PLEASE PROVIDE COMMENTS REGARDING THE BICYCLE AND PEDESTRIAN MASTER PLAN BELOW:

I live out the Parkway, US27.

- 1) Our neighborhood looks onto Lake Lafayette. The proposed walkway should be on the north shore and use existing public lands (on the side of Alford Greenway). Placing a raised walkway would impact many families (across Lake Lafayette). There are many off-street riding opportunities in TAL.
- 2) Tallahassee has a rep for being dangerous/scary for commuters. Nobody in their right mind would ride on Mahan, Parkway, etc. It would be great to be able to safely ride to stores, church & FSU. Could we link quiet neighborhoods w/ signage to create safe bike routes? I believe many more people would use bikes for everyday transportation.

Thank you! For working toward
Tallahassee having a well-connected
system/network of bike paths, with
maximum protection on main N/S and
E/W paths. This will improve
Quality of life and health and
sustainability of Tallahassee's
mobility. Thank you!

We are concerned about the proposed walkway from Leon County Waste Management ^{landfill} site across Lake Lafayette. It should not be visible by Windwood Hills ^{subdivision}.

We would be interested in bike/pedestrian trail along Apalachee Parkway from Windwood Hills to Walmart and to Capital Circle.

Many wood storks and other endangered birds will be impacted by Boardwalk.

I've enjoyed this workshop, getting an understanding of what the public want, what they feel comfortable with and their preferred routes so far, I feel the master plan has already made much improvements in the city, but my big concerns are busier intersections ~~such as~~ I ~~remember~~ believe there should be buffered and/or seperated paths for riders who commute. ALSO more connective paths from one bike path to the other.

PLEASE PROVIDE COMMENTS REGARDING THE BICYCLE AND PEDESTRIAN MASTER PLAN BELOW:

Tallahassee has made a big push to add bike lanes to roadways, but these lanes are unsafe as they do not provide enough separation for safe riding. Tallahassee has an excellent sidewalk network, so I generally choose to ride on sidewalks. The problem with this is the sidewalks are too narrow when passing pedestrians. Simply widening sidewalks in select areas may be an easy and cost-effective way to improve cycling in Tally. The ideal bike facilities can be found along the Welamsee Blvd. extension in the new Canopy Development. This road has separated bike lanes in addition to sidewalks.

On another note, I would like to see a paved or crushed limestone bike trail from Cascades trail to Tom Brown Park. Maybe one could run along the CSX railroad tracks.

Finally, all future bike facility development should compliment Tallahassee's placemaking efforts, and they should include appropriate wayfinding signage.

maps left off some areas on outskirts

Need trail along Oak Ridge Rd. between woodville and 319. It is currently unsafe with no shoulder and yet children + adults use it to go to school, work + to businesses.

Need better signage for connectors near Stearns Road + Lake Elberta + new FSU connector

I am currently president of the Liberty Ridge Homeowners Assoc. near woodville and we are unanimous in our support of a trail along Oak Ridge Road,

Think about using mechanized lifts for getting cyclists up hills in downtown Tallahassee. They see these in the Netherlands and other steep parts of Europe.

Living in the county east of Capital Circle off US 27, I often see people cycle on the shoulder of this high speed roadway and feel awful for individuals and households who have no other options for transportation. If ^{better} bicycle facilities are not an option for economic reasons, then the City/County should consider extending a bus route into the county.

Our concern is regarding the proposed walkway from Leon County Waste Management site across Lake Lafayette ^(land fill) should not be visible by Windwood Hills Subdivision. It will impact woodstork & other endangered species, stop canoe trail and be a visible detriment to the aesthetics of the lake.

Focus funding on ^{pedestrian and lane} bike ~~trail~~ along Apalachee Parkway. That is much needed & is a serious safety issue.
