

Project Background

This project is being completed to make walking and bicycling more convenient and safer for Tallahassee's citizens and visitors. The existing Tallahassee-Leon County Bicycle and Pedestrian Master Plan was developed in 2004. Since that time, the City and the County have both implemented bicycle and pedestrian facilities including multi-use paths and protected bike lanes. The goal of this updated Plan is to make traveling as a bicyclist or pedestrian safer and easier within Tallahassee. Promoting safer intercity travel is another desired outcome of this Plan.

Focus Areas for Connectivity Improvements

A series of public workshops are going to be held in destination areas of the Community. These areas include:

- Market Square and Northeast Neighborhoods
- FAMU, Southwest Area Neighborhoods
- TCC, FSU, and Downtown Tallahassee
- Midtown and Central Area Neighborhoods
- Apalachee Parkway Neighborhoods

Project Goals

Safety – Focus on infrastructure improvements in known crash areas

Comfort – Reduce motorist conflict and promote shaded, easy to ride routes

Connectivity – Connect users with destinations in and around the City

Health – Promote healthier lifestyles through improved facilities and increased use

Multimodal – Develop usable routes for pedestrians, cyclists, and transit riders while not limiting motorists

Equity – Improve transportation options for disadvantaged populations and in underserved areas

Within Multimodal Transportation District (MMTD) – Prioritize the development of pedestrian, cyclist, and transit facilities within the MMTD

Focus Area Workshop Information

Please see attached meeting agenda for intent of the workshop activities

Completed Workshops

Market Square and Northeast Neighborhoods

Tuesday, September 25th 5:30 p.m. to 7:00 p.m.

Northeast Branch Library

5513 Thomasville Rd., Tallahassee, FL 32312

FAMU, Southwest Area Neighborhoods

Thursday, September 27th 6:15 p.m. to 7:45 p.m.

Delta Kappa Omega - Providence Community Center

1908 Highland St., Tallahassee, FL 32310

Meeting Agenda

Focus Area Workshops

Project Goal: *The goal of this Plan is to make traveling as a bicyclist or pedestrian safer and easier within Tallahassee as well as promoting safer intercity travel.*

Station 1: Existing Conditions

- Existing Bicycle and Pedestrian Facilities
- Bicycle Comfort Level
- Previous Stakeholder Input

Station 2: Minimum Tolerance

- Please fill out the form at this station and let us know what type of cyclist you consider yourself and the minimum bicycle facility you are willing to use.

Station 3: Route Mapping

- Let us know which routes you currently ride and what routes you would prefer to ride to make connections with destinations throughout the community.

Station 4: Project Goals

- Let us know if you have additional considerations on how projects should be evaluated.

Thank you for your participation!
