements of the federal performance management process.

Transit Access Performance Measures/ On July 26, 2016, FTA published the final Transit Asset Management rule. This rule applies to all recipients and subrecipients of Federal transit funding that own, operate, or manage public transportation capital assets. The rule defines the term “state of good repair,” requires that public transportation providers develop and implement transit asset management (TAM) plans and establishes state of good repair standards and performance measures for four asset categories: equipment, rolling stock, transit infrastructure, and facilities. The rule became effective on October 1, 2018.

Table 4.1 identifies performance measures outlined in the final rule for transit asset management.

| Asset Category | Performance Measure |
|-----------------------|---|
| 1. Equipment | Percentage of non-revenue, support-service and maintenance vehicles that have met or exceeded their Useful Life Benchmark |
| 2. Rolling Stock | Percentage of revenue vehicles within a particular asset class that have either met or exceeded their Useful Life Benchmark |
| 3. Infrastructure | Percentage of track segments with performance restrictions |
| 4. Facilities | Percentage of facilities within an asset class rated below condition 3 on the TERM scale |

For equipment and rolling stock classes, useful life benchmark (ULB) is defined as the expected lifecycle of a capital asset, or the acceptable period of use in service, for a particular transit provider’s operating environment. ULB considers a provider’s unique operating environment such as geography, service frequency, etc. and is not the same as an asset’s useful life.

Public transportation agencies are required to establish and report transit targets annually for the following fiscal year. Each public transit provider or its sponsors must share its targets with each MPO in which the transit provider’s projects and services are programmed in the MPO’s TIP. The MPO can either agree to program projects that will support the TAM targets or establish its own separate regional TAM targets for the MPO planning area. MPO TAM targets may differ from agency TAM targets, especially if there are multiple transit agencies in the MPO planning area.

Tier I providers are those that operate rail service or more than 100 vehicles in all fixed route modes, or more than 100 vehicles or more in one non-fixed route mode. Tier II providers are those that are a subrecipient of FTA 5311 funds, or an American Indian Tribe, or have 100 or less vehicles across all fixed route modes, or have 100 vehicles or less in one non-fixed route mode. A Tier I provider must establish its own transit asset management targets, as well as report performance and other data to FTA. A Tier II provider has the option to establish its own targets or to participate in a group plan with other Tier II providers whereby targets are established by a plan sponsor, typically a state DOT, for the entire group.

The CRTPA region is served by one (1) Tier I transit service provider: StarMetro (City of Tallahassee) and two (2) Tier II providers: Big Bend Transit, Inc. and Wakulla Senior Citizens Council, Inc. The CRTPA's Tier II providers participate in the group TAM plan developed by the FDOT Public Transit Office in Tallahassee.

On September 18, 2018, the CRTPA agreed to support StarMetro's transit asset management targets, thus agreeing to plan and program projects in the TIP that, once implemented, are anticipated to make progress toward achieving the transit provider targets.

The transit asset management targets are based on the condition of existing transit assets and planned investments in equipment, rolling stock, infrastructure, and facilities over the next year. The targets reflect the most recent data available on the number, age, and condition of transit assets, and expectations and capital investment plans for improving these assets during the next fiscal year. The following table summarizes both existing conditions for the most recent year available, and the targets for the fiscal years:

StarMetro Performance Measures & Targets

| Asset Category - Performance Measure | Asset Class | 2019 Target | 2020 Target | 2021 Target | 2022 Target | 2023 Target |
|---|--|----------------|----------------|----------------|----------------|----------------|
| Revenue Vehicles | | | | | | |
| AGE | <i>BU1 - Bus, Diesel, 30'</i> | 0% | 0% | 0% | 0% | 0% |
| | <i>BU2 - Bus, Diesel, 35'</i> | 0% | 0% | 4% | 18% | 14% |
| | <i>BU3 - Bus, Diesel, 40'</i> | 0% | 0% | 0% | 0% | 0% |
| | <i>BU4 - Bus, CNG, 30'</i> | 0% | 0% | 0% | 0% | 0% |
| | <i>BU5 - Bus, CNG, 35'</i> | 0% | 0% | 0% | 0% | 0% |
| | <i>BU6 - Bus, Electric, 35'</i> | 0% | 0% | 0% | 0% | 0% |
| | <i>CU1- Cutaway Bus, Gasoline</i> | 0% | 0% | 0% | 0% | 0% |
| | <i>CU2 - Cutaway Bus, CNG</i> | 0% | 0% | 0% | 0% | 0% |
| | <i>CU3 - Cutaway Bus, CNG, Low Floor</i> | 0% | 0% | 0% | 0% | 0% |
| | <i>TB - Trolleybus</i> | 0% | 0% | 0% | 0% | 100% |
| | <i>VN1 - Van, ADA</i> | 0% | 0% | 0% | 0% | 30% |
| <i>VN2 - Van, Non-ADA</i> | 0% | 0% | 0% | 0% | 0% | |
| Equipment | | | | | | |
| AGE/CONDITION | <i>Non-Revenue / Service Automobile</i> | 0% | 0% | 0% | 0% | 0% |
| | <i>Trucks and other Rubber Tire Vehicles</i> | 0% | 0% | 0% | 0% | 0% |
| | <i>Computer Software / Equipment</i> | 0% | 0% | 0% | 0% | 0% |
| | <i>Maintenance Equipment</i> | 0% | 0% | 0% | 0% | 0% |
| | <i>Electric Bus Chargers, Fast Charge</i> | 0% | 0% | 0% | 0% | 0% |

| | | | | | | |
|-------------------|--|-----|----|----|----|----|
| | <i>Electric Bus Chargers, Depot</i> | 0% | 0% | 0% | 0% | 0% |
| Facilities | | | | | | |
| Condition | <i>Administration & Maintenance Facility</i> | 0% | 0% | 0% | 0% | 0% |

| | <i>Lifts</i> | 33% | 0% | 0% | 0% | 0% |
| | <i>Fueling Facility</i> | 0% | 0% | 0% | 0% | 0% |

StarMetro Asset Condition Assessment

| Asset Category | Total Number | Avg Age | Avg Mileage | Avg Condition | Useful Life Benchmark | % At or Past ULB (Current) |
|---------------------------------------|--------------|----------|----------------|---------------|-----------------------|----------------------------|
| Revenue Vehicles | 111 | 5 | 138,294 | 9 | | 0% |
| BU1 - Bus, Diesel, 30' | 6 | 12 | 321,420 | 7 | 14 | 0% |
| BU2 - Bus, Diesel, 35' | 21 | 11 | 392,630 | 8 | 14 | 0% |
| BU3 - Bus, Diesel, 40' | 27 | 8 | 374,899 | 9 | 14 | 0% |
| BU4 - Bus, CNG, 30' | 3 | 3 | 121,216 | 10 | 14 | 0% |
| BU5 - Bus, CNG, 35' | 6 | 1 | 47,342 | 10 | 14 | 0% |
| BU6 - Bus, Electric, 35' | 4 | 6 | 73,202 | 9 | 14 | 0% |
| CU1 - Cutaway Bus, Gasoline | 1 | 5 | 130,880 | 8 | 10 | 0% |
| CU2 - Cutaway Bus, CNG | 18 | 2 | 68,434 | 9 | 10 | 0% |
| CU3 - Cutaway Bus, CNG, Low Floor | 4 | 2 | 14,437 | 10 | 10 | 0% |
| TB - Trolleybus | 5 | 8 | 79,621 | 7 | 13 | 0% |
| VN1 - Van, ADA | 7 | 2 | 26,417 | 8 | 8 | 0% |
| VN2 - Van, Non-ADA | 9 | 2 | 9,024 | 10 | 8 | 0% |
| Equipment | 26 | 9 | 69,453 | 8 | | 8% |
| Non-Revenue / Service Automobile | 6 | 6 | 66,554 | 8 | 8 | 0% |
| Trucks and other Rubber Tire Vehicles | 11 | 8 | 72,351 | 7 | 8 | 0% |
| Computer Software / Equipment | 5 | 8 | N/A | 9 | 3 | 0% |
| Maintenance Equipment | 2 | 17 | N/A | 5 | 3 | 50% |
| Electric Bus Chargers, Fast Charge | 1 | 6 | N/A | 8 | 14 | 0% |
| Electric Bus Chargers, Depot | 1 | 6 | N/A | 9 | 14 | 0% |

| Facilities | 6 | 27 | | 3 | | 0% |
|------------------------------|----------|-----------|-----|----------|----|-----------|
| Administration & Maintenance | 1 | 41 | N/A | 3 | 50 | 0% |
| Passenger Facilities | 1 | 34 | N/A | 3 | 50 | 0% |
| Lifts | 3 | 16 | N/A | 4 | 40 | 0% |
| Fueling Facility | 1 | 18 | N/A | 3 | 40 | 0% |

As noted above, Big Bend Transit, Inc. and Wakulla Senior Citizens Council, Inc. (the CRTPA region Tier II providers) are part of the Group TAM Plan for Fiscal Years 2018/2019-2022/2023 developed by FDOT for Tier II providers in Florida. The FY 2019 asset conditions and 2020 targets for the Tier II providers are shown on the following page.

The statewide group TAM targets are based on the condition of existing transit assets and planned investments in equipment, rolling stock, infrastructure, and facilities over the next year. The targets reflect the most recent data available on the number, age, and condition of transit assets, and expectations and capital investment plans for improving these assets during the next fiscal year, using the asset inventory and investment prioritization process incorporated in the Group TAM Plan.

Key findings of the Group TAM Plan include the following:

- Approximately 27 percent of all inventoried assets have met or exceeded their ULB.
- The asset inventory includes a total of 752 revenue vehicles with an average age of 5.5 years, of which 271 (or 35 percent) have met or exceeded their ULB.
- Based on the investment prioritization, vehicles that are rated poor or marginal in the cutaway class and the van class will be prioritized for replacement.

As required by FTA, FDOT will update this TAM Plan at least once every four years. FDOT will update the statewide performance targets for the participating agencies on an annual basis and will notify Big Bend Transit, Inc. and Wakulla Senior Citizens Council, Inc., as well as the CRTPA, when the targets are updated.

Group Transit Asset Management Targets for Big Bend Transit, Inc. and Wakulla Senior Citizens Council, Inc.

| Asset Category - Performance Measure | Asset Class | FY 2019 Asset Conditions | FY 2020 Performance Target |
|--|---------------------------------------|---------------------------------|-----------------------------------|
| Revenue Vehicles | | | |
| Age - % of revenue vehicles within a particular asset class that have met or exceeded their Useful Life Benchmark (ULB) | Automobile | 55% | 45% |
| | Bus | 15% | 13% |
| | Cutaway Bus | 28% | 28% |
| | Mini-Bus | 31% | 28% |
| | Mini-Van | 13% | 11% |
| | SUV | 0% | 0% |
| | Van | 47% | 34% |
| Equipment | | | |
| Age - % of equipment or non-revenue vehicles within a particular asset class that have met or exceeded their Useful Life Benchmark (ULB) | Non Revenue/Service Automobile | 67% | 67% |
| | Trucks and other Rubber Tire Vehicles | 50% | 40% |
| | Maintenance Equipment | 50% | 50% |
| | Routing and Scheduling Software | 100% | 100% |
| Facilities | | | |
| Condition - % of facilities with a condition rating below 3.0 on the FTA Transit Economic Requirements Model (TERM) Scale | Administration | 0% | 9% |
| | Maintenance | 6% | 12% |

The above targets for the CRTPA's planning area reflect the targets established by StarMetro through their Transit Asset Management Plan, as well as the statewide targets established by FDOT for those providers participating in the Group Transit Asset Management Plan, which include the following providers in the CRTPA planning area: Big Bend Transit, Inc. and Wakulla Senior Citizens Council, Inc.

Transit Asset Management in the TIP

The CRTPA TIP was developed and is managed in cooperation with the CRTPA region's public transportation providers (StarMetro, Big Bend Transit, Inc. and Wakulla Senior Citizens Council, Inc.). The TIP reflects the investment priorities established in the CRTPA 2040 Connections Regional Mobility Plan.

FTA funding, as programmed by the region's transit providers and FDOT, is used for programs and products to improve the condition of the region's transit assets. The focus of the CRTPA's investments that address transit state of good repair include projects and programs contained within the Public Transportation Section of this document including the following:

- Commuter Assistance Programs
- Operating and capital assistance for fixed route systems
- Repair, rehabilitation, and replacement of transit infrastructure

Transit asset condition and state of good repair is a consideration in the methodology the CRTPA uses to select projects for inclusion in the TIP. The TIP includes specific investment priorities that support all of the MPO's goals, including transit state of good repair, using a prioritization and project selection process established in the LRTP. This process evaluates projects that, once implemented, are anticipated to improve transit state of good repair in the MPO's planning area. The CRTPA's 2045 Regional Mobility Plan is currently under development and scheduled for adoption in late 2020. The updated RMP will reflect updated goals supportive of transit state of good repair. Furthermore, development of the CRTPA's annual list of project priorities is done in concert with the agency's transportation partners. With regards to transit, such coordination includes StarMetro and reflects consistency with StarMetro's adopted Transit Development Plan. The CRTPA TIP has been evaluated and the anticipated effect of the overall program is that, once implemented, progress will be made towards achieving the transit asset performance targets. The CRTPA will continue to coordinate with the StarMetro, Big Bend Transit, Inc. and Wakulla Senior Citizens Council, Inc. to maintain the region's transit assets in a state of good repair.

Currently, programmed investments in the CRTPA region's public transit projects total close to \$44 million in FTA funds over the next 5 years as detailed within this document.

TIP BASICS

What is the CRTPA?

The Capital Region Transportation Planning Agency (CRTPA) is the region's metropolitan planning organization (MPO). An MPO is a federally mandated local transportation policy-making organization that is comprised of representatives from local government and transportation agencies. The CRTPA coordinates the regional transportation planning process and includes all of Gadsden, Jefferson, Leon and Wakulla counties. Voting representatives from the following local governments serve on the CRTPA Board:

- Leon County
- City of Tallahassee
- Leon County School Board
- Gadsden County
- City of Chattahoochee
- Town of Greensboro
- City of Gretna
- Town of Havana
- City of Midway
- City of Quincy
- Jefferson County
- City of Monticello
- Wakulla County
- City of Sopchoppy
- City of St. Marks

What is the TIP?

The Transportation Improvement Program (TIP) is a multi-year document reflecting transportation projects programmed for federal, state, and local funding within the Capital Region Transportation Planning Agency (CRTPA) area (Gadsden, Jefferson, Leon and Wakulla counties).

Why does the CRTPA develop a TIP?

In order to use federal funds for a transportation improvement, the US Department of Transportation requires that the improvement be identified within an adopted TIP. Specifically, 23 U.S.C. 134(j), 23 CFR 450 and subsection 339.175(7), F.S. require MPOs to develop a TIP.

What types of projects are included within the TIP?

The TIP contains state and federal projects. Projects within the document are listed by county and project type, as follows:

- ❑ Major Capacity (significant capacity additions to existing roadways or the construction of new roadways);
- ❑ Transportation Systems Management (projects that typically provide low cost improvements to existing roadways, such as the addition of turn lanes at intersections or improvements to assist pedestrians; also includes Intelligent Transportation System (ITS) projects);
- ❑ Bicycle/Pedestrian (includes bicycle and pedestrian projects as well as transportation enhancement projects consistent with the requirements of the Safe, Accountable, Flexible and Efficient Transportation Equity Act (SAFETEA-LU) including such projects as bicycle and pedestrian amenities, landscaping, and rehabilitation of historical transportation buildings);
- ❑ Public Transportation (includes operations and capital improvements projects for StarMetro, as well as projects that fund the provision of public transportation services for the transportation disadvantaged and projects that fund commuting services between the communities with the CRTPA region);
- ❑ Aviation (includes aviation projects for the Tallahassee Regional Airport and the Quincy Municipal Airport);
- ❑ Bridge (includes bridge rehabilitation and replacement projects selected by the FDOT); and,
- ❑ Resurfacings (includes resurfacing and repaving projects on the state system as identified by the FDOT).

Projects listed in the TIP are identified by project phase (planning, project development & environment study, right-of-way, design/preliminary engineering, and construction). Within the TIP, this information is located in the 'Phase Code' column of each listed project, with an explanation of the codes listed in **Appendix A** under "Project Phase Abbreviations".

How can I search projects in the TIP?

The projects contained within this document may be interactively searched on-line at the CRTPA's Interactive TIP site. The site may be accessed through the agency's website (www.crtpa.org) or directly (<http://crtpa.dev.dtstiptool.com/>). The Interactive TIP allows users to search for projects by project type or location. Additionally, an interactive map allows users to identify the location of programmed projects within the TIP. Contact CRTPA staff to arrange a training session on how to use the Interactive TIP.

Why does the CRTPA amend the adopted TIP?

Subsequent to the annual adoption of the TIP in June, the CRTPA frequently amends the document to reflect changes to the FDOT work program such changes. Examples of such changes may include changes to the funding of an existing project or the addition of a newly funded project. The purpose of these amendments is to ensure the document accurately reflects the transportation projects within the CRTPA region.

What is the schedule for development of the TIP?

Development of the CRTPA's TIP is closely tied to the schedule for development of the FDOT's Work Program. This is because the FDOT Work Program, which provides a statewide project list of transportation improvements and activities for implementation during a five-year period, is used by the CRTPA to identify federal and state funded projects with the CRTPA area for inclusion within the TIP. A draft of the Work Program is developed in the late fall of each year and adopted in July of the subsequent year by the FDOT Secretary. Typically, the following contains the typical schedule for CRTPA TIP development:

- January: TIP development is initiated subsequent to FDOT development of the FDOT Draft Work Program.
- April/May: The draft TIP is placed on the CRTPA's webpage (www.crtpa.org) for public review.
- May: Public meetings to present the draft TIP are held in the CRTPA region in conjunction with the draft priority project lists.
- June: The CRTPA adopts the TIP and the adopted document is placed on the CRTPA's webpage. After adoption, the TIP is provided to the FDOT for incorporation into the State Transportation Improvement Program (STIP).

What are the CRTPA's Project Priority Lists and how are they used for funding?

Annually, the CRTPA adopts project priority lists (PPLs). The PPLs contain a listing of transportation projects in priority (ranked) order for which funding is sought. Subsequent to CRTPA adoption, the PPLs are provided to the FDOT for use in development of the FDOT Annual Work Program. Specifically, the FDOT matches eligible funding available to the CRTPA with the top ranked projects identified by the CRTPA. Projects included within the TIP must be consistent with the policies and priorities of the CRTPA's adopted Long Range Transportation Plan ("The Regional Mobility Plan") as well as the adopted comprehensive plans of CRTPA member governments. Consistent with this process, the following CRTPA FY 2021 – FY 2025 priority project lists (PPLs) were adopted on April 16 and June 17, 2019:

- Regional Mobility Plan (RMP) Roadways PPL (identifies roadway projects). (Project source: Regional Mobility Plan). The RMP Roadways PPL maintains the project ranking order as developed in adopted Connections 2040 RMP in which identified projects were ranked based upon the RMP's adopted goals and objectives.
- Regional Mobility Plan (RMP) Bicycle and Pedestrian PPL (identifies bicycle and pedestrian projects). (Project source: Regional Mobility Plan). The RMP Roadways PPL maintains the project ranking order as developed in the adopted Connections 2040 RMP in which identified projects were ranked based upon the RMP's adopted goals and objectives.
- Regional Trails PPL (identifies regional trail projects). (Project source: The Regional Mobility Plan & FDOT SUN Trail Network). The Regional Trails PPL is a new CRTPA PPL developed to highlight regional trail projects and unique funding opportunities.
- Transportation Systems Management (TSM) PPL (identifies low cost improvements to the existing transportation system that can be constructed in less than two years (such as intersection improvements). (Project source: FDOT provides a list of eligible projects). Projects on the TSM PPL go through a specific FDOT process in order to be included on the list. Factors evaluated in generation of this list included: safety, mobility and estimated current intersection level of service information.

- Transportation Alternatives PPL (provides funding for transportation projects that expand travel choices and enhance the transportation experience by integrating modes and improving the cultural, historic, and environmental aspects of our transportation infrastructure). (Project source: eligible alternatives projects solicited by the CRTPA and submitted by eligible sponsors). This list was evaluated and recommended for ranking by the Transportation Alternatives Subcommittee using eight (8) prioritization criteria prior to adoption by the CRTPA.
- StarMetro PPL (provides a listing of transit projects, *developed by StarMetro*, reflecting projects consistent with StarMetro’s adopted Transit Development Plan (TDP).
- Tallahassee International Airport PPL (provides a listing of airport projects, *developed by the Tallahassee Regional Airport*, consistent with the adopted 1996 Airport Master Plan Update).

Prior to adoption, public meetings to present the CRTPA’s Draft FY 2021– 2025 Priority Project Lists were held in May 2019 throughout the CRTPA Region (Monticello, Crawfordville, Quincy and Tallahassee). Information regarding the meetings were placed on the CRTPA’s website (www.crtpa.org), in the region’s newspapers and an e-mail message regarding the meeting was sent to the agency’s transportation partners. **Appendix E** contains the CRTPA’s adopted FY 2021 – FY 2025 PPLs including the criteria used in the development of the lists. Additionally, more information regarding the CRTPA’s PPLs is located in the above **Executive Summary** of this document under “Project Priority Statement”.

How can the public provide input?

A variety of public involvement opportunities are provided to citizens associated with the development of the TIP prior to CRTPA adoption. Such opportunities include CRTPA public meetings typically held in May to solicit comments on the draft TIP as well as the placement, and request for comment, of the draft TIP on the CRTPA’s website (www.crtpa.org). Additionally, the draft TIP is typically presented to the CRTPA’s two (2) advisory committees, the Citizens Multimodal Advisory Committee (CMAC) and Technical Advisory Committee (TAC) as well as the CRTPA Board in May. The TIP is adopted by the CRTPA at its June meeting. Citizens are allowed to provide comments at all CRTPA meetings. As noted previously, due

All public comments received regarding the TIP are formally documented. Specifically, any comments are included in the TIP document in **Appendix H** (“Public Involvement”) which details the public involvement efforts prior to TIP adoption. Additionally, public comments are included in the TIP agenda item as an attachment when the document is adopted in June of each year.

Because the TIP reflects projects already programmed for funding, a good time to provide public comment on the CRTPA’s transportation projects is during the annual development of the CRTPA’s PPLs. To that end, PPL public meetings are held prior to PPL adoption by the CRTPA (and often in concert with the TIP public meetings). This public meeting provides citizens an opportunity to comment not only on specific transportation projects, but also the *type* of projects (i.e. roadway, transit, bicycle or pedestrian) that they believe should receive funding priority. In addition, the public is allowed to provide comment prior the CRTPA’s adoption of the PPLs.

Furthermore, every five years the CRTPA updates its Long Range Transportation Plan (“The Regional Mobility Plan” (RMP)). The RMP is a twenty-year document that identifies future projects that are ultimately placed (and ranked) on the PPLs. Public involvement in the RMP update is extensive and provides one of the best opportunities citizens have to get involved in the planning of the region’s transportation system. The update to the current RMP (The CRTPA 2040 Regional Mobility Plan) was adopted on November 15, 2015 with the update (2045 RMP) currently under development.

How does the TIP get approved?

At the local level, the CRTPA approves the TIP prior to submittal to the State and Federal government for review and approval. At the State level, the Governor approves the TIP prior to it becoming part of the State Transportation Improvement Program. The Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) approve the TIP at the Federal level.

How are the projects within the TIP Funded?

Federal and state dedicated sources of funding contained within the TIP originate from the Federal Highway Trust Fund and the State Transportation Trust Fund. Each of these funds receives specific tax source revenue earmarked solely for transportation purposes. Such funding includes sources such as gasoline taxes (federal gas tax and state motor fuel tax) as well as motor vehicle fees. Funding for transit includes funding from the Federal Transit Administration (FTA), Florida Department of Transportation (FDOT) Public Transit Office, and the City of Tallahassee. Funding for local government transportation projects (as reflected within adopted Capital Improvements Programs) may be from a variety of sources including general revenue, local option gas taxes, and optional penny sales taxes.

How can I learn more about the CRTPA?

Information regarding the CRTPA including adopted documents, meeting dates, staff/member contact information and opportunities for public involvement may be viewed on the CRTPA’s website (www.crtpa.org). Furthermore, citizens are also welcome to contact the CRTPA directly at 850 891 8630.

How do I get to the full project cost and other project details?

For projects on the Strategic Intermodal System (SIS):

The normal project production sequence is to have a Project Development and Environment (PD&E) phase, a Design (PE) phase, a Right of Way (ROW) phase and a Construction (CST) phase. Some projects may not have a ROW phase, if land is not needed to complete the project. Costs on the TIP pages for projects on the SIS will have historical costs, five years of the current TIP and five years beyond the current TIP, which may or may not be the total project cost. If there is no CST phase on the TIP page, then the entry will probably not be reflective of the total project cost. For some projects, such as resurfacing, safety or operational projects, there may not be a total cost provided but rather additional details on that program.

The SIS is a network of high priority transportation facilities which includes the state's largest and most significant commercial service airports, spaceports, deep water seaports, freight rail terminals, passenger rail and intercity bus terminals, rail corridors, waterways and highways. All projects on the SIS are identified in the Project Description section of each TIP page as such.

For costs beyond the ten-year window, please refer to the agency's long range transportation plan: The Regional Mobility Plan (RMP). The link to the RMP is: www.crtpa.org/RMP.html. The RMP reference on the TIP page provides the information necessary to locate the full project costs and/or additional details regarding the project in the RMP. If there is no RMP reference in the TIP, full project costs are provided in the TIP.

For projects NOT on the Strategic Intermodal System (SIS):

The normal project production sequence is to have a Project Development and Environment (PD&E) phase, a Design (PE) phase, a Right of Way (ROW) phase and a Construction (CST) phase. Some projects may not have a ROW phase, if land is not needed to complete the project. Costs on the TIP pages for projects not on the SIS will have historical costs and five years of the current TIP, which may or may not be the total project cost. If there is no CST phase on the TIP page, then the entry will probably not be reflective of the total project cost. For some projects, such as resurfacing, safety or operational projects, there may not be a total cost provided but rather additional details on that program. Total project costs and other project details will be accessible in the TIP for all non SIS projects in the TIP. All projects not on the SIS will have a Non-SIS identifier on the TIP project page.

For costs beyond the five-year window, please refer to the agency's long range transportation plan: The Regional Mobility Plan (RMP). The link to the RMP is: www.crtpa.org/RMP.html. The RMP reference on the TIP page provides the information necessary to locate the full project costs and/or additional details regarding the project in the RMP. If there is no RMP reference in the TIP, full project costs are provided in the TIP.

DISCLAIMER:

The "Total Project Cost" amount displayed for each of the federal and state funded projects in the TIP represents 10 years of programming in the Florida Department of Transportation's (FDOT's) Work Program database for projects on the Strategic Intermodal System (SIS) (FYs 2016 through 2025), and 5 years of programming in the FDOT Work Program for non-SIS projects (FYs 2016 through 2020), plus historical cost information for all projects having expenditures paid by FDOT prior to FY 2016.

For a more comprehensive view of a particular project's anticipated total project cost for all phases of the project, please refer to the CRTPA's Regional Mobility Plan.
