INTRODUCTION

The Code of Federal Regulations (CFR) defines a UPWP as “a statement of work identifying the planning priorities and activities to be carried out within a metropolitan planning area.” The Unified Planning Work Program (UPWP) has been prepared to outline the tasks to be performed with funds under Title 23 Sections 134 (Metropolitan Transportation Planning), 135 (Statewide Transportation Planning) and Title 49 (Public Transportation) by the Capital Region Transportation Planning Agency (CRTPA) for the period July 1, 2024 through June 30, 2026. This document serves to define planning tasks and activities for the public as well as public officials and agencies that contribute manpower and allocate funds to the transportation planning process.

The UPWP contains seven primary tasks or elements that provide the framework for the work program. Within each element, the subtasks further define planning activities, including products, projects, and plans. Furthermore, any UPWP planning task funded in partnership with another agency or local government is identified as a “Joint Planning Task.” Joint Planning Tasks are established through an Agreement or Memorandum of Understanding between the parties. At this time the CRTPA is not proposing any tasks that will be funded by a Joint Planning Agreement.

DEVELOPMENT OF THIS UPWP

Development of this UPWP officially began on February 13, 2024, as a part of the CRTPA’s Joint Certification meeting. CRTPA staff and the Florida Department of Transportation met to discuss the Certification Report responses and to go over the overall process. Consistent with previous years, the UPWP was developed through reviewing and updating tasks contained within the preceding document in coordination with CRTPA staff and outside agencies responsible for the tasks within the document. Development of the UPWP also included a review of the CRTPA’s top critical priorities identified at past Annual Retreats and then outlining tasks to address these priorities. The UPWP is framed considering the Federal Planning Factors and the State Planning Emphasis Areas, which are further detailed in Section I. Lastly, staff reviewed the requirements related to development of UPWPs as contained within the [FDOT MPO Program Management Handbook](#).

NOTE: The Draft UPWP reflects PL, SU, and CM funds from FY 2024 that were unencumbered or de-obligated, which roll-forward and are available in the first year (FY 2025) budget. Remaining funds from FY 2023 are made available in the second year of the UPWP (FY 2026). The second year SU budget is an estimate. An amendment will be processed to update the SU budget for FY 2026 once the SU close-out amounts are confirmed.

CRTPA PLANNING DOCUMENTS

Transportation planning in the CRTPA Planning Area is guided by the Connections 2045 Regional Mobility Plan (RMP), also referred to as a Long-Range Transportation Plan. The Connections 2045 RMP, constructed with input from government officials, citizen's advisory boards, technical experts, and the public, was adopted at the November 2020 CRTPA meeting. Selected projects from the RMP 2045 Cost Feasible Plan are identified in the Project Priority Lists (PPLs) and implemented in the Transportation Improvement Program (TIP), both adopted annually. The Congestion Management Plan, Public Involvement Plan and Limited English Proficiency Plan are reviewed, at a minimum, every four years. Updates to the CMP and PIP are completed in advance of developing the Long-Range Transportation Plan. Short and long-range planning tasks in the UPWP detail the activities, as well as local and regional coordination associated with the development of the CRTPA planning documents. Although the CRTPA Metropolitan Planning Area is in air quality attainment status, staff in conjunction with the Florida Department of Transportation continues to monitor the CRTPA's air quality status as well as air quality issues.

PUBLIC INVOLVEMENT

Public involvement during the development of the UPWP is accomplished through online platforms and in-person activities. A draft and final version is presented at the regularly scheduled meetings of the Technical Advisory Committee (TAC) and Citizens Multimodal Advisory Committee (CMAC), and to the CRTPA Board. Public comment and input from transportation providers and stakeholders on the Draft UPWP is considered when finalizing the document for Board approval. At the same time the draft is posted, is sent to the E-Blast contact list notifying of a minimum 7-day public comment period.

During the development of the UPWP the CRTPA coordinates with FDOT and FHWA to ensure all planning activities are eligible consistent with 2CFR200 and State law. In addition to presenting the draft UPWP to the Committees and Board, a notice is posted on the CRTPA website (www.crtpa.org) 7-days prior to the scheduled adoption of the final document, consistent with the Public Involvement Plan (PIP). The draft UPWP was distributed to the CRTPA Board and Committees and the public for comment (March and April 2024) and approved by the CRTPA at its May 21, 2024 meeting.. The UPWP reflects compliance with the comprehensive Title VI of the Civil Rights Act of 1964 and Environmental Justice (Executive Order 12898) procedures.

CONSOLIDATED PLANNING GRANT

FHWA and FTA provide funding support through the FDOT in the form of PL, SU, SA and CMAQ funds. Funding provided by the member governments of the CRTPA is budgeted for any ineligible expenses as identified in Federal Code, 2CFR200, and state law and guidelines. Allowable costs are outlined in Federal Code, Florida Statutes and the Department of Financial Services' [Reference Guide for State Expenditures \(PDF\)](#). The FDOT and the Capital Region Transportation Planning Agency participate in the Consolidated Planning Grant (CPG).

The CPG enables FDOT, in cooperation with the MPO, FHWA, and FTA, to annually consolidate Florida's FHWA PL and FTA 5305(d) metropolitan planning fund allocations into a single grant that is administered by the FHWA Florida Division. These funds are annually apportioned to FDOT as the direct recipient and allocated to the CRTPA by FDOT utilizing formulas approved by the MPO, FDOT, FHWA and FTA in accordance with 23 CFR 420.109 and 49, U.S.C. Chapter 53. The FDOT is fulfilling the CPG's required 18.07% non-federal share (match) using Transportation Development Credits (Credits) as permitted by 23 CFR 120(i) and FTA C 8100.1D. The Credits are in essence a "soft match" provision allowing the Federal share to be increased up to 100%.

PL SET-ASIDE: COMPLETE STREETS

The Bipartisan Infrastructure Law (BIL) requires each MPO to use at least 2.5% of its PL funds on specified planning activities to increase safe and accessible options for multiple travel modes for people of all ages and abilities. The CRTPA's total PL funding allocation for Fiscal Year 2024/25 -2025/26 is \$1,582,966. For FY 2025 the CRTPA's required allocation for the Safe and Accessible Transportation Options Metropolitan Planning Set-Aside for complete streets planning work is \$19,690. and for FY 26 is \$19,890, for a total of \$39,580.

A Complete Street is safe, and feels safe, for all users. FHWA is focused on supporting transportation agencies to plan, develop and operate equitable streets and networks that prioritize safety, comfort, and connectivity to destinations for all people who use the street network. The CRTPA's major programs and projects support the safe and adequate accommodation of all users of the transportation system, including pedestrians, bicyclists, public transportation users, children, older individuals, individuals with disabilities, motorists, and freight vehicles. The CRTPA's multi-use trail projects, sidewalk enhancements and proposed corridor and safety studies all support the Complete Streets initiative

PL SET-ASIDE: COMPLETE STREETS (CONT.)

In FY 25 \$40,000, of PL funding is budgeted for **Subtask 7.2: Take the Safe Route - Safe Access to School Study**. A notation is added that the project budget that a minimum of \$20,000 must be billed to PL funding to satisfy the 2.5% set-aside. In Fiscal Year 26 \$20,000 in PL funding is budgeted to the Thomasville Road to Welaunee Greenway Multi-use Path connectivity project. A notation is added that assigns the funding to the set-aside.

SUMMARY

The tasks outlined in the UPWP are required by either Federal or State law and are ongoing. At the Federal level, these tasks include the development of a fiscally constrained LRTP and Transportation Improvement Program (TIP), implementation of the Congestion Management Process (CMP), setting performance targets in coordination with state and local partners for national performance measures, and engaging the public and stakeholders to establish a shared vision and goals for the community.

Planning activities programmed within the UPWP satisfy the level of effort requirements anticipated by the CRTPA to meet local priorities, as well as the requirements of Federal Highway Administration, Federal Transit Administration and the FDOT. After adoption, the UPWP is reviewed throughout the year to ensure consistency between staff work efforts and tasks identified within the document, as well as monitoring work progress and assessing the need for possible amendment.

UPWP includes a description of the planning work and resulting products; who will perform the work; time frames for completing the work; cost of the work; and sources of funding and associated set-aside requirements.

FEDERAL PLANNING FACTORS

In December 2015, the **Fixing America's Surface Transportation Act** (FAST Act) was signed into law. The FAST Act serves as the primary surface transportation legislation as amended. As part of the review of projects and plans the FAST Act requires consideration of the following ten Planning Factors.

1. Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency;
2. Increase the safety of the transportation system for motorized and non-motorized users;
3. Increase the security of the transportation system for motorized and non-motorized users;
4. Increase the accessibility and mobility of people and for freight;
5. Protect and enhance the environment, promote energy conservation, improve quality of life, promote consistency between transportation improvements and State and local planned growth and economic development patterns;
6. Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight;
7. Promote efficient system management and operation;
8. Emphasize the preservation of the existing transportation system;
9. Improve the resiliency and reliability of the transportation system and reduce or mitigate storm water impacts of surface transportation; and,
10. Enhance travel and tourism.

Integral to a continuous, cooperative, and comprehensive metropolitan transportation planning process is the consideration and implementation of projects, strategies, and services that will address the federal planning factors. Additionally, these factors are considered in the development of required documents, as well as the studies and plans initiated by the CRTPA.

Table I, on page 48 illustrates the CRTPA's consideration of the ten planning factors in the transportation planning process.

FLORIDA PLANNING EMPHASIS AREAS

In coordination with the development of the UPWP, the FDOT Office of Policy Planning develops Planning Emphasis Areas (PEAs) for consideration in the transportation planning process. Safety, Equity, Resilience and emerging Mobility are the PEAs to be considered in developing and implementing the CRTPA's planning programs.

SAFETY

Safety has been a federal and state planning priority over numerous iterations of transportation legislation and policy. The FAST ACT required MPOs to adopt Safety Performance Measures, and to annually report on and monitor progress against their adopted safety targets. Planning activities included in the UPWP support the identification of safety needs and improvements. The CRTPA planning documents, stand-alone [area or corridor] safety studies and safety considerations within modal planning elements support the goal of a safer transportation system for all users. In addition, the CRTPA consults the [Florida Strategic Highway Safety Plan](#) (SHSP), which provides a framework for eliminating fatalities and serious injuries on all public roads. Additionally, data analyses and community involvement better inform the identification and prioritization of safety projects in the planning process.

EQUITY

Equity is defined as the consistent and systematic fair, just, and impartial treatment of all individuals. This includes people who belong to underserved communities that have been denied such treatment, as well as persons with disabilities, rural communities, and persons otherwise adversely affected by persistent poverty or inequity. Transportation equity supports and enhances access to jobs, health care, education, and other important resources. Providing equal access to opportunity addresses the systemic barriers that may exist because of a person's race, ethnicity, creed, gender, age, physical ability, income, or other factors.

Identifying and selecting projects that promote equity and access to opportunity is essential for addressing the mobility and accessibility needs of historically disadvantaged populations. Executive Order 14008, Tackling the Climate Crisis at Home and Abroad, created the "Justice40 Initiative" that aims to deliver 40 percent of the overall benefits of relevant federal investments to disadvantaged communities. This initiative supports Executive Order 13985, Advancing Racial Equity and Support for Underserved Communities through the Federal Government, it outlines federal policy and defines equity as the consistent and systematic fair, just, and impartial treatment of individuals. data-driven project prioritization considers the impacts of transportation projects on a community, as well as the benefit to enhance opportunities for a community.

FLORIDA PLANNING EMPHASIS AREAS (Cont.)

RESILIENCE

The FAST Act introduced the requirement that states and metropolitan planning organizations consider and implement improving the resiliency and reliability of the transportation system. Resilience is defined as the ability to adapt to changing conditions and prepare for, withstand, and recover from disruptions. Disruptions are events and conditions that are often characterized as shocks (unexpected disruptions) and stressors (causes a state of strain or tension). These changing conditions can encompass a wide variety of environmental, technological, economic, or social impacts, whether the impact is immediate, such as a natural disaster, or prolonged such as the COVID-19 Pandemic. These events and trends can result in unanticipated transportation system disruptions and increasing constraints on infrastructure, impeding access to reliable mobility.

Resilience within the planning processes is a consideration within every planning document prepared by the CRTPA. Additionally, the CRTPA coordinates with agency partners responsible for natural disaster risk reduction and supports local resilience and planning initiatives. In development of the TIP and projects the CRTPA consults **FDOT 23 CFR Part 667**, reasonable alternatives to roads, highways, and bridges that have required repair and reconstruction activities on two or more occasions due to emergency events. Increased costs associated with reducing vulnerability of the existing transportation infrastructure is another factor that is evaluated. Proactive resiliency planning will help the CRTPA develop planning documents that are ultimately more realistic and cost-effective.

EMERGING MOBILITY

Advances in communication and automation technology result in new mobility options, ranging from automated and connected transport, electric vehicles, ridesharing, and micro-mobility. These changes may be disruptive and transformational, with impacts to safety, vehicle ownership, travel capacity, vehicle miles traveled, land-use, transportation design, future investment demands, supply chain logistics, economy, and the workforce.

The UPWP recognizes the important influence of emerging mobility on the multi-modal transportation system and includes related planning studies, collaboration efforts, research, or other activities. Adopting and supporting innovative technologies and business practices supports all seven goals of the Florida Transportation Plan and the federal planning factors found in the FAST Act.

FDOT DISTRICT THREE PLANNING ACTIVITIES

State assistance is provided primarily through the District Three Office and the FDOT District Three Liaison. The District supports the CRTPA planning activities with data collection, modeling, feasibility and corridor studies, and project development. Systems Planning and Reviews

ORGANIZATION AND MANAGEMENT OF THE CRTPA

The CRTPA is the public agency responsible for developing policies and procedures to guide the transportation planning process for the MPA. The CRTPA strives to ensure that the recommendations are in keeping with the goals and standards of the federal and state government, as well as its member governments.

CRTPA RESPONSIBILITIES

The CRTPA's annual responsibilities are to perform the tasks of preparing transportation plans and programs as delegated by the federal and state laws. These duties include insuring adequate representation in the transportation process and assessing the compatibility of state, county, and municipal projects in the transportation multi-modal network. Consideration is given to all modes of transportation with respect to the needs of the elderly and handicapped as outlined in the Americans with Disabilities Act. The plans and programs developed by the CRTPA implement the requirements of the MPO transportation planning process.

CRTPA BOARD

The CRTPA Board is the transportation policy-making body comprised of representatives from local government and transportation agencies with authority and responsibility in urbanized areas. Local government representatives are appointed by the Gadsden, Leon, Jefferson and Wakulla County Commissions, the City of Tallahassee

Commission, and the Leon County School Board. In addition, the six municipalities of Gadsden County (the Cities of Chattahoochee, Gretna, Midway and Quincy and the Towns of Havana and Greensboro) are represented by one elected official selected by the municipalities, and then appointed by the respective Board or Council.

In September 2021 the CRTPA Board approved updates to the Bylaws, Policies and Procedures. The adopted **Bylaws, Policies and Procedures** serve to guide the proper

functioning of the urban transportation planning process and contain information related to the structure, duties and funding of the CRTPA.

ORGANIZATION AND MANAGEMENT OF THE CRTPA (Cont.)

CRTPA EXECUTIVE COMMITTEE

Established in the CRTPA's Bylaws, the Executive Committee is comprised of the Chair, Vice-Chair, and immediate Past-Chair. The Executive Committee meets at a minimum annually to review the CRTPA's operating budget and to complete an annual evaluation of the Executive Director. Additional duties set forth in the Bylaws includes the establishment of CRTPA personnel policies and procedures; review of contracts and emergency approval of time-sensitive items.

CRTPA COMMITTEES

Two advisory committees, the Citizens Multimodal Advisory Committee (CMAC) and the Technical Advisory Committee (TAC), provide input as part of the public involvement process. The CMAC is composed of members of the public who represent the general welfare of the community. The TAC, composed of engineers, planners, and other related transportation professionals, reviews plans, programs, and projects and provides recommendations to the CRTPA based on technical expertise.

The CMAC and TAC meet approximately two weeks prior to regularly scheduled CRTPA meetings to ensure that their recommendations are incorporated into the CRTPA agenda items and provided to CRTPA members in a timely manner. Available for review on the CRTPA website, the adopted [Bylaws](#) govern the activities of the advisory committees. In addition, the Transportation Disadvantaged Local Coordinating Board (TDLCB) identifies the local needs of the transportation disadvantaged population and investigates alternatives to meet those needs. The TDLCB is staffed through the Apalachee Regional Planning Council (ARPC).

CRTPA STAFF

The CRTPA staff is responsible for collecting and disseminating all information from the transportation planning process to the public. The work effort required to support the 3-C planning process is administered by the CRTPA staff in cooperation with local governments, the FDOT, FTA and FHWA. Other agencies are consulted in various phases of the planning process including the Department of Environmental Protection, the Federal Aviation Administration, Federal Rail Administration, and the Water Management District Offices. Public input is provided through public meetings; public hearings; online surveys and interactive documents; and community meetings, consistent with the adopted Public Involvement Plan (Slated for adoption June 17, 2024). Staff maintains and implements CRTPA Policies and Procedures, which are reviewed and updated annually, and the Continuity of Operations Plan.

ORGANIZATION AND MANAGEMENT OF THE CRTPA (Cont.)

CRTPA AGREEMENTS

Agreements with state and local governments, and local and regional agencies promote the continuing, cooperative, and comprehensive (“3-C”) planning process.

Amended Interlocal Agreement for the Formation & Operation of the CRTPA

The agreement between the CRTPA, the FDOT; Leon, Wakulla, Gadsden and Jefferson Counties; the Cities of Chattahoochee, Gretna, Midway, Quincy and Tallahassee; the Towns of Havana and Greensboro; and the Leon County School Board was adopted and executed on March 13, 2014. This Agreement reaffirms the membership of the CRTPA Board and its responsibilities.

Intergovernmental Coordination and Review and Public Transportation Coordination Joint Project Agreement (ICAR)

Updated in 2020, the ICAR establishes that the parties will cooperatively coordinate their efforts related to the transportation planning process and assure that highway facilities, mass transit, air transportation and other facilities will be properly located and developed in relation to the overall plan of community development. Parties to the ICAR are the FDOT, the CRTPA, the ARPC, the City of Tallahassee StarMetro, and the City of Tallahassee Regional Airport,

The Consolidated Planning Grant (CPG) Agreement

The purpose of this agreement is to pass financial assistance to the CRTPA through the Florida Department of Transportation (FDOT) in the form of Federal Highway Administration (FHWA) funds for the completion of transportation related planning activities set forth in the CRTPA’s Unified Planning Work Program (UPWP).

Staff Services Agreement

Approved by the CRTPA Board and the City of Tallahassee Commission in 2021, the day-to-day operations of the CRTPA are accomplished through the Staff Services Agreement with the City of Tallahassee. The agreement outlines the administrative/professional support services and financial responsibilities of each party. All costs for the COT services and staff fringe benefits are established as a direct rate in the budget and is evaluated annually in budget development.

PLANNING ACTIVITIES - DOCUMENTS/PERFORMANCE MEASURES

Tasks outlined in the UPWP include the development of required planning documents in accordance with Federal and State law. The CRTPA is responsible for conducting an inclusive public participation process, and maintaining transportation models and data resources, as well as ongoing programs, such as a congestion management process, monitoring air quality and long-and short-range planning work and initiatives.

At the Federal law requires the development of a fiscally constrained LRTP, an annual update to the TIP adding a new fifth year and the implementation of the Congestion Management Process. Additionally, the UPWP includes the work associated with setting performance targets, in coordination with state and local partners, for national performance measures. An integral part of all planning activities is engaging the public and stakeholders in the 3C (continuing, cooperative, and comprehensive), metropolitan transportation planning process to establish a shared vision and goals for the community.

PUBLIC INVOLVEMENT PLAN (PIP)

Slated for adoption in June of 2024, the PIP provides for early and continuing public engagement in the development of various CRTPA plans and programs. The CRTPA is responsible for actively involving all affected and interested parties in an open, cooperative and collaborative process that provides meaningful participation opportunities to influence transportation decisions. It illustrates strategies and techniques to inform and engage the public, and further integrate virtual and interactive opportunities in transportation planning issues.. The update will examine ways of maximizing participation, social equity and effectiveness, all key components to successful public engagement.

TRANSPORTATION PERFORMANCE MANAGEMENT (TPM) - PERFORMANCE MEASURES

The FAST Act requires the CRTPA to adopt **Performance Measures and Targets**. Performance measures are adopted for highway safety, bridge and pavement, system performance and freight management, transit asset management, and transit safety. Targets, developed cooperatively with our transportation planning partners, are based on the best available data and objective information. Performance Measures are important to the CRTPA's planning program because they allow us to set goals and measure the progress towards those goals over time. Annually the CRTPA reports on the progress towards achieving the Performance Measures and may adjust the goal in response to the updated data. At the February 19, 2024 the Board adopted the 2024 Performance Measures and Targets, including support for the FDOT Vision Zero goal.

CONNECTIONS 2045 REGIONAL MOBILITY (RMP) [LONG RANGE PLAN]

The Connections 2045 RMP is a long-range vision, strategy, and capital improvement program that guides the investment of public funds in transportation facilities. The plan is updated every five years and may be amended because of changes in available funding and/or findings from planning studies. Adopted in November 2020, the Connections 2045 RMP identifies roadway, transit, bicycle, and pedestrian projects within the CRTPA Planning Area. Multi-modal projects in the plan are identified in coordination with the CRTPA's transportation planning partners and other member jurisdictions. The adopted Connections 2045 RMP meets the Federal Highway Administration (FHWA) guidelines and requirements. Additional information on the development of the 2050 Long-Range Transportation Plan, slated for adoption in 2025, is found in the following UPWP Sections, Upcoming Priorities of Planning Activities and Task Three, Long Range Planning.

TRANSPORTATION IMPROVEMENT PROGRAM (TIP)

The development of the TIP is coordinated with the FDOT, FHWA, FTA and member governments. Adopted annually, with a new fifth year, the TIP is a comprehensive list of federal and state projects and local projects of regional significance. The Florida Department of Transportation's Work Program is used to produce the CRTPA's five-year TIP, which is then reflected in the State Transportation Improvement Plan (STIP). Funded transportation projects in the TIP include transit, roadways, bridges, aviation, seaport, rail and commuter rail, bicycle facilities, multi-modal improvements, and enhancement projects like landscaping and greenways. In addition, grant funding for transportation studies and projects is approved by the Board and reflected in the TIP for informational purposes and to facilitate tracking these grant awards project by FDOT. Another example of the 3-C process.

CONGESTION MANAGEMENT PLAN PROCESS AND PLAN (CMP)

Adopted at the March 18, 2024 Meeting, the CMP identifies tools and strategies aimed at reducing peak hour vehicle miles of travel and congestion, while improving connectivity between employment centers and areas with concentrations of transportation disadvantaged populations. A Technical Task Force of stakeholders, transportation providers, and agency and organization representatives from the four-counties provided input. The updated CRTPA CMP was developed through a coordinated and collaborative process focused on achieving regional transportation goals and objectives. Additionally, the update refines the evaluation criteria for assessing projects to ensure that investment decisions are made with a clear focus on desired outcomes. The CMP builds upon the identified strategies to reduce congestion/delay levels, as well as consider related safety improvements. Selected projects in the adopted CMP will advance the goals developed as part of the 2050 LRTP.

STATUS OF LOCAL AND REGIONAL PLANNING ACTIVITIES

Tasks discussed in the Local and Regional Planning Activities were identified through various approved plans and studies. In the development and implementation of these priorities public engagement and stakeholders input is essential to establishing a shared vision and goals for the community.

TALLAHASSEE-HAVANA PATH MULTI USE PATH FEASIBILITY STUDY

Approved by the CRTPA at its November 21, 2022 meeting, the **Tallahassee to Havana Path Feasibility Study** evaluated the potential to construct a 10 to 12-foot multi-use path between the Orchard Pond Parkway in Leon County and Salem Road at SR 12 in Gadsden County. The study evaluated current conditions including existing traffic conditions, available right of way, environmental features, historical resources, connectivity to regional and state trail systems and special locations of note along the corridor, along with public engagement. Subsequently, two SUN Trails applications were submitted to FDOT in December 2024. One requesting funding for design and construction of the Gadsden County segment; the other seeks Project Development & Environment (PD&E) and design funding for the Leon County section.

SR 267 (BLOXHAM CUTOFF ROAD) PATH FEASIBILITY STUDY

Approved at the September 19, 2023 Board meeting, the **SR 267 (Bloxham Cutoff Road) Path Feasibility Study** assessed the ability to construct a shared-use path along SR 267, also known as Bloxham Cutoff, between the Edward Ball Wakulla Springs State Park and the St. Marks Trail. The study evaluated current conditions including existing traffic conditions, available right of way, environmental features, historical resources, connectivity to regional and state trail systems and special locations of note along the corridor, along with public engagement. In FY 2024 the FDOT has programmed the design phase. A SUN Trail applications was submitted to FDOT in December 2024 which requested funding for construction, the design is programmed in FY 2024.

US 90 MULTI USE PATH FEASIBILITY STUDY

The **US 90 Feasibility Study** was finalized and approved by the Board May 19, 2022. The study analyzed the viability of a trail from Pedrick Road in Tallahassee (Leon County) east to the Monticello Bike Path in Jefferson County, connecting Tallahassee to Monticello on US 90. In FY 2024 the FDOT has programmed and the PD&E phase in FY 24 and the design phase of the Leon County segment.

STATUS OF LOCAL AND REGIONAL PLANNING ACTIVITIES (Cont.)

REGIONAL FREIGHT STUDY

At the March 18, 2024 meeting the Board approved the Regional Freight study. Developed with input from a stakeholder committee, the study assessed existing and future conditions, the types of goods coming to and through the region, where they come from, and how freight moves. All modes of the freight transportation systems were evaluated, with an emphasis on trucks, rail, and air cargo. The study identified freight deficiencies and opportunities in the transportation system. Recommendations in the final report present a framework to proactively address freight and goods movement mobility needs and challenges in our region.

REGIONAL TELECOMMUTING STUDY, A LOOK BACK AND A LOOK FORWARD

The Regional Telecommuting Study was finalized and approved by the Board February 19, 2024. There are two main components of the Study, the Technical Report and the supporting material contained in four appendices. The Technical Report presents relevant traffic and teleworker data, key takeaways from stakeholder interviews and the literature review, and recommendations, including best practices. Four appendices present the comprehensive body of information in support of the Technical Report. Appendix A contains a Review of the Literature. Appendix B presents the data and analysis. In addition, providing insight into the impact digital commuting has on roadway congestion, future roadway conditions are modeled assuming various rates of telecommuting. Appendix C presents a synopsis of the interviews with local transportation and economic agencies and employers. Lastly, Appendix D offers resources on developing and implementing a telework program.

SAFE STREETS AND ROADS FOR ALL SAFETY ACTION PLAN

Development of the Safe Streets for All Safety (SS4A) Action Plan included data collection, a safety analysis, and engagement and collaboration with stakeholders and the public. Current policies, plans, guidelines, and/or standards were reviewed. The analysis considered equity and inclusiveness to ensure a representative process. In addition, the SS4A Safety Action Plan identified a comprehensive set of projects and strategies, shaped by data, and noteworthy practices, as well as stakeholder input and equity considerations, that best address the safety problems described. Developed to meet the federal standards for the Safe Streets for All grant program, the adopted SS4S Plan allows the local governments of the Capital Region to apply grant funds for implementation projects. This SS4A Plan was approved by the Board at the June 2023 Board meeting.

STATUS OF LOCAL AND REGIONAL PLANNING ACTIVITIES (Cont.)

SAFE STREETS FOR ALL SAFETY IMPLEMENTATION PLAN N. MONROE STREET

This task supports the development of supplemental planning activities in support of SS4A Action Plan. The study examined crash clusters locations identified on the High Injury Network. Additional data collection and analysis was conducted to document existing conditions and the contributing factors to the high rate of serious injury and fatalities. The study will identify challenges and opportunities for improvement, including recommendations for construction, operational and educational responses. This item will be presented for approval at the June 17, 2024 meeting. ***(After Board action in June, work may continue into the first quarter of the FY25.)***

TRANSPORTATION DATA MANAGEMENT (PERFORMANCE MEASURES & SAFETY)

Data analytics is an important tool in transportation planning. The CRTPA has employed the Urban SDK software using a GIS platform to collect, verify, analyze, safety and speeding data. The CRTPA's dashboard and mapping information is being refined for the public. Analytics support safety and performance measure reporting as well as corridor planning and Title VI effectiveness among other CRTPA efforts.

TAKE THE SAFE ROUTE TO SCHOOL STUDY

This update, which will continue into FY 2025, assesses the progress in implementing the Safe Routes to School (SRTS) program. The study will identify primary factors contributing to the program's effectiveness and, address opportunities for the communities and school boards to further implement the Safe Routes to School programs and projects. Following the comprehensive review, including an evaluation of existing conditions and a desktop analysis and review of planned improvements, the study will identify schools in the Capital Region with the greatest need for improvements. The next component of the will focus on identifying needed improvements and educational resources that support targeted schools to ensure students have safe routes to walk and bike to school. ***(Completion of the final report will continue into the first half of FY25. It is scheduled to be completed in the Spring of 2025)***

PRIORITIES FOR FY 2024/25 & FY 2025/26

Projects and studies identified in the upcoming priorities build upon work initiated in the previous work program. These include technical studies to implement the Congestion Management Plan Process; safety and implementation studies as part of the Safe Streets for All program; and studies that continue the development of the regional trail system. FHWA/FTA Quadrennial Certification - Metropolitan Planning Process.

The CRTPA's Metropolitan Planning Program Quadrennial Certification by FHWA and FTA will begin in late 2024 and continue into the following year. Work includes preparation of the certification information and a public meeting allowing for input on the CRTPA's certification. Notice of the certification will be announced at regularly scheduled meetings and noticed on the CRTPA website.

CONGESTION MANAGEMENT PLAN IMPLEMENTATION: TECHNICAL STUDIES

Following the comprehensive development of the CMP, the technical reports will focus on identifying needed improvements that support targeted corridors and intersections. The technical studies will identify short-term improvements/strategies and long-term improvements to reduce or mitigate recurring and non-recurring congestion. This effort supports the continued implementation of the Congestion Management Process Plan to provide effective management of existing and future transportation facilities and to evaluate potential strategies for managing congestion.

US 90 WEST FEASIBILITY STUDY

This project proposes development of a feasibility study along US 90 in the western half of Gadsden County and is a segment of the US 90 Path Corridor. Components of the FS will evaluate the opportunity to construct a paved multi use trail through a review of existing conditions including roadway characteristics, available right of way, crash data, land use, environmental conditions, grade and elevation, historical resources, and connectivity to regional and state trail systems. The US 90 West corridor is included on the CRTPA's FY 2025 - FY 2029 Regional Trails Project Priority List and is identified on the Florida Greenways and Trails Regional Map. SUN Trail funding was awarded to the CRTPA to complete this study. The project and funding was amended into the CRTPA's TIP.

BRADFORDVILLE RD PATH CONNECTION FEASIBILITY STUDY MULTIUSE PATH (LEON COUNTY) THOMASVILLE RD TO WELAUNEE GREENWAY

This study evaluates the feasibility of connecting the Bradfordville Path from Thomasville Rd to the Welaunee Greenway. The Feasibility Study will review right-of-way availability, identifying potential trail alignments, document natural conditions and physical constraints, and assess any potential fatal flaws.

PRIORITIES FOR FY 2024/25 & FY 2025/26 (Cont.)

2050 Long Range Transportation Plan

The development of the 2050 Long Range Transportation Plan (LRTP) is initiated. The intent and purpose of the LRTP is to encourage and foster the safe and efficient management, operation, and development of a cost-feasible multimodal transportation system which serves the mobility needs of people and freight while minimizing transportation-related fuel demand, greenhouse gases and air pollution. Congestion Management and Air Quality (CMAQ) funding is programmed for the development of the long range plan.

Reducing congestion and emissions while maintaining economically viable and mobile communities is an important goal of the plan and supports the intent of the CMAQ program. The LRTP identifies long range transportation needs, considers infrastructure investments, and establishes priorities to implement projects based on anticipated funding. It provides a framework of goals and objectives to guide multi modal transportation investments and address congestion, as well as the maintenance and operations of systems and structures. This framework aligns plans and actions to clarify federal, state, regional, and local responsibilities to support an overall vision for transportation, economic development, and livability.

SR267/SPRINGHILL ROAD MULTI USE PATH FEASIBILITY STUDY WAKULLA SPRINGS STATE PARK TO CCSW (LEON AND WAKULLA COUNTIES)

This study evaluates the feasibility of connecting Wakulla Springs State Park to Capital Circle SW along SR 267 Bloxham Cutoff and Springhill Road. The Feasibility Study will review right-of-way availability, identifying potential trail alignments, document natural conditions and physical constraints, and assess any potential fatal flaws.

TALLAHASSEE-HAVANA PATH MULTI USE PATH PROJECT IMPACT STUDY (LEON COUNTY)

In coordination with the FDOT, the study will consider the requirements of the National Environmental Policy Act in evaluating this project. Work will include data collection and analysis including social, economic, and environmental conditions. Analysis of the effects of the proposed improvement on environmental, engineering and socioeconomic conditions, safety needs as well as public input will be considered. Ongoing public engagement will be conducted and documented. The final report will include the development and analysis of alternatives, considering the need for additional right-of-way for stormwater and environmental mitigation. It is anticipated that this project will be completed in the Fall of 2026. SUN Trails funding was awarded to the CRTPA to complete the PD&E. The project and funding was amended into the CRTPA's TIP at the February 18, 2025 meeting.

PRIORITIES FOR FY 2024/25 & FY 2025/26 (Cont.)

SCHOOL ACCESS SAFETY STUDY (UPDATE TO 2014 SAFE ROUTES TO SCHOOL REPORT)

This project, initiated in FY24, is continued in the new UPWP. The update investigates the safety and effectiveness of the Safe Routes to School (SRTS) program and the primary factors contributing to a program's effectiveness. In addition, the report will address opportunities for the communities and school boards in the Capital Region to further implement Safe Routes to School programs and projects. A separate portion of the study involves a focused effort identifying needed improvements that support targeted schools in order to implement projects and strategies to increase the number of children walking and biking. (*Completion of the final report will continue into the first half of the FY25-FY26 UPWP.* The project is scheduled to be finalized in FY 2025)

SAFE STREETS FOR ALL (SS4A) SAFETY ACTION PLAN: SUPPLEMENTAL STUDIES

Complete supplemental planning activities in support of SS4A Action Plan. The study will examine crash clusters locations identified on the High Injury Network. Additional data collection and analysis will be conducted to document existing conditions and the contributing factors to the high rate of serious injury and fatalities. The study will identify challenges and opportunities for improvement, including recommendations for construction, operational and educational responses. Safety Action Plans support the previous and future application for funding through the SS4A Discretionary Grant Program.

SS4A SAFETY ACTION PLAN: SUPPLEMENTAL STUDIES

HIN

An implementation study, initiated in the Winter of 2025, will update the crash analysis at 10 identified HIN sites and develop site-specific safety countermeasures in support of a potential SS4A Implementation Grant application by partner agencies. The study is slated for completion in September of 2025.

PRIORITIES FOR FY 2024/25 & FY 2025/26 (Cont.)

SS4A SAFETY ACTION PLAN: SUPPLEMENTAL STUDIES (CONT.)

NORTH MONROE STREET IMPLEMENTATION PLAN AND SUPPLEMENTAL ANALYSIS

At the September 2024 meeting the CRTPA Board approved the Safety Implementation Plan. An application for an SS4A grant award to fund this implementation of this plan was submitted to the US DOT in 2024, but was not awarded full funding for the project. The application will be resubmitted in the summer of 2025. As revised, the application considers FHWA recommendations in response to the first submittal as well as updated project costs and analysis. This resubmission will carry forward the potential projects identified through the previously completed North Monroe Street Safety Implementation Plan.

In addition, an additional subtask for the N Monroe St Implementation Plan is added which will refine intersection safety improvements along the corridor and identify potential access changes to enhance safety.

US 90/Tennessee S.- Corridor Study (SS4A Safety Action Plan)

This project proposes development of a feasibility study on the Tennessee corridor from North Monroe St to Aeon Church Road. This corridor is identified in the Safe Streets for All (SS4A) as part of the High Injury Network (HIN). On the HIN corridors the focus is ultimately to eliminate traffic-related fatalities and severe injuries. Work will be completed by a consultant and supported by staff and a technical committee. Activities include review of existing conditions, including general roadway characteristics, existing land use and transportation systems, planned and programmed projects, and existing plans and studies. Additional work includes community engagement and an analysis to identify issues along the corridor that will provide potential short term solutions, recommend community-based enforcement strategies, and highlight potential long-term solutions. An application for an SS4A grant award to fund this study was submitted to the US DOT. However the grant was not awarded. The application will be resubmitted in the summer of 2025.

UPWP TASK 3.0 – LONG-RANGE PLANNING

The LRTP is the foundation document in transportation planning. It must address at least a 20-year planning horizon and include long-range and short-range strategies consistent with state, regional and local goals, and objectives. The LRTP is reviewed and updated at least every five years in attainment areas that meet the national ambient air quality standards.

Strategies and actions in the LRTP provide for the development of an integrated multimodal transportation system (including accessible pedestrian walkways and bicycle transportation facilities) to facilitate the safe and efficient movement of people and goods in addressing current and future transportation demand.

The Long-Range Planning task includes the activities related to the development of a Long-Range Transportation Plan (LRTP) along with the long-term implementation of various transportation projects. Currently, the CRTPA's adopted LRTP is Connections 2045 Regional Mobility Plan (RMP). The Task also includes coordination efforts with our regional partners to address transportation on a regional level.
