## CRTPA RESOLUTION 2024-06-6A

### A RESOLUTION OF THE CAPITAL REGION TRANSPORTATION PLANNING AGENCY (CRTPA) ENDORSING THE FY 2025 – FY 2029 TRANSPORTATION IMPROVEMENT PROGRAM

---

**Whereas**, the Capital Region Transportation Planning Agency (CRTPA) is the organization designated by the Governor of Florida on August 17, 2004 together with the State of Florida, for carrying out provisions of 23 U.S.C. 134 (h) and (i)(2), (3) and (4); CFR 450.324, 326, 328, 330, and 332; and FS 339.175 (5) and (7); and

**Whereas**, the Transportation Improvement Program (TIP) shall be endorsed annually by the CRTPA and submitted to the Governor of the State of Florida, to the Federal Transit Administration, and to the Federal Highway Administration, through the State of Florida;

**NOW, THEREFORE LET IT BE RESOLVED BY THE CAPITAL REGION TRANSPORTATION PLANNING AGENCY (CRTPA) THAT:**

1. The Fiscal Year 2025 through Fiscal Year 2029 Transportation Improvement Program is hereby endorsed as an accurate representation of the region's transportation effort as developed through a continuing, cooperative, and comprehensive process that provided consideration to all transportation modes in accordance with the metropolitan planning provisions of U.S.C. 134;
2. The CRTPA authorizes the Chair to sign the State of Florida certification statement, which must be submitted annually with the TIP;
3. In order to expedite amendments to the TIP, the CRTPA authorizes the Executive Director to administratively approve airport project amendments which do not materially affect surface transportation traffic volumes or traffic distribution in the vicinity of the subject airport;
4. The CRTPA also authorizes the Executive Director to administratively approve project amendments to the TIP which do not meet any of the four (4) criteria which require a formal tip amendment listed in Chapter 4, Section 4.3 of the Florida Department of Transportation's Metropolitan Planning Organization Program Management Handbook; and
5. The CRTPA requires the Executive Director to inform the CRTPA of all TIP amendments approved under these authorizations quarterly.

Passed and duly adopted by the Capital Region Transportation Planning Agency (CRTPA) on this 17<sup>th</sup> day of June 2024.

**Capital Region Transportation Planning Agency**

By:   
Quincee Messersmith, Chairman

Attest:   
Greg Slay, Executive Director

## FY 2025– FY 2029 TRANSPORTATION IMPROVEMENT PROGRAM AMENDMENTS/MODIFICATIONS PAGE

The following lists the changes made to the document subsequent to adoption on June 17, 2024.

On December 2, 2024 the Executive Committee approved the following amendments to the FY 2025 - FY 2029 Transportation Improvement Program:

- ✦ SR369 (US319) from S of East Ivan Road to SR267 (Bloxham Cutoff Road) (Project No. 220495-7): Provide \$726,873 in funding in FY 25 to add lanes and reconstruct roadway [Construction Phase] (Wakulla County)
- ✦ SR263 Capital Circle from CR2203 Springhill Rd to SR371 Orange Avenue (Project No. 415782-9): Provide \$5,231,199 in funding in FY 25 to add lanes and reconstruct roadway [Construction Phase]. (Leon County)
- ✦ SR 10 (US 90) West Tennessee Street from CR 1581 Aenon Church Road to SR 20 (Blountstown Street) (Project No. 454522-1): Provide \$100,000 in funding in FY 25 to add roadway lighting. (Leon County)
- ✦ StarMetro FY 2023 Section 5339(b) Buses and Bus Facilities Discretionary Grant (Project No. 456181-1): Provides StarMetro with \$20,370,792 in FY 2023 FTA money and \$3,911,546 in matching local monies from the City of Tallahassee (COT) to fund the purchase of battery-electric buses, to support charging infrastructure and the development of a workforce training program for its mechanics and operators to maintain the fleet. The project will help reduce emissions and improve service and reliability for riders in and around Tallahassee. (Leon County)
- ✦ StarMetro Section 5339(c) Low or No Emission Discretionary Grant (Project No. 456181-2): Provides \$10,702,365 in FY 2024 FTA funding, \$646,687 in State funds (toll credits) and \$1,200,000 (COT) local funds to StarMetro to buy new battery-electric buses to replace older vehicles and install charging equipment. The project will reduce emissions, improve service and reliability, and help the city achieve its goal for 100% battery electric bus transportation by 2035. (Leon County)
- US90/SR10 from Gadsden County/Jackson County Line to SR 12 (Project No. 455418-1): Provides \$221,180.00 in SUN Trail funding for the Design (PE) funding in FY 25 for a Multi-use Path Feasibility Study. (Gadsden County)
- Old Bainbridge Road/CR 153 from the Gadsden County Line to Salem Road/CR 159 (Project No. 455420-1): Provides \$659,412 in SUN Trail funding in FY 25 for the Design (PE) Phase for a Multi-use Trail. (Gadsden County)
- Old Bainbridge Road/CR 153 from the Leon County Line to Orchard Pond Greenway Trail Head (Project No. 455411-1): Provides \$976,480 in SUN Trail funding in FY 25 for the Project Development and Environment (PD&E) Phase for a Multi-use Trail. (Leon County)
- Bloxham Cutoff Road/SR 267 from Wakulla Springs Park to St. Marks Trail Head (Project No. 410172-2): Provide \$822,714 in SUN Trail and Urban Attributable (SU) funding in FY 25 for the Design (PE) Phase for a Multi-use Trail. (Wakulla County)

On June 16, 2025 the CRTPA approved the following amendments to the FY 2025 - FY 2029 Transportation Improvement Program:

- \* SR 8 (I-10) from Ochlocknee Relief Bridge to Ochlocknee River Bridge (Project No. 454858-1) Provides \$1,031,760 in funding for the Design (PE) and Construction (CST) of safety improvements to the Ochlocknee Relief Bridge.
- \* Capital Circle NE (US 319) and Mahan Dr (US 90) from: APALACHEE Parkway to: Centerville Rd. Project No. 454858-1): Provides \$1,985,765 in funding for the Project Development and Environment Study (PD&E) at the intersection.

# TIP BASICS

## What is the CRTPA?

The Capital Region Transportation Planning Agency (CRTPA) is the region's metropolitan planning organization (MPO). An MPO is a federally mandated local transportation policy-making organization that is comprised of representatives from local government and transportation agencies. The CRTPA coordinates the regional transportation planning process and includes all of Gadsden, Jefferson, Leon and Wakulla counties. Voting representatives from the following local governments serve on the CRTPA Board:

- Leon County
- City of Tallahassee
- Leon County School Board
- Gadsden County
- City of Chattahoochee
- Town of Greensboro
- City of Gretna
- Town of Havana
- City of Midway
- City of Quincy
- Jefferson County
- City of Monticello
- Wakulla County
- City of Sopchoppy
- City of St. Marks

## What is the TIP?

The Transportation Improvement Program (TIP) is a multi-year document reflecting transportation projects programmed for federal, state, and local funding within the Capital Region Transportation Planning Agency (CRTPA) area (Gadsden, Jefferson, Leon and Wakulla counties).

## Why does the CRTPA develop a TIP?

In order to use federal funds for a transportation improvement, the US Department of Transportation requires that the improvement be identified within an adopted TIP. Specifically, 23 U.S.C. 134(j), 23 CFR 450 and subsection 339.175(7), F.S. require MPOs to develop a TIP.

## What types of projects are included within the TIP?

The TIP contains state and federal projects. Projects within the document are listed by county and project type, as follows:

- ❑ Major Capacity (significant capacity additions to existing roadways or the construction of new roadways);
- ❑ Transportation Systems Management (projects that typically provide low-cost improvements to existing roadways, such as the addition of turn lanes at intersections or improvements to assist pedestrians; also includes Intelligent Transportation System (ITS) projects);
- ❑ Intelligent Transportation Systems (ITS) PPL (projects that improve the operation of the entire transport system);
- ❑ Bicycle/Pedestrian (includes bicycle and pedestrian projects as well as transportation enhancement projects consistent with the requirements of the Safe, Accountable, Flexible and Efficient Transportation Equity Act (SAFETEA-LU) including such projects as bicycle and pedestrian amenities, landscaping, and rehabilitation of historical transportation buildings);
- ❑ Public Transportation (includes operations and capital improvements projects for StarMetro, as well as projects that fund the provision of public transportation services for the transportation disadvantaged and projects that fund commuting services between the communities with the CRTPA region);
- ❑ Aviation (includes aviation projects for the Tallahassee International Airport and the Quincy Municipal Airport);
- ❑ Bridge (includes bridge rehabilitation and replacement projects selected by the FDOT); and,
- ❑ Resurfacings (includes resurfacing and repaving projects on the state system as identified by the FDOT).

Projects listed in the TIP are identified by project phase (planning, project development & environment study, right-of-way, design/preliminary engineering, and construction). Within the TIP, this information is located in the 'Phase Code' column of each listed project, with an explanation of the codes listed in **Appendix A** under "Project Phase Abbreviations".

## How can I search projects in the TIP?

The projects contained within this document may be interactively searched on-line at the CRTPA's Interactive TIP site. The site may be accessed through the agency's website ([www.crtpa.org](http://www.crtpa.org)) or directly (<http://crtpa.dev.dtstiptool.com/>). The Interactive TIP allows users to search for projects by project type or location. Additionally, an interactive map allows users to identify the location of programmed projects within the TIP. Contact CRTPA staff to arrange a training session on how to use the Interactive TIP.

## Why does the CRTPA amend the adopted TIP?

Subsequent to the annual adoption of the TIP in June, the CRTPA amends the document to reflect changes to the FDOT work program such changes. Examples of such changes may include changes to the funding of an existing project or the addition of a newly funded project. The purpose of these amendments is to ensure the document accurately reflects the transportation projects within the CRTPA region.

## What is the schedule for development of the TIP?

Development of the CRTPA's TIP is closely tied to the schedule for development of the FDOT's Work Program. This is because the FDOT Work Program, which provides a statewide project list of transportation improvements and activities for implementation during a five-year period, is used by the CRTPA to identify federal and state funded projects with the CRTPA area for inclusion within the TIP. A draft of the Work Program is developed in the late fall of each year and adopted in July of the subsequent year by the FDOT Secretary. Typically, the following contains the typical schedule for CRTPA TIP development:

- January: TIP development is initiated subsequent to FDOT development of the FDOT Draft Work Program.
- May/June: The draft TIP is placed on the CRTPA's webpage ([www.crtpa.org](http://www.crtpa.org)) for public review.
- May/June: Public meetings to present the draft TIP are held in the CRTPA region in conjunction with the draft project priority lists.
- June: The CRTPA adopts the TIP and the adopted document is placed on the CRTPA's webpage. After adoption, the TIP is provided to the FDOT for incorporation into the State Transportation Improvement Program (STIP).

## What are the CRTPA's Project Priority Lists and how are they used for funding?

Annually, the CRTPA adopts project priority lists (PPLs). The PPLs contain a listing of transportation projects in priority (ranked) order for which funding is sought. Subsequent to CRTPA adoption, the PPLs are provided to the FDOT for use in development of the FDOT Annual Work Program. Specifically, the FDOT matches eligible funding available to the CRTPA with the top ranked projects identified by the CRTPA. Projects included within the TIP must be consistent with the policies and priorities of the CRTPA's adopted Long Range Transportation Plan ("The Regional Mobility Plan") as well as the adopted comprehensive plans of CRTPA member governments. Consistent with this process, the following CRTPA FY 2025 – FY 2029 Project Priority Lists (PPLs) were adopted by the Governing Board on June 22, 2023:

- Regional Mobility Plan (RMP) Roadways PPL (identifies roadway projects). (Project source: Regional Mobility Plan). The RMP Roadways PPL maintains the project ranking order as developed in adopted Connections 2045 RMP in which identified projects were ranked based upon the RMP's adopted goals and objectives.
- Regional Mobility Plan (RMP) Bicycle and Pedestrian PPL (identifies bicycle and pedestrian projects). (Project source: Regional Mobility Plan). The RMP Roadways PPL maintains the project ranking order as developed in the adopted Connections 2045 RMP in which identified projects were ranked based upon the RMP's adopted goals and objectives.
- Regional Trails PPL (identifies regional trail projects). (Project source: The Regional Mobility Plan & FDOT SUN Trail Network). The Regional Trails PPL is a new CRTPA PPL developed to highlight regional trail projects and unique funding opportunities.
- StarMetro PPL (provides a listing of transit projects, *developed by StarMetro*, reflecting projects consistent with StarMetro's adopted Transit Development Plan (TDP).

## CRTPA's Project Priority Lists (Cont.)

- Transportation Systems Management and Safety (TSMS) PPL (identifies low cost improvements to the existing transportation system that can be constructed in less than two years (such as intersection improvements). (Project source: FDOT or local governments provides a list of eligible projects). Projects on the TSM PPL go through a specific FDOT process in order to be included on the list. Factors evaluated in generation of this list included: safety, mobility and estimated current intersection level of service information.
- Intelligent Transportation Systems (ITS) PPL The overall function of ITS is to improve the operation of the entire transport system (often in real-time) for agencies responsible to transportation systems and the travelers, shippers, and other users of these facilities. Intelligent Transport Systems refers to the use of information and communication technologies in transportation. ITS can improve traffic flow by reducing congestion; quickly detect incidents and appropriately respond to them; improve air quality by reducing pollution levels locally and minimizing travel delay; improve safety by providing advance warning before potential crash situations; minimize the impacts of environmental, highway and human factors that contribute to accidents. (Project source: Tallahassee-Leon ITS Master Plan)
- Transportation Alternatives PPL (provides funding for transportation projects that expand travel choices and enhance the transportation experience by integrating modes and improving the cultural, historic, and environmental aspects of our transportation infrastructure). (Project source: eligible alternatives projects solicited by the CRTPA and submitted by eligible sponsors). This list was evaluated and recommended for ranking by the Transportation Alternatives Subcommittee using seven (7) prioritization criteria prior to adoption by the CRTPA.
- Tallahassee International Airport PPL (provides a listing of airport projects, *developed by the Tallahassee International Airport*, consistent with the adopted 2019 Airport Master Plan Update).

Prior to adoption, public meetings are conducted to present the CRTPA's Draft FY 2025– 2029 Project Priority Lists. Two meetings were held, one in-person and one virtually, in May and June 2023 for the CRTPA Region (Monticello, Crawfordville, Quincy and Tallahassee). Information regarding the meetings was placed on the CRTPA's website ([www.crtpa.org](http://www.crtpa.org)), in the region's newspapers and an e-mail message regarding the meeting was sent to the agency's transportation partners. An announcement was sent to the Public Information Officers for the four counties, requesting that they post and distribute the TIP and PPL meeting information and related material. **Appendix E** contains the CRTPA's adopted FY 2025 – FY 2029 PPLs including the criteria used in the development of the lists. Additionally, more information regarding the CRTPA's PPLs is located in the above **Executive Summary** of this document under "Project Priority Statement".

Information regarding the meetings will be sent out in an email blast as well as advertised in each of the four (4) county newspapers prior to the meeting. Lastly, the information on the TIP and PPL meeting and related material is sent to the Public Information Officers (or equivalent) for the four counties, and the TIP update and PPLs will be presented at the CRTPA's June 4, 2024 two (2) committees (Citizens Multimodal Advisory Committee (CMAC) and Technical Advisory Committee (TAC), prior to adoption at the CRTPA Board meeting in June. Specifically, prior to TIP adoption the public was able to go online using the **Interactive TIP** and directly comment on projects that are graphically linked to a map of the CRTPA region. Finally, the TIP is a featured CRTPA document placed on the agency's homepage (in addition to the "Documents" page). **Appendix H** ("Public Involvement") documents these efforts. Furthermore, the current TIP reflects use of an enhanced public involvement technology and outreach opportunities through social media.

## How can the public provide input?

A variety of public involvement opportunities are provided to citizens associated with the development of the TIP prior to CRTPA adoption. Such opportunities include the Interactive TIP, CRTPA public virtual and in-person meetings typically held in June to solicit comments on the draft TIP. The draft TIP is posted on the CRTPA's website ([www.crtpa.org](http://www.crtpa.org)) and notices distributed through social media. At every opportunity the CRTPA seeks to gather input and comment from the public on the draft TIP. Additionally, the TIP is presented to the CRTPA's two (2) advisory committees, the Citizens Multimodal Advisory Committee (CMAC) and Technical Advisory Committee (TAC) as well as the CRTPA Board. The TIP is adopted by the CRTPA at its May or June meeting. Citizens are allowed to provide comments at all CRTPA meetings.

All public comments received regarding the TIP are formally documented. Specifically, any comments are included in the TIP document in **Appendix H** ("Public Involvement") which details the public involvement efforts prior to TIP adoption. Additionally, public comments are included in the TIP agenda item as an attachment when the document is adopted each year.

Because the TIP reflects projects already programmed for funding, a good time to provide public comment on the CRTPA's transportation projects is during the annual development of the CRTPA's PPLs. To that end, PPL public meetings are held prior to PPL adoption by the CRTPA (and often in concert with the TIP public meetings). This public meeting provides citizens an opportunity to comment not only on specific transportation projects, but also the *type* of projects (i.e. roadway, transit, bicycle or pedestrian) that they believe should receive funding priority. In addition, the public is allowed to provide comment prior the CRTPA's adoption of the PPLs.

Furthermore, every five years the CRTPA updates its Long-Range Transportation Plan ["The Regional Mobility Plan" (RMP)]. The RMP is a twenty-year document that identifies future projects that are ultimately placed (and ranked) on the PPLs. Public involvement in the RMP update is extensive and provides one of the best opportunities citizens have to get involved in the planning of the region's transportation system. The CRTPA's 2045 Regional Mobility Plan was adopted on November 23, 2020 and amended June 2021. Subsequently, project and financial resource plans were updated to ensure compliance with federal planning requirements.

## How does the TIP get approved?

At the local level, the CRTPA approves the TIP prior to submittal to the State and Federal government for review and approval. At the State level, the Governor approves the TIP prior to it becoming part of the State Transportation Improvement Program. The Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) approve the TIP at the Federal level.

### **How are the projects within the TIP Funded?**

Federal and state dedicated sources of funding contained within the TIP originate from the Federal Highway Trust Fund and the State Transportation Trust Fund. Each of these funds receives specific tax source revenue earmarked solely for transportation purposes. Such funding includes sources such as gasoline taxes (federal gas tax and state motor fuel tax) as well as motor vehicle fees. Funding for transit includes funding from the Federal Transit Administration (FTA), Florida Department of Transportation (FDOT) Public Transit Office, and the City of Tallahassee. Funding for local government transportation projects (as reflected within adopted Capital Improvements Programs) may be from a variety of sources including general revenue, local option gas taxes, and optional penny sales taxes (Blueprint Intergovernmental Agency).

### **How can I learn more about the CRTPA?**

Information regarding the CRTPA including adopted documents, meeting dates, staff/member contact information and opportunities for public involvement may be viewed on the CRTPA's website ([www.crtpa.org](http://www.crtpa.org)). Furthermore, the CRTPA welcomes citizens to contact staff directly at (850) 891-8630 or through the CRTPA [Contact Us Webpage](#).

### **How do I get to the full project cost and other project details?**

#### **For projects on the Strategic Intermodal System (SIS):**

The normal project production sequence is to have a Project Development and Environment (PD&E) phase, a Design (PE) phase, a Right of Way (ROW) phase and a Construction (CST) phase. Some projects may not have a ROW phase if land is not needed to complete the project. Costs on the TIP pages for projects on the SIS will have historical costs, five years of the current TIP and five years beyond the current TIP, which may or may not be the total project cost. If there is no CST phase on the TIP page, then the entry will probably not be reflective of the total project cost. For some projects, such as resurfacing, safety or operational projects, there may not be a total cost provided but rather additional details on that program.

The SIS is a network of high priority transportation facilities which includes the state's largest and most significant commercial service airports, spaceports, deep water seaports, freight rail terminals, passenger rail and intercity bus terminals, rail corridors, waterways and highways. All projects on the SIS are identified in the Project Description section of each TIP page as such. For costs beyond the ten-year window, please refer to the agency's long range transportation plan: The Regional Mobility Plan (RMP). The link to the RMP is: [www.crtpa.org/RMP.html](http://www.crtpa.org/RMP.html). The RMP reference on the TIP page provides the information necessary to locate the full project costs and/or additional details regarding the project in the RMP. If there is no RMP reference in the TIP, full project costs are provided in the TIP.

## Project Cost and Other Project Details (Cont.)

### For projects NOT on the Strategic Intermodal System (SIS):

The normal project production sequence is to have a Project Development and Environment (PD&E) phase, a Design (PE) phase, a Right of Way (ROW) phase and a Construction (CST) phase. Some projects may not have a ROW phase if land is not needed to complete the project. Costs on the TIP pages for projects not on the SIS will have historical costs and five years of the current TIP, which may or may not be the total project cost. If there is no CST phase on the TIP page, then the entry will probably not be reflective of the total project cost. For some projects, such as resurfacing, safety or operational projects, there may not be a total cost provided but rather additional details on that program. Total project costs and other project details will be accessible in the TIP for all non-SIS projects in the TIP. All projects not on the SIS will have a Non-SIS identifier on the TIP project page.

For costs beyond the five-year window, please refer to the agency's long range transportation plan: [Connections 2045 Regional Mobility Plan](#) (RMP). The link to the RMP is: [www.crtpa.org/RMP.html](http://www.crtpa.org/RMP.html). The RMP reference on the TIP page provides the information necessary to locate the full project costs and/or additional details regarding the project in the RMP. If there is no RMP reference in the TIP, full project costs are provided in the TIP.

### **DISCLAIMER:**

The "Total Project Cost" amount displayed for each of the federal and state funded projects in the TIP may represent 10 years of programming in the Florida Department of Transportation's (FDOT's) Work Program database for projects on the Strategic Intermodal System (SIS) (FYs 2024/2024 through 2027/2028), and 5 years of programming in the FDOT Work Program for non-SIS projects (FYs 2024 through 2028, plus historical cost information for all projects having expenditures paid by FDOT prior to FY 2024. Every effort has been made to ensure that the most accurate total project costs are presented in the TIP.

For a more comprehensive view of a particular project's anticipated total project cost for all phases of the project, please refer to the CRTPA's Regional Mobility Plan.

# EXECUTIVE SUMMARY

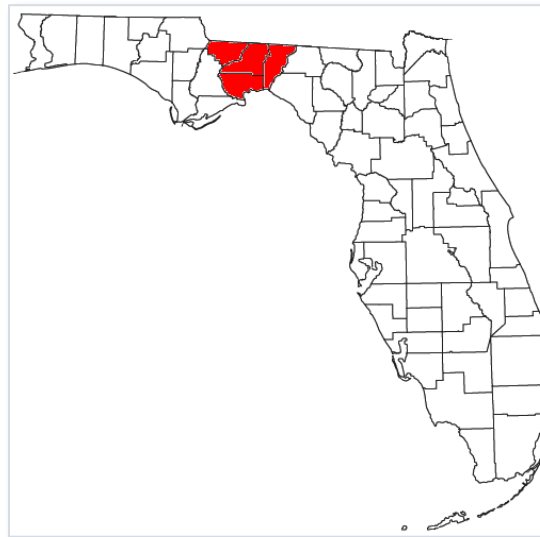

## Purpose of the TIP

Prepared annually, the Transportation Improvement Program (TIP) contains all transportation projects and programs in the CRTPA's Metropolitan Planning Area (Figure 1) funded with State, Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) funds. Additionally, the TIP reflects regionally significant projects regardless of funding source (23 C.F.R. 450.326(a)); (49 U.S.C. Chapter 53). In its capacity as the metropolitan planning organization for the Capital Region, the CRTPA adopts a TIP to ensure that transportation providers and the member governments are eligible to receive State and Federal funding for projects and programs.

**Figure 1: CRTPA Metropolitan Planning Area**

*The Capital Region Metropolitan Planning Area (MPA) includes Gadsden, Jefferson, Leon, and Wakulla Counties, consistent with the MSA. The CRTPA serves as the Capital Region's metropolitan planning agency responsible for transportation policy development, planning, and programming for the counties and municipalities.*

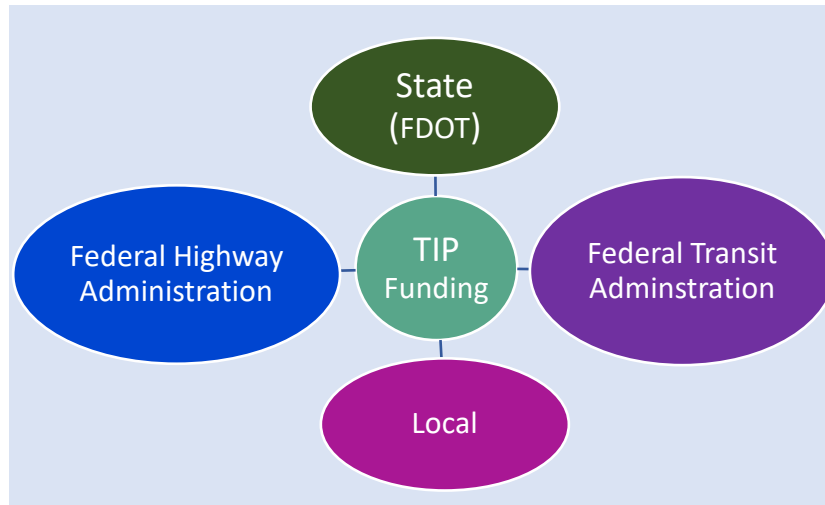

*The Tallahassee Metropolitan Statistical Area (MSA) in Florida is the metropolitan area centered on Tallahassee, Florida, as designated by the Office of Management and Budget and used by the Census Bureau and other agencies for statistical purposes. TIP Development*

**Figure 2: Tallahassee Metropolitan Statistical Area**

### Purpose of the TIP (Cont.)

The TIP serves as a short-range plan because it allocates resources and dollars over a five-year period. Included in the TIP are capital and non-capital surface transportation projects, bicycle and pedestrian facilities, transit, aviation, rail, maintenance and other transportation enhancements, Federal Lands Highway projects, safety projects included in the State's Strategic Highway Safety Plan and transportation planning funding.

The TIP satisfies federal mandates (Title 23 United States Code (U.S.C.) 134 (j)) requiring Metropolitan Planning Organizations (MPOs) to develop a prioritized listing/program of transportation projects, covering a period of four years consistent with the CRTPA's *Connections 2045 RMP*". It provides a staged, multi-year listing of local and regionally significant transportation improvements within the MPA that will be funded by Title 23 and Title 49 U.S.C. funds. Regionally significant projects for which federal action is required, regardless of whether the projects are funded with [Federal] Title 23 and Title 49 funds, are included in the TIP. In addition, to comply with Florida Statutes (§ 339.175(8)(c)), the TIP also provides a list of regionally significant locally and privately funded projects for information purposes. Pursuant to federal law, the TIP must cover a four-year period, years beyond the four-year time period are considered informational. Florida law, however, mandates that the TIP cover a five-year period. To satisfying federal mandates, the TIP serves to inform the

**Figure 3: TIP Funding Sources**

public of those projects within the CRTPA area that have received funding from federal, state, and local sources (*Figure 3*). State, federally and locally funded projects within the TIP are listed by project type, as follows:

- |                      |                                     |
|----------------------|-------------------------------------|
| • Aviation           | • Planning                          |
| • Bicycle/Pedestrian | • Public Transportation             |
| • Bridge             | • Resurfacing                       |
| • Major Roadway      | • Transportation Systems Management |

Purpose of the TIP (Cont.)

In accordance with Title 23 CFR Part 450.324, the TIP is a financially constrained document. The document identifies those projects that can be implemented using existing revenue sources, as well as those projects that are to be implemented through use of projected revenue sources based upon the FDOT Final Tentative Work Program and locally dedicated transportation revenues.

*Fiscal constraint requires that revenues in transportation planning and programming (Federal, State, Local) are identified and "are reasonably expected to be available" to implement the metropolitan long range transportation plan and the State and CRTPA's Transportation Improvement Programs, while providing for the operation and maintenance of the existing highway and transit systems.*

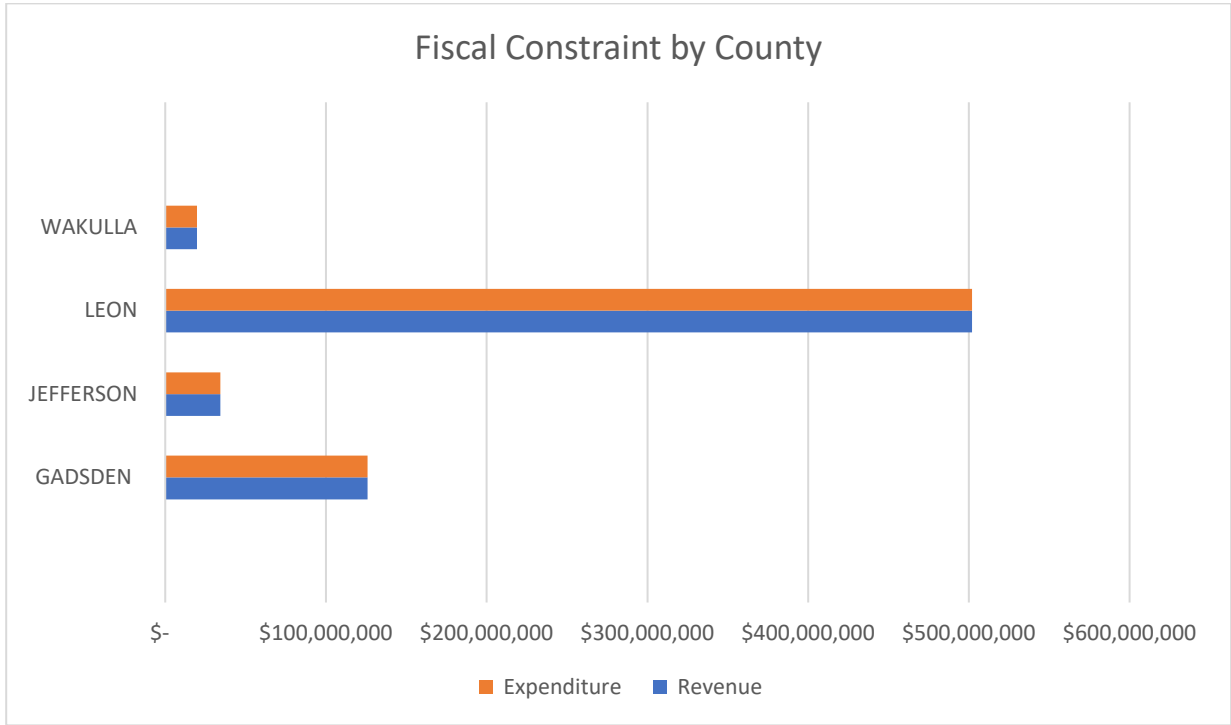

Figure 4: Fiscal Constraint by County

### ***Purpose of the TIP (Cont.)***

The TIP is developed by the CRTPA in cooperation with the Florida Department of Transportation (FDOT) and the transit operator, StarMetro, who provide the CRTPA with estimates of available federal and state funds for use in development of the financial plan. (23 C.F.R. 450.326(a)); [49 U.S.C. Chapter 53] Project cost estimates are developed in present day costs and inflated to year of expenditure using inflation factors ("Year of Expenditure").

This document also fulfills Federal requirements in that the listed projects are derived from the Connections 2045 RMP for inclusion in the program and addresses program requirements relating to the federal transportation law passed in July, 2012 titled "Moving Ahead for Progress in the 21st Century Act (MAP-21)". On December 4, 2015, President Obama signed into law the Fixing America's Surface Transportation Act, or "FAST Act". The Coronavirus Response and Relief Supplemental Appropriations (CRRSA) Act 2021, signed into law on December 27, 2020, and the Infrastructure Investment and Jobs Act (IIJA) signed into law November 15, 2021 by President Biden, provide a historic investment in transportation that continues to be implemented during this 5-year TIP window.

A summary of funds by funding category and project type is contained within the TIP in the "Funding Source Summary" section and provides more detail on both the funding amounts and sources for each project included in the TIP. Additionally, as funding becomes available, if a project is advanced, or a discretionary grant is awarded, FDOT or the agency awarded a grant, may request the CRTPA to process an amendment to the TIP.

For example, federal CRRSA funding was made available for Transportation Disadvantage Services in Gadsden and Leon Counties. In another example, IIJA Carbon Reduction funds were programmed on a new project, Jefferson County Rest Area Truck Parking Improvements. The CRTPA's TIP was amended to reflect the additional funding from both of these programs. In FY 24 StarMetro was awarded fifteen million in federal grant [TIGR] funding for the construction of the City of Tallahassee's project, the Sustainable Southside Transit Center. The TIP was amended to include these funds and reflect state and local contributions as well.

### **Project Selection**

Projects included within the TIP reflect the CRTPA's transportation priorities. The CRTPA's prioritization process individually ranks projects by project type on several project lists and is consistent with the federal requirements of 23 CFR 450.322(b), and periodically evaluates facilities that have repeatedly required repair and reconstruction due to emergency events. In the Capital Region tow roadways in Leon County have been identified. (23 CFR 667.3) The TIP prioritization process evaluates projects to assess the anticipated effect of reducing both fatal and injury crashes. Specifically, safety is adopted as a criterion for project selection in the *Connections 2045 RMP*, and for the ranking of projects on the CRTPA's project priority lists.

### ***Project Selection (Cont.)***

Additionally, the CRTPA's Congestion Management Process Plan is reviewed for potential project identification to ensure the safe and effective integrated management and operation of the region's multimodal transportation system. More information on the CRTPA's prioritization process is provided below in the "Project Priority Statement" discussion, as well as in the "TIP Basics" Section of this document. Furthermore, *Appendix E* ("Adopted Project priority Lists") provides the agency's most recently adopted priorities. [23 C.F.R 450.332(b) and for non-TMA MPOs 23 C.F.R. 450.332(c)]

### **Consistency with Other Plans**

All projects included within the TIP are consistent with the *Connections 2045 RMP*, adopted on November 23, 2020 and amended June 2021. The RMP defines the strategy to accommodate existing and future travel needs for the four-county CRTPA region and is the region's long-range transportation planning document. The adopted *Connections 2045 RMP* contains the following broad planning factors identified for special focus:

- Connectivity
- Economic Development
- Access
- Multimodal
- Land Use
- Security
- Safety
- Public Health
- Natural Resource Protection/Conservation
- Freight and Transportation Technology

In addition to consistency with the *Connections 2045 RMP*, the TIP is consistent with the Aviation Master Plan of the Tallahassee International Airport, the Transit Development Plan of StarMetro (which was developed in conjunction with the RMP) and locally adopted plans, for example the Tallahassee Leon County Bike-Ped Master Plan. Furthermore, the TIP is consistent with the approved comprehensive plans of the local county and municipal governments within the CRTPA region (§ 339.175(8)(a) F.S.).

## Consistency with FAST Act Federal Planning Factors

Projects within the TIP are consistent with the Fixing America's Surface Transportation Act (FAST Act) that was signed into law in December 2015. The FAST Act serves as the primary surface transportation legislation.

The FAST Act identifies the following ten planning factors to be considered as part of the review of projects and plans:

- 1) Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency.
- 2) Increase the safety of the transportation system for motorized and non-motorized users.
- 3) Increase the security of the transportation system for motorized and non-motorized users.
- 4) Increase the accessibility and mobility of people and for freight.
- 5) Protect and enhance the environment, promote energy conservation, improve quality of life, promote consistency between transportation improvements and State and local planned growth and economic development patterns.
- 6) Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight.
- 7) Promote efficient system management and operation.
- 8) Emphasize the preservation of the existing transportation system.
- 9) Improve the resiliency and reliability of the transportation system and reduce or mitigate stormwater impacts of surface transportation.
- 10) Enhance travel and tourism.

## Project Priority Statement

Project priorities selected for inclusion within the TIP are consistent with the CRTPA's adopted *Connections 2045 RMP*, as well as the FDOT's Adopted Five Year Work Program. The CRTPA's FY 2024 – FY 2028 Project Priority Lists (PPLs), adopted by the Governing Board on May 17, 2022, provide guidance to the FDOT in development of the State Work Program. The following identifies the eight PPLs adopted by the CRTPA and includes the general criteria that were used in developing each list:

- Regional Mobility Plan (RMP) Roadways PPL - identifies roadway capacity and corridor improvement projects. [Project source: The 2045 Regional Mobility Plan]. The RMP Roadways PPL is developed from projects identified in the adopted long-range transportation plan, *Connections 2045 RMP*. Projects included were ranked based upon the RMP's adopted goals.

## Project Priority Statement (Cont.)

- Regional Mobility Plan (RMP) Bicycle and Pedestrian PPL - identifies bicycle and pedestrian projects. [Project source: The 2045 Regional Mobility Plan.] The RMP Roadways PPL is developed from projects identified in the adopted *Connections 2045 RMP*. Projects listed in the RMP were identified in local government bicycle and pedestrian master plans consistent with the plan's identified goals and objectives.
- Regional Trails PPL - identifies regional trail projects. [Project source: The 2045 Regional Mobility Plan and FDOT SUN Trail Network.] The Regional Trails PPL is developed to highlight regional trail projects and unique funding opportunities
- Transportation Alternatives (TA) PPL - provides funding for transportation projects that expand travel choices and enhance the transportation experience by integrating modes and improving the cultural, historic, and environmental aspects of our transportation infrastructure. (Project source: Applications solicited by the CRTPA and submitted by eligible sponsors for funding). This list was evaluated and ranked by the TA Subcommittee using seven prioritization criteria prior to consideration by the CRTPA.
- Transportation Systems Management and Safety (TSM&S) PPL - identifies low-cost improvements to the existing transportation network that can be constructed in less than two years. [Project source: The FDOT District Three Safety Office, the City of Tallahassee Intelligent Transportation Systems (ITS) Master Plan, local governments and the CRTPA.] Typically, safety and operational projects on the TSM&S PPL go through a specific FDOT process in order to be included. Factors evaluated in developing this list include safety, mobility, timing and cost of project delivery, and estimated current intersection level of service information.
- Intelligent Transportation Systems (ITS) PPL - identifies technological and system efficiencies to improve traffic flow and reduce congestions. [Project source: The City of Tallahassee ITS Master Plan.] Projects on this list aim to maximize the transportation systems efficiency and performance using technology and regional collaboration for all modes of transportation in the region.
- StarMetro PPL provides a listing of transit projects, *developed by StarMetro*, reflecting projects consistent with StarMetro's adopted Transit Development Plan (TDP).
- Tallahassee International Airport PPL provides a listing of airport projects, *developed by the Tallahassee International Airport*, reflecting consistent with the adopted Airport Master Plan Update.

## Project Priority Development and Public involvement

*Appendix E* contains the CRTPA's adopted FY 2024– FY 2028 Project Priority Lists as well as more detail on the prioritization process. In addition, the Public Involvement *Appendix G* will be updated to include the FY 2025- FY 2029 Project Priority Lists presented to the public for comment during the development of this year's TIP. The draft FY 2025 – FY 2029 Project Priority Lists (PPLS) were presented to the Board at the April 18, 2023 Meeting. The changes, additions and deletions to the Roadway, Bike-Ped, Trails and Transportation Systems Management and Safety PPLs was discussed. The Board accepted the draft list which will be presented during the public engagement.

## Implemented Projects

Updates of select projects in the CRTPA region are listed in *Appendix B*. Additionally, included within the TIP is the Annual Listing of Federally Obligated Projects located within *Appendix D*. This listing, which is also posted on the project page of the CRTPA's website ([www.crtpa.org](http://www.crtpa.org)), includes all projects (listed by county) that have received federal obligation in Fiscal Year 2022 (October 1, 2021 to September 30, 2022). Pursuant to federal law, such a list "shall be published or made available by the metropolitan planning organization for public review" (Title 23 U.S.C. 134(h)(7)(B)). *Appendix D* also provides a listing of FTA obligations developed in concert with StarMetro.

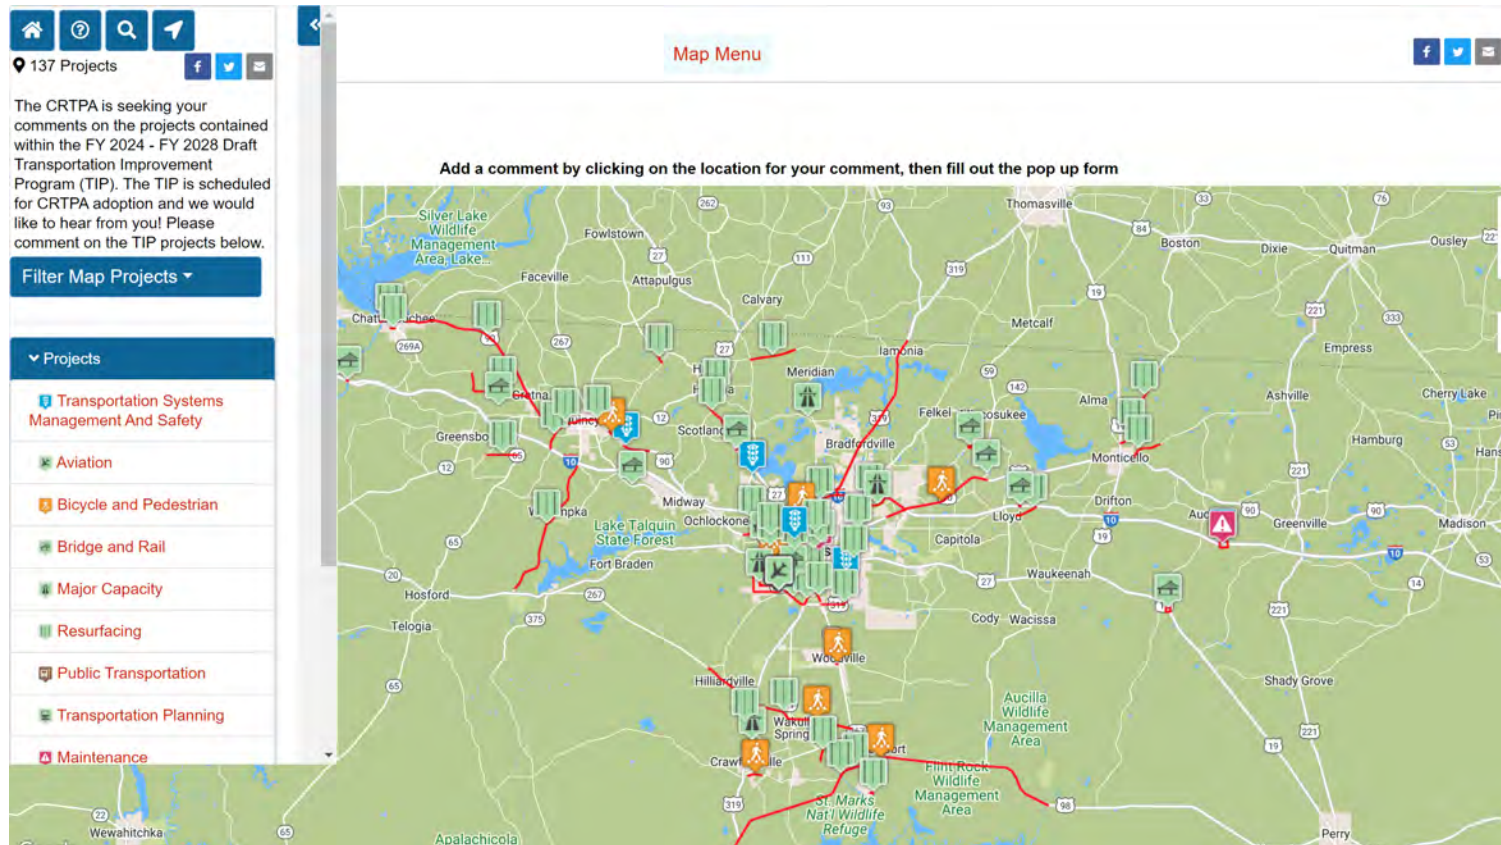

## Public Involvement (This section is finalized once all Public Involvement is completed.)

Typically, the TIP public involvement includes conducting public meetings in person and virtually within the region to present the document (as well as information regarding the draft project priority lists) in May. The draft TIP document and Interactive TIP are placed on the CRTPA's webpage ([www.crtpa.org](http://www.crtpa.org)) in early May. A virtual meeting, scheduled for May 23, 2023, provides attendees from all four counties an opportunity to learn about the projects receiving funding in the region as well about the metropolitan transportation planning process. The public is able to submit questions and comments before, during and after the meeting. An in-person lunch and learn meeting is set for June 1, 2023 at Tallahassee City Hall.

Information regarding the meetings will be sent out in an email blast, as well as advertised in each of the four (4) county newspapers prior to the meeting. Coordination with our county and municipal government is an integral part of the TIP outreach. The TIP and PPL meeting and related material is sent to the Public Information Officers for the four counties and the city and town managers for distribution to their community members and stakeholders. The TIP update and PPLs will be presented at the CRTPA's June 6, 2023 committee meetings [Citizens Multimodal Advisory Committee (CMAC) and Technical Advisory Committee (TAC)] prior to adoption at the June CRTPA Board meeting. Finally, the TIP is a featured CRTPA document placed on the agency's homepage (in addition to the "Documents" page). *Appendix H* ("Public Involvement") documents these efforts. Furthermore, the current TIP reflects use of an enhanced public involvement technology and outreach opportunities through social media.

## Public Involvement Interactive TIP

Prior to TIP adoption the public is able to access project information through the Interactive TIP. This tool provides the public an avenue to find out more about the transportation projects and to provide comment on a project or projects. Access the *FY 24 – FY 28 Interactive TIP* at <https://www.crtiptool.com/crtipa2023/>. Project improvements and details are available, as well as a map of the project limits (if applicable). Use the tool to explore the improvements across the region. The Interactive TIP tool captures the public's comments which will be included in the Public Involvement section of the TIP.

## **FHWA- Eastern Federal Lands Highway Division (EFLHD) Projects**

*Appendix F* reflects those projects within the CRTPA region that have received funding for transportation improvements on federal lands. Such projects do not impact the funds available to the CRTPA region that are annually prioritized by the agency for inclusion in this document.

## **TMA Certification & Joint Certification**

*TMA Certification* - The CRTPA's most recent TMA Certification occurred on February 26 – February 28, 2021. The next TMA Certification will be in early 2025. At these meetings, the CRTPA staff meet with the Federal Highway Administration (FHWA), the Federal Transit Administration (FTA), the Florida Department of Transportation (FDOT), and StarMetro to discuss the certification of the CRTPA as a Transportation Management Area (TMA). The TMA Certification Report was issued in June 2021. The report contained two findings related to the *Connections 2045 RMP* Financial Plan/Fiscal Constraint and consistency with the TIP. Subsequently, the *Connections 2045 RMP* was amended to address these two issues and FHWA determined that the CRTPA satisfied the federal planning requirements.

*Joint Certification* - Each year, the FDOT District and the MPO must jointly certify the metropolitan transportation planning process as described in 23 C.F.R. §450.336. The District and the MPO create a joint certification package that includes a summary of noteworthy achievements by the MPO and, if applicable, a list of any recommendations and/or corrective actions. The certification package and statement must be submitted to Central Office, Office of Policy Planning (OPP) no later than June 1. The CRTPA's 2023 joint certification with FDOT was held on February 13, 2024. The accompanying Report and Assurances will be presented for approval at the May 22, 2023 meeting.

## **Congestion Management Process**

The CRTPA Congestion Management Process Plan (CMPP) was adopted by the CRTPA on September 18, 2018 (§ 339.175(6)(c)(1), F.S.). The CMP provides for the development of tools and strategies focused on the reduction of peak hour vehicle miles of travel, reduction of congestion, the improvement of connectivity between employment centers and areas with concentrations of transportation disadvantaged populations, and support access to jobs. In development of the CRTPA's project priority lists, the adopted CMPP was reviewed for potential identification of projects for inclusion on the agency's project priority list. The CRTPA's Congestion Management Process Plan may be viewed on the CRTPA's website in the "Documents" section. Currently, an update to the CMP is underway. The update to the CMP was adopted at the March 18, 2024 CRTPA Meeting.

## Transportation Disadvantaged

In accordance with Chapter 427, F.S., the TIP includes information related to transportation disadvantaged services for Gadsden, Jefferson, Leon and Wakulla counties. Specifically, revenues provided for Transportation Disadvantaged services are provided in the “Public Transportation” listing of projects (listed by county). Furthermore, a summary of expenses and revenues by county (provided by the Florida Commission for the Transportation Disadvantaged) is contained within *Appendix C* (“Transportation Disadvantaged”). The region’s local boards (Gadsden, Jefferson, Leon, and Wakulla counties’ local transportation disadvantaged coordinating boards) are staffed by the Apalachee Regional Planning Council.

## Performance Management

Consistent with 23 C.F.R. 450.326(c)(d), the TIP shall include, to the maximum extent practicable, a description of the anticipated effect of the TIP toward achieving the performance targets identified in the metropolitan transportation plan, linking investment priorities to those performance targets. Transportation Performance Management (TPM) is a strategic approach to connect transportation investment and policy decisions to help achieve performance goals. Performance measures are quantitative expressions used to evaluate progress toward goals. Performance targets are quantifiable levels of performance to be achieved within a time period. Federal transportation law requires state departments of transportation (DOT), MPOs, and public transportation providers to conduct performance-based planning by tracking performance and establishing data-driven targets to assess progress toward achieving goals. Performance-based planning supports the efficient investment of transportation funds by increasing accountability, providing transparency, and linking investment decisions to key outcomes related to seven national goals established by Congress:

- Improving safety;
- Maintaining infrastructure condition;
- Reducing traffic congestion;
- Improving the efficiency of the system and freight movement;
- Protecting the environment; and
- Reducing delays in project delivery.

Federal law requires FDOT, the MPOs, and public transportation providers to coordinate when selecting performance targets. FDOT and the MPOAC developed the TPM Consensus Planning Document to describe the processes through which these agencies will cooperatively develop and share information related to transportation performance management and target setting.

# Performance Management Report

## Performance Management

Transportation Performance Management (TPM) is a strategic approach to connect transportation investment and policy decisions to help achieve performance goals. Performance measures are quantitative expressions used to evaluate progress toward goals. Performance targets are quantifiable levels of performance to be achieved within a time period. Federal transportation law requires state departments of transportation (DOT), MPOs, and public transportation providers to conduct performance-based planning by tracking performance and establishing data-driven targets to assess progress toward achieving goals. Performance-based planning supports the efficient investment of transportation funds by increasing accountability, providing transparency, and linking investment decisions to key outcomes related to seven national goals established by the U.S. Congress:

- Improving safety;
- Maintaining infrastructure condition;
- Reducing traffic congestion;
- Improving the efficiency of the system and freight movement;
- Protecting the environment; and
- Reducing delays in project delivery.

Federal law requires FDOT, the MPOs, and public transportation providers to coordinate when selecting performance targets. FDOT and the MPOAC developed the TPM Consensus Planning Document to describe the processes through which these agencies will cooperatively develop and share information related to transportation performance management and target setting.

## Highway Safety Measures (PM1)

The first of FHWA's performance management rules establishes measures to assess fatalities and serious injuries on all public roads. The rule requires state DOTs and MPOs to annually establish targets and report performance and progress toward targets to FHWA for the following safety-related performance measures:

1. Number of Fatalities;
2. Rate of Fatalities per 100 million Vehicle Miles Traveled (VMT);
3. Number of Serious Injuries;
4. Rate of Serious Injuries per 100 million VMT; and
5. Number of Nonmotorized Fatalities and Serious Injuries.

### 1.1 Highway Safety Targets

#### 1.1.1 Statewide Targets

Safety performance measure targets are required to be adopted on an annual basis. In August of each calendar year, FDOT reports targets to FHWA for the following calendar year. On August 31, 2023, FDOT established statewide safety performance targets for calendar year 2024. Table 3.1 presents FDOT's statewide targets.

**Table 2.1      Statewide Highway Safety Performance Targets**

Performance Measure	Calendar Year 2024 Statewide Target
Number of fatalities	0
Rate of fatalities per 100 million vehicle miles traveled (VMT)	0
Number of serious injuries	0
Rate of serious injures per 100 million vehicle miles traveled (VMT)	0
Number of non-motorized fatalities and serious injuries	0

## Statewide Targets (Cont.)

FDOT adopted a vision of zero traffic-related fatalities in 2012. This, in effect, became FDOT's target for zero traffic fatalities and quantified the policy set by Florida's Legislature more than 35 years ago (Section 334.046(2), Florida Statutes, emphasis added):

*"The mission of the Department of Transportation shall be to provide a **safe** statewide transportation system..."*

FDOT and Florida's traffic safety partners are committed to eliminating fatalities and serious injuries. As stated in the Safe System approach promoted by FHWA, the death or serious injury of any person is unacceptable. [The Florida Transportation Plan](#) (FTP), the state's long-range transportation plan, identifies eliminating transportation-related fatalities and serious injuries as the state's highest transportation priority. Therefore, FDOT established 0 as the only acceptable target for all five federal safety performance measures.

## MPO Safety Targets

MPOs are required to establish safety targets annually within 180 days of when FDOT established targets. MPOs establish targets by either agreeing to program projects that will support the statewide targets or establish their own quantitative targets for the MPO planning area.

The CRTPA acknowledges FDOT statewide 2024 safety targets, which are set at "0" for each performance measure to reflect FDOT's goal of zero deaths. However, the MPO established safety performance targets specific to the MPO planning area. On February 19, 2024, the CRTPA established the calendar year 2024 safety targets listed below.

### CRTPA Safety Performance Targets

Performance Measure	Calendar Year 2024 MPO Target
Number of fatalities	49
Rate of fatalities per 100 million vehicle miles traveled (VMT)	1.091
Number of serious Injuries	216
Rate of serious injures per 100 million vehicle miles traveled (VMT)	4.726
Number of non-motorized fatalities and serious injuries	36

## **MPO Safety Targets (cont.)**

The CRTPA first adopted safety targets on January 16, 2018. Since that time, the CRTPA's has chosen to develop and adopt the agency's own safety targets as initial guidance from the FHWA encouraged MPOs to not set aspirational goals in the development of safety targets.

Historically, the targets developed by the CRTPA were developed using data provided by FDOT that is based upon a rolling average for each performance measure for the most recent five-years of available data (for example, the data used in 2020 target development was for the years 2014 – 2018). The five-year FDOT data averages were what the CRTPA adopted annually as its safety targets.

This methodology remained the same until 2021 when the CRTPA adopted targets that reflected the lower target for each of the five measures between the previous year's (2020) adopted targets and the proposed 2021 targets.

More recently (and how the CRTPA currently develops its annual safety targets), on February 21, 2022, the CRTPA changed the way it develops its safety targets by adopting targets for 2022 using the previous year's adopted targets as a baseline with the addition of reduction factor. Specifically, a reduction factor of five percent (5%) is applied annually to the CRTPA's targets.

## **Safety Trends in the CRTPA Area**

The annual development of safety targets provides the CRTPA an opportunity to assess the region's progress towards meeting its adopted safety targets using the data provided annual by the FDOT.

Most recent FDOT data identify that for 2022, the CRTPA has met two (2) of its five (5) adopted 2022 safety targets. Specifically, the CRTPA met its target related to the number and rate of serious injuries.

## ***FDOT Safety Planning and Programming***

### **Florida's Strategic Highway Safety Plan**

[Florida's Strategic Highway Safety Plan](#) (SHSP), published in March 2021, identifies strategies to achieve zero traffic deaths and serious injuries. The SHSP was updated in coordination with Florida's 27 MPOs and the MPOAC, as well as other statewide traffic safety partners. The SHSP development process included review of safety-related goals, objectives, and strategies in MPO plans. The SHSP guides FDOT, MPOs, and other safety partners in addressing safety and defines a framework for implementation activities to be carried out throughout the state.

Florida's transportation safety partners have focused on reducing fatalities and serious injuries through the 4Es of engineering, education, enforcement, and emergency response. To achieve zero, FDOT and other safety partners will expand beyond addressing specific hazards and influencing individual behavior to reshaping transportation systems and communities to create a safer environment for all travel. The updated SHSP calls on Florida to think more broadly and inclusively by addressing four additional topics, which are referred to as the 4Is: information intelligence, innovation, insight into communities, and investments and policies. The SHSP also embraces an integrated "Safe System" approach that involves designing and managing road infrastructure to keep the risk of a mistake low and to ensure that when a mistake leads to a crash, the impact on the human body does not result in a fatality or serious injury. The five Safe System elements together create a holistic approach with layers of protection: safer road users, safer vehicles, safer speeds, safer roads, and post-crash care.

The SHSP also expands the list of emphasis areas for Florida's safety programs to include six evolving emphasis areas, which are high-risk or high-impact crashes that are a subset of an existing emphasis area or emerging risks and new innovations, where safety implications are unknown. These evolving emphasis areas include work zones, drowsy and ill driving, rail grade crossings, roadway transit, micro-mobility, and connected and automated vehicles.

## Florida's Highway Safety Improvement Program

While the FTP and the SHSP both highlight the statewide commitment to a vision of zero deaths, the Florida Highway Safety Improvement Program (HSIP) Annual Report documents statewide performance and progress toward that vision. It also lists all HSIP projects that were obligated during the reporting year and the relationship of each project to the SHSP.

As discussed above, in the 2023 HSIP Annual Report, FDOT reported calendar year 2024 statewide safety performance targets at “0” for each safety performance measure to reflect the vision of zero deaths. Annually, FHWA determines whether Florida has met the targets or performed better than the baseline for at least four of the five measures. If this does not occur FDOT must submit an annual implementation plan with actions, it will take to meet targets in the future.

On April 20, 2023, FHWA reported the results of its 2021 safety target assessment. FHWA concluded that Florida had not met or made significant progress toward its 2021 safety targets, noting that zero had not been achieved for any measure and that only three out of five measures (number of serious injuries, serious injury rate, and number of non-motorized fatalities and serious injuries) were better than the baseline. Subsequently, FDOT developed an HSIP Implementation Plan to highlight additional strategies it will undertake in support of the safety targets. [The HSIP Implementation Plan](#) was submitted with the HSIP Annual Report to FHWA on August 31, 2023.

Consistent with FHWA requirements, the HSIP Implementation Plan focuses specifically on implementation of the HSIP as a core federal-aid highway program and documents the continued enhancements planned for Florida's HSIP to better leverage the benefits of this program. However, recognizing that FDOT already allocates all HSIP funding to safety programs - and building on the integrated approach that underscores FDOT's safety programs – the HSIP Implementation Plan also documents how additional FDOT, and partner activities may contribute to progress toward zero. Building on the foundation of prior HSIP Implementation Plans, the 2023 HSIP Implementation Plan identifies the following key commitments:

- Improve partner coordination and align safety activities.
- Maximize HSIP infrastructure investments.
- Enhance safety data systems and analysis.
- Implement key safety countermeasures.
- Focus on safety marketing and education on target audiences.
- Capitalize on new and existing funding opportunities.

## Florida's Highway Safety Improvement Program (Cont.)

Florida conducts extensive safety data analysis to understand the state's traffic safety challenges and identify and implement successful safety solutions. Florida's transportation system is evaluated using location-specific analyses that evaluate locations where the number of crashes or crash rates are the highest and where fatalities and serious injuries are most prominent. These analyses are paired with additional systemic analyses to identify characteristics that contribute to certain crash types and prioritize countermeasures that can be deployed across the system as a whole. As countermeasures are implemented, Florida also employs predictive analyses to evaluate the performance of roadways (i.e., evaluating results of implemented crash modification factors against projected crash reduction factors).

FDOT's State Safety Office works closely with FDOT Districts and regional and local traffic safety partners to develop the annual HSIP updates. Historic, risk-based, and predictive safety analyses are conducted to identify appropriate proven countermeasures to reduce fatalities and serious injuries associated with Florida's SHSP emphasis areas, resulting in a list of projects that reflect the greatest needs and are anticipated to achieve the highest benefit. While these projects and the associated policies and standards may take years to be implemented, they are built on proven countermeasures for improving safety and addressing serious crash risks or safety problems identified through a data-driven process. Florida continues to allocate all available HSIP funding to safety projects. [FDOT's HSIP Guidelines](#) provide detailed information on this data-driven process and funding eligibility.

Florida received an allocation of approximately \$156 million in HSIP funds for use during the 2023 state fiscal year from July 1, 2022 through June 30, 2023, and fully allocated those funds to safety projects. FDOT used these HSIP funds to complete projects that address intersections, lane departure, pedestrian and bicyclist safety, and other programs representing the remaining SHSP emphasis areas. This year's HSIP allocated \$128.7 million in infrastructure investments on state-maintained roadways and \$27.5 million in infrastructure investments on local roadways. A list of HSIP projects can be found in the [HSIP 2023 Annual Report](#).

Beginning in fiscal year 2024, HSIP funding is distributed among FDOT Districts based on statutory formula to allow the Districts to have more clearly defined funding levels for which they can better plan to select and fund projects. MPOs and local agencies coordinate with FDOT Districts to identify and implement effective highway safety improvement projects on non-state roadways.

### **Additional FDOT Safety Planning Activities**

In addition to HSIP, safety is considered as a factor in FDOT planning and priority setting for projects in preservation and capacity programs. Data is analyzed for each potential project, using traffic safety data and traffic demand modeling, among other data. The [Florida PD&E Manual](#) requires the consideration of safety when preparing a proposed project's purpose and need as part of the analysis of alternatives. Florida design and construction standards include safety criteria and countermeasures, which are incorporated in every construction project. FDOT also recognizes the importance of the American Association of State Highway Transportation Officials (AASHTO) Highway Safety Manual (HSM). Through dedicated and consistent training and messaging over the last several years, the HSM is now an integral part of project development and design.

FDOT holds Program Planning Workshops annually to determine the level of funding to be allocated over the next 5 to 10 years to preserve and provide for a safe transportation system. Certain funding types are further analyzed and prioritized by FDOT Central Offices, after projects are prioritized collaboratively by the MPOs, local governments, and FDOT Districts; for example, the Safety Office is responsible for the HSIP and Highway Safety Program (HSP) and the Systems Implementation Office is responsible for the Strategic Intermodal System (SIS). Both the Safety and SIS programs consider the reduction of traffic fatalities and serious injuries in their criteria for ranking projects.

## Safety Investments in the TIP

The CRTPA's efforts to improving safety within the region reflect and complement the statewide efforts listed above. The CRTPA TIP considers potential projects that fall into specific investment programs established by the MPO. For the CRTPA and its partners, this includes the following safety efforts, programs and policies:

- CRTPA Safety Page ("Focus on Safety") creation in 2023 highlighting the agency's efforts related to the issue of safety (<https://crtpa.org/focus-on-safety/>);
- CRTPA/FDOT annual funding commitment (\$500,000) to the Tallahassee Regional Traffic Management Center for operations and traffic maintenance;
- Coordinated safety effort for North Monroe Street with the CRTPA's partners including the FDOT and Blueprint Intergovernmental Agency in development of Safe Streets and Roads for All implementation grant application (submitted May 2024);
- Recent adoption of an update to the CRTPA Congestion Management Plan that contains a strong safety component (adopted in March 2024);
- Safety coordination meetings held with FDOT District 3 in concert with local partners that identify and discuss safety issues;
- Safety review of resurfacing projects in concert with FDOT and local transportation partners, identifying opportunities for inclusion of safety improvements in near-term resurfacing projects;
- CRTPA Urban Attributable (SU) funding guidance, adopted in November 2017, identifying explicit funding for safety projects, and active agency implementation of pedestrian safety projects utilizing such funds;
- Annual development and adoption of the Transportation Systems Management & Safety Project Priority List that includes a number of pedestrian safety projects for which the agency is seeking funding;
- Implementation of infrastructure projects that improve regional safety including addition of enhanced lighting at key intersections to improvement pedestrian safety and access management improvements to address roadway safety;
- CRTPA website focus on transportation performance management in detail. This information includes a background on the TPM requirements of the agency, the latest information related to the CRTPA's adoption of measures, and information related to how the agency is actively seeking to achieve its adopted measure : (<http://crtpa.org/transportation-performance-measures/>);
- Continued focus on bicycle and pedestrian safety through funding and implementation of regional shared use path projects (planning studies; SUNTrail grants).

### **Safety Investments in the TIP (Cont.)**

Specific investment projects within the TIP support the CRTPA's goals (including the goal of safety) through the use of a prioritization and a project selection process established in the CRTPA's current adopted 2045 Regional Mobility Plan (adopted in November 2020). This process provided the highest prioritization weighting for safety improvement projects and, relatedly, the TIP prioritization process mirrors the RMP's prioritization process through a focus on selection of projects that have an anticipated effect of reducing both fatal and injury crashes. Going forward, the project evaluation and prioritization processes used in the RMP and the TIP will continue to use a data-driven strategy that considers stakeholder input to evaluate projects that have an anticipated effect of reducing both fatal and injury crashes.

Because safety is inherent in so many FDOT and CRTPA programs and projects, and because of the broad and holistic approach FDOT is undertaking with its commitment to Target Zero, the program of projects in this TIP is anticipated to support progress towards achieving the CRTPA's safety targets.

## **Pavement & Bridge Condition Measures (PM2)**

FHWA's Bridge & Pavement Condition Performance Measures Final Rule, which is also referred to as the PM2 rule, requires state DOTs and MPOs to establish targets for the following six performance measures:

1. Percent of NHS bridges (by deck area) classified as in good condition;
2. Percent of NHS bridges (by deck area) classified as in poor condition;
3. Percent of Interstate pavements in good condition;
4. Percent of Interstate pavements in poor condition;
5. Percent of non-Interstate National Highway System (NHS) pavements in good condition; and
6. Percent of non-Interstate NHS pavements in poor condition.

For the pavement measures, five pavement metrics are used to assess condition:

- International Roughness Index (IRI) - an indicator of roughness (applicable to asphalt, jointed concrete, and continuously reinforced concrete pavements);
- Cracking percent – percentage of pavement surface exhibiting cracking (applicable to asphalt, jointed concrete, and continuously reinforced concrete pavements);
- Rutting - extent of surface depressions (applicable to asphalt pavements only);
- Faulting - vertical misalignment of pavement joints (applicable to jointed concrete pavements only); and
- Present Serviceability Rating (PSR) – a quality rating applicable only to NHS roads with posted speed limits of less than 40 miles per hour (e.g., toll plazas, border crossings). States may choose to collect and report PSR for applicable segments as an alternative to the other four metrics.

## Bridge & Pavement Condition Targets

### Statewide Targets

Federal rules require state DOTs to establish two-year and four-year targets for bridge and pavement condition measures. On December 16, 2022, FDOT established statewide bridge and pavement targets for the second performance period ending in 2025. These targets are identical to those set for 2019 and 2021, respectively. Florida's performance through 2021 exceeds the targets. The two-year targets represent bridge and pavement condition at the end of calendar year 2023, while the four-year targets represent condition at the end of 2025. The below table presents the statewide targets.

Statewide Bridge and Pavement Condition Performance Targets

Performance Measure	2022 Statewide Conditions	2023 Statewide Target	2025 Statewide Target
Percent of NHS bridges (by deck area) in good condition	58.2%	≥50.0%	≥50.0%
Percent of NHS bridges (by deck area) in poor condition	0.6%	≤10.0%	≤10.0%
Percent of Interstate pavements in good condition	73.4%	≥60.0%	≥60.0%
Percent of Interstate pavements in poor condition	0.2%	≤5.0%	≤5.0%
Percent of non-Interstate pavements in good condition	48.8%	≥40.0%	≥40.0%
Percent of non-Interstate pavements in poor condition	0.6%	≤5.0%	≤5.0%

Source: 2022 Statewide Conditions [fdotsourcebook.com](https://fdots.sourcebook.com).

In determining its approach to establishing performance targets for the federal bridge and pavement condition performance measures, FDOT considered many factors. FDOT is mandated by Florida Statute 334.046 to preserve the state's bridges and pavement to specific state-defined standards. To adhere to the statutory guidelines, FDOT prioritizes funding allocations to ensure the current transportation system is adequately preserved and maintained before funding is allocated for capacity improvements. These state statutory guidelines envelope the statewide federal targets that have been established for bridges and pavements.

### **Statewide Targets (Cont.)**

In addition, FDOT developed a [Transportation Asset Management Plan](#) (TAMP) for the state NHS bridge and pavement assets. The TAMP must include investment strategies leading to a program of projects that would make progress toward achievement of the State's targets for asset condition and performance of the NHS. FDOT's current TAMP was submitted on December 30, 2022 and recertified by FHWA on February 23, 2023.

Further, the federal pavement condition measures require a data collection methodology that is a departure from the methods historically used by FDOT. For bridge condition, performance is measured in deck area under the federal measure, while FDOT programs its bridge repair or replacement work on a bridge-by-bridge basis. As such, the federal measures are not directly comparable to the methods that are most familiar to FDOT.

FDOT collects and reports bridge and pavement data to FHWA each year to track performance and progress toward the targets. The percentage of Florida's bridges in good condition is slowly decreasing, which is to be expected as the bridge inventory grows older. Reported bridge and pavement data through 2022 exceeded the established targets. Based on analyses of the data, the previous statewide targets are still appropriate for 2023 and 2025.

FHWA determined that FDOT made significant progress toward its 2021 PM2 targets; FHWA's assessment of progress toward the 2023 targets is anticipated to be provided in 2024.

### **CRTPA Targets**

MPOs must set four-year targets for the six bridge and pavement condition measures within 180 days of when FDOT established targets. MPOs can either agree to program projects that will support the statewide targets or establish their own quantifiable targets for the MPO's planning area for one or more measures.

On May 22, 2023, the CRTPA agreed to support FDOT's statewide bridge and pavement performance targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets.

## CRTPA Targets (Cont.)

### Bridge & Pavement Investments in the TIP

The CRTPA's TIP reflects investment priorities established in the current CRTPA 2045 Regional Mobility Plan (RMP) including the goal of safety. The focus of CRTPA's investments in bridge and pavement condition related to system preservation/maintenance on the Interstate and non-Interstate NHS in the MPO include:

- Pavement replacement or reconstruction (on the NHS) projects contained within the Resurfacing section of this document;
- New lanes or widenings of NHS facilities, including resurfacing existing NHS lanes associated with new capacity projects contained within the Major Capacity section of this document;
- Bridge replacement or reconstruction projects that are contained within the Bridge section of this document;
- New bridge capacity projects as identified in the Bridge section of the TIP
- System resiliency projects that improve NHS bridge components (e.g., upgrading culverts).

Funding in the CRTPA TIP reflects a significant amount of resources to projects that maintain pavement and bridge condition performance. Investments in pavement and bridge condition include pavement replacement and reconstruction, bridge replacement and reconstruction, and new bridge and pavement capacity. The TIP reflects a commitment to bridge safety and reconstruction and includes the following projects programmed at \$59,191,600:

407304	2	SR 8 (I-10) OVER FG&A R/R & LITTLE RIVER BRIDGE NOS. 500097 & 500098	GADSDEN	BRIDGE REPAIR	\$ 526,247
439383	1	HIGH BRIDGE ROAD/CR 268 OVER LITTLE RIVER BRIDGE NO. 500045	GADSDEN	BRIDGE REPLACEMENT	\$ 18,226,953
441188	1	HANNA MILL POND ROAD OVER HANNA POND BRIDGE NO. 504043	GADSDEN	BRIDGE REPLACEMENT	\$ 13, 821,509
451030	1	SR 63 (US 27) OVER OCHLOCKONEE RIVER & RELIEF BR #500124, 25, 26, 27	GADSDEN	BRIDGE REPAIR	\$ 1,367,712
409485	5	I-10 (SR 8) OVER LLOYD CREEK BRIDGE NO. 540019	JEFFERSON	BRIDGE REPAIR	\$ 2,264,334
445749	2	SR 10 (US 90) OVER WOLF CREEK BRIDGE NO. 540005	JEFFERSON	BRIDGE REPAIR	\$ 539,262
453072	1	SR 265 MAGNOLIA DR. OVER FG&A RR BRIDGE NO. 550011	LEON	BRIDGE REPAIR	\$ 1,096,538
452687	1	SR 8 (I-10) OVER CR 146 MICCOSUKEE RD BRIDGE NO. 550069	LEON	BRIDGE REPAIR	\$ 5,672,022
449079	1	SPRINGHILL ROAD OVER MUNSON SLOUGH BRIDGE NO 550054	LEON	BRIDGE REPLACEMENT	\$ 7,168,472
442951	1	CR 372 SURF ROAD OVER OTTER CREEK RISE BRIDGE NO. 594049	WAKULLA	BRIDGE REPLACEMENT	\$ 8,508,551

### CRTPA Targets (Cont.)

In terms of maintaining the safety of the condition of the region's roadways through resurfacings, the TIP provides an investment of \$304,216,943 and includes the following projects:

413425	3	SR 10 (US 90) FROM JACKSON COUNTY LINE TO BATES ST	GADSDEN	RESURFACING	\$ 3,686,732
219485	2	SR 366 PENSACOLA ST FROM RAILROAD OVERPASS TO SR 366 STADIUM DR	LEON	RESURFACING	\$ 14,483,177
449172	1	SR 366 STADIUM DRIVE FROM PENSACOLA ST TO GAINES ST	LEON	RESURFACING	\$ 3,239,859
446637	2	CR 12 FAIRBANKS RD FROM CR 157 CONCORD RD TO LEON CO LINE - PHASE II	GADSDEN	RESURFACING	\$ 1,867,495
413425	2	SR 10 (US 90) FROM W OF 4 LANE TO SR 65 / CR 12 MADISON ST	GADSDEN	RESURFACING	\$ 12,947,236

450809	1	SR 63 (US 27) FROM SR 159 TO CR 270 SHADY REST RD	GADSDEN	RESURFACING	\$ 9,602,519
453120	1	SR 8 (I-10) FROM W OF SR267 TO W OF SR10 (US90)	GADSDEN	RESURFACING	\$ 37,838,525
452941	1	SR 20 (US 27) FROM W OF CR 259 TO W OF SR 57 (US 19)	JEFFERSON	RESURFACING	\$ 6,625,214
453152	1	SR 59 GAMBLE RD FROM SR 30 (US98) TO CR 259 TRAM RD	JEFFERSON	RESURFACING	\$ 15,598,918
403942	3	SR 10 (US 90) MAHAN DR FROM CR0353 (DEMPSEY MAYO RD) TO APEX DR	LEON	RESURFACING	\$ 9,593,483
452946	1	SR 261 (US 319) CAPITAL CIRCLE FROM CENTERVILLE RD TO SR 61 THOMASVILLE RD	LEON	RESURFACING	\$ 8,050,149
453096	1	SR 263 (US 319) CAPITAL CIRCLE SW FROM SR 363 (US 27) WOODVILLE TO E OF SR 61	LEON	RESURFACING	\$ 4,035,557
452938	1	SR 61 (THOMASVILLE RD) FROM NORTH OF 9TH AVE TO NORTH LIVE OAK PLANTATION DR	LEON	RESURFACING	\$ 14,147,294
452940	1	SR 61 (US 319) FROM TIMBERWOLF CROSSING TO GEORGIA STATE LINE	LEON	RESURFACING	\$ 16,660,887
452939	1	SR 63 (US 27/MONROE ST) FROM SR 263 (CAPITAL CIRCLE) TO JOHN KNOX ROAD	LEON	RESURFACING	\$ 21,064,520

### **CRTPA Targets (Cont.)**

The projects included in the TIP are consistent with FDOT's Five Year Work Program. Therefore, they reflect FDOT's approach of prioritizing funding to ensure the transportation system is adequately preserved and maintained. Per federal planning requirements, the state selects projects on the NHS in cooperation with the MPO from the approved TIP. Given the significant resources devoted in the TIP to pavement and bridge projects, the CRTPA anticipates that once implemented, the TIP will contribute to progress towards achieving the statewide pavement and bridge condition performance targets.

### **System Performance, Freight, & Congestion Mitigation & Air Quality Improvement Program Measures (PM3)**

FHWA's System Performance/Freight/CMAQ Performance Measures Final Rule, which is referred to as the PM3 rule, requires state DOTs and MPOs to establish targets for the following six performance measures:

#### **National Highway Performance Program (NHPP)**

1. Percent of person-miles traveled on the Interstate system that are reliable;
2. Percent of person-miles traveled on the non-Interstate NHS that are reliable;

#### **National Highway Freight Program (NHFP)**

3. Truck Travel Time Reliability index (TTTR);

#### **Congestion Mitigation and Air Quality Improvement Program (CMAQ)**

4. Annual hours of peak hour excessive delay per capita (PHED);
5. Percent of non-single occupant vehicle travel (Non-SOV); and
6. Cumulative 2-year and 4-year reduction of on-road mobile source emissions (NO<sub>x</sub>, VOC, CO, PM<sub>10</sub>, and PM<sub>2.5</sub>) for CMAQ funded projects.

Because all areas in Florida meet current national air quality standards, the three CMAQ measures do not apply in Florida. A description of the first three measures is below.

The first two performance measures assess the percent of person-miles traveled on the Interstate or the non-Interstate NHS that are reliable. Reliability is defined as the ratio of longer travel times to a normal travel time over all applicable roads, across four time periods between the hours of 6 a.m. and 8 p.m. each day.

The third performance measure assesses the reliability of truck travel on the Interstate system. The TTTR assesses how reliable the Interstate network is by comparing the worst travel times for trucks against the travel time they typically experience.

## System Performance and Freight Targets

### Statewide Targets

Federal rules require state DOTs to establish two-year and four-year targets for the system performance and freight targets. On December 16, 2022, FDOT established statewide performance targets for the second performance period ending in 2025. The 2-year and 4-year targets set for this performance period are identical to the 2-year and 4-year targets set for the previous performance period. Florida's performance through 2021 exceeds the targets. The two-year targets represent performance at the end of calendar year 2023, while the four-year targets represent performance at the end of 2025. The below table presents the statewide targets.

#### Statewide System Performance and Freight Targets

Performance Measure	2022 Statewide Conditions	2023 Statewide Target	2025 Statewide Target
Percent of person-miles traveled on the Interstate system that are reliable	85.7%	≥75.0%	≥70.0%
Percent of person-miles traveled on the non-Interstate NHS that are reliable	92.1%	≥50.0%	≥50.0%
Truck travel time reliability (Interstate)	1.46	1.75	2.00

Source: 2022 Statewide Conditions [fdotsourcebook.com](https://fdotsourcebook.com).

FDOT collects and reports reliability data to FHWA each year to track performance and progress toward the reliability targets. Actual performance in 2021 was better than the 2021 targets. FHWA's assessment of progress toward the 2023 targets is anticipated to be released in March 2024.

### **System performance and freight are addressed through several statewide initiatives:**

- Florida's Strategic Intermodal System (SIS) is composed of transportation facilities of statewide and interregional significance. The SIS is a primary focus of FDOT's capacity investments and is Florida's primary network for ensuring a strong link between transportation and economic competitiveness. These facilities, which span all modes and includes highways, are the workhorses of Florida's transportation system and account for a dominant share of the people and freight movement to, from and within Florida. The SIS includes 92 percent of NHS lane miles in the state. Thus, FDOT's focus on improving performance of the SIS goes hand-in-hand with improving the NHS, which is the focus of the FHWA's TPM program. The [SIS Policy Plan](#) was updated in early 2022 consistent with the updated FTP. The SIS Policy Plan defines the policy framework for designating which facilities are part of the SIS, as well as how SIS investment needs are identified and prioritized. The development of the SIS Five-Year Plan by FDOT considers scores on a range of measures including mobility, safety, preservation, and economic competitiveness as part of FDOT's Strategic Investment Tool (SIT).
- In addition, [FDOT's Freight Mobility and Trade Plan](#) (FMTP) defines policies and investments that will enhance Florida's economic development efforts into the future. The FMTP identifies truck bottlenecks and other freight investment needs and defines the process for setting priorities among these needs to receive funding from the National Highway Freight Program (NHFP). Project evaluation criteria tie back to the FMTP objectives to ensure high priority projects support the statewide freight vision. In May 2020, FHWA approved the FMTP as FDOT's State Freight Plan. An update to the FMTP will be adopted in the spring of 2024.

### **CRTPA Targets**

MPOs must establish four-year targets for all three performance measures. MPOs can either agree to program projects that will support the statewide targets or establish their own quantifiable targets for the MPO's planning area for one or more measures.

On May 22, 2023, the CRTPA agreed to support FDOT's statewide system performance and freight targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets, as show below:

## CRTPA Targets (Cont.)

### CRTPA System Performance and Freight Targets

PM3: System Performance		2025 Target
Percent of Person-Miles Traveled on the Interstate that are Reliable		70.00%
Percent of Person-Miles Traveled on the Non- Interstate that are Reliable		50.00%
Truck Travel Time Reliability (TTTR) Index		2.00

### System Performance and Freight Investments in the TIP

The CRTPA TIP reflects investment priorities established in the CRTPA 2045 Regional Mobility Plan (RMP). The focus of the CRTPA's investments that address system performance and freight include:

- Corridor improvements;
- Intersection improvements;
- Projects identified in the CRTPA's Congestion Management Plan selected for TIP inclusion;
- Investments in transit, bicycle, and pedestrian projects that promote multimodal options;
- Transportation Intersection improvements identified in the Transportation Systems Management section including funding for the maintenance of traffic signals;
- TSMO/ITS projects or programs such as annual funding provided to the Tallahassee Advanced Traffic Management System (TATMS), the regional traffic management center identified in the Transportation Systems Management section as well as the inclusion of detailed projects identified in the ITS Master Plan that have been included on the agency's TSM and Safety project priority list.

### System Performance and Freight Investments in the TIP (Cont.)

The following projects are included in the TIP will assist in enhancing system performance and freight:

- FM# 2197492 SR 263 CAPITAL CIRCLE FROM CRAWFORDVILLE ROAD TO SPRINGHILL RD - ADD LANES & RECONSTRUCT (CST in FY 26)
- FM#2198811 US 319 CRAWFORDVILLE ROAD FROM LL WALLACE RD TO SR 61 - ROW FOR FUTURE CAPACITY (FY 27)
- FM#2198815 US 319 CRAWFORDVILLE ROAD FROM WAKULLA COUNTY LINE TO S OF LL WALLACE ROAD - ROW (FY 26 & 27)

The projects included in the TIP are consistent with FDOT's Five Year Work Program, and therefore to FDOT's approach to prioritize funding to address performance goals and targets. Per federal planning requirements, the state selects projects on the NHS in cooperation with the CRTPA from the approved TIP. Given the significant resources devoted in the TIP to programs that address system performance and freight, the MPO anticipates that once implemented, the TIP will contribute to progress towards achieving the statewide reliability performance targets.

## Transit Asset Performance Measures

FTA's Transit Asset Management (TAM) regulations apply to all recipients and subrecipients of Federal transit funding that own, operate, or manage public transportation capital assets. The regulations define the term "state of good repair," require that public transportation providers develop and implement TAM plans, and established state of good repair standards and performance measures for four asset categories: equipment, rolling stock, transit infrastructure, and facilities. The below table identifies the TAM performance measures.

### FTA TAM Performance Measures

Asset Category	Performance Measure
Equipment	Percentage of non-revenue, support-service and maintenance vehicles that have met or exceeded their Useful Life Benchmark
Rolling Stock	Percentage of revenue vehicles within a particular asset class that have either met or exceeded their Useful Life Benchmark
Infrastructure	Percentage of track segments with performance restrictions
Facilities	Percentage of facilities within an asset class rated below condition 3 on the TERM scale

For equipment and rolling stock classes, useful life benchmark (ULB) is defined as the expected lifecycle of a capital asset, or the acceptable period of use in service, for a particular transit provider's operating environment. ULB considers a provider's unique operating environment such as geography, service frequency, etc.

Public transportation providers are required to establish and report TAM targets annually for the following fiscal year. Each public transportation provider or its sponsors must share its targets with each MPO in which the public transportation provider's projects and services are programmed in the MPO's TIP. MPOs are not required to establish TAM targets annually each time the transit provider establishes targets. Instead, MPO targets must be established when the MPO updates the LRTP (although it is recommended that MPOs reflect the most current transit provider targets in the TIP if they have not yet taken action to update MPO targets). When establishing TAM targets, the MPO can either agree to program projects that will support the transit provider targets or establish its own separate regional TAM targets for the MPO planning area. MPO targets may differ from agency targets, especially if there are multiple transit agencies in the MPO planning area. To the maximum extent practicable, public transit providers, states, and MPOs must coordinate with each other in the selection of performance targets.

The TAM regulation defines two tiers of public transportation providers based on size parameters. Tier I providers are those that operate rail service, or more than 100 vehicles in all fixed route modes, or more than 100 vehicles in one non-fixed route mode. Tier II providers are those that are a subrecipient of FTA 5311 funds, or an American Indian Tribe, or have 100 or less vehicles across all fixed route modes or have 100 or less vehicles in one non-fixed route mode. A Tier I provider must establish its own TAM targets, as well as report performance and other data to FTA. A Tier II provider has the option to establish its own targets or to participate in a Group Plan with other Tier II providers whereby targets are established for the entire group in coordination with a group plan sponsor, typically a state DOT.

Tier I	Tier II
Operates rail service	Subrecipient of FTA 5311 funds
<b>OR</b>	<b>OR</b>
≥ 101 vehicles across all fixed route modes	American Indian Tribe
<b>OR</b>	<b>OR</b>
≥ 101 vehicles in one non-fixed route mode	≤ 100 vehicles across all fixed route modes
	<b>OR</b>
	≤ 100 vehicles in one non-fixed route mode

### FDOT Group TAM Plan Participants

A total of 19 public transportation providers participated in the [FDOT Group TAM Plan](#) and continue to coordinate with FDOT on establishing and reporting group targets to FTA through the National Transit Database (NTD) (Table 5.2). These are FDOT's Section 5311 Rural Program subrecipients. The Group TAM Plan was adopted in September 2022 and covers fiscal years 2022-2023 through 2025-2026. Group TAM Plan targets for fiscal year 2023 were submitted to NTD in September 2023. The CRTPA region is served two (2) Tier II providers: Big Bend Transit, Inc. and Wakulla Senior Citizens Council, Inc. The CRTPA's Tier II providers participate in the group TAM plan developed by the FDOT Public Transit Office in Tallahassee.

### Transit Asset Management Targets

The following providers operate in the MPO planning area: The CRTPA region is served by one (1) Tier I transit service provider: StarMetro (City of Tallahassee) and two (2) Tier II providers: Big Bend Transit, Inc. and Wakulla Senior Citizens Council, Inc. The CRTPA's Tier II providers participate in the group TAM plan developed by the FDOT Public Transit Office in Tallahassee.

### Transit Agency Targets

The CRTPA established TAM targets for each of the applicable asset categories on May 22, 2023. Table 5.3 presents the targets.

For Big Bend Transit, Inc. and Wakulla Senior Citizens Council, Inc., part of the Group TAM Plan for Fiscal Years 2022/2023 – 2025/2026 were developed by FDOT for these Tier II providers in Florida. The FY 2022 asset conditions and FY 2023 targets for the Tier II providers are shown in Table 5.4. *Note: FDOT will provide an update once FY 2023 performance and FY 2024 targets are available.*

The transit provider's TAM targets are based on the condition of existing transit assets and planned investments in equipment, rolling stock, infrastructure, and facilities. The targets reflect the most recent data available on the number, age, and condition of transit assets, and capital investment plans for improving these assets. The table summarizes both existing conditions for the most recent year available, and the current targets.

**Table 5.1 Transit Asset Management Targets for StarMetro**

Asset Category - Performance Measure	Asset Class	Jan. 2022 Target	Jan. 2023 Target	Jan. 2024 Target	Jan. 2025 Target	Jan. 2026 Target

Age - % of equipment or non-revenue vehicles within a particular asset class that have met or exceeded their Useful Life Benchmark (ULB)	Non-Revenue Automobile	75%	100%	100.0%
	Trucks and other Rubber Tire Vehicles	6.25%	6.25%	6.0%
<b>Facilities</b>				
Condition - % of facilities with a condition rating below 3.0 on the FTA Transit Economic Requirements Model (TERM) Scale	Passenger/Parking Facilities	0%	0%	0%
	Administration/Maintenance Facilities	6.67%	6.67%	6.0%

**MPO Transit Asset Management Targets**

As discussed above, MPOs are not required to establish TAM targets annually each time the transit provider establishes targets. Instead, MPO's must revisit targets each time the MPO updates the LRTP. MPOs can either agree to program projects that will support the transit provider targets or establish separate regional TAM targets for the MPO planning area. MPO targets may differ from agency targets, especially if there are multiple transit agencies in the MPO planning area.

On May 22, 2023, the CRTPA agreed to support StarMetro's TAM targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the provider's targets.

#### Transit Asset Management Investments in the TIP

The CRTPA TIP was developed and is managed in cooperation with the CRTPA region's public transportation providers (StarMetro, Big Bend Transit, Inc. and Wakulla Senior Citizens Council, Inc.). The TIP reflects the investment priorities established in the CRTPA 2045 Connections Regional Mobility Plan.

FTA funding, as programmed by the region's transit providers and FDOT, is used for programs and products to improve the condition of the region's transit assets. The focus of the CRTPA's investments that address transit state of good repair include projects and programs contained within the Public Transportation Section of this document including the following:

- Continued bus and paratransit replacements with compressed natural gas conversion (CNG)
- Repair, rehabilitation, and replacement of transit infrastructure

Transit asset condition and state of good repair is a consideration in the methodology the CRTPA uses to select projects for inclusion in the TIP. The TIP includes specific investment priorities that support all of the MPO's goals, including transit state of good repair, using a prioritization and project selection process established in the LRTP. This process evaluates projects that, once implemented, are anticipated to improve transit state of good repair in the MPO's planning area. The CRTPA's 2045 Regional Mobility Plan reflects goals supportive of transit state of good repair. Furthermore, development of the CRTPA's annual list of project priorities occurs in concert with the agency's transportation partners. With regards to transit, such coordination includes StarMetro and reflects consistency with StarMetro's adopted Transit Development Plan, most recently adopted in July 2021 (<https://www.talgov.com/Uploads/Public/Documents/starmetro/tdp.pdf>).

The CRTPA TIP has been evaluated and the anticipated effect of the overall program is that, once implemented, progress will be made towards achieving the transit asset performance targets. The CRTPA will continue to coordinate with the StarMetro, Big Bend Transit, Inc. and Wakulla Senior Citizens Council, Inc. to maintain the region's transit assets in a state of good repair.

Currently, programmed investments in the CRTPA region's public transit system identifies approximately \$50 million in both capital and operational projects over the next 5 years. For more information on these programs and projects, see Section E (Public Transportation) section in this document.

## Transit Safety Performance

FTA's Public Transportation Agency Safety Plan (PTASP) regulations established transit safety performance management requirements for providers of public transportation systems that receive federal financial assistance under 49 U.S.C. Chapter 53.

The regulations apply to all operators of public transportation that are a recipient or sub-recipient of FTA Urbanized Area Formula Grant Program funds under 49 U.S.C. Section 5307, or that operate a rail transit system that is subject to FTA's State Safety Oversight Program. The PTASP regulations do not apply to certain modes of transit service that are subject to the safety jurisdiction of another Federal agency, including passenger ferry operations regulated by the United States Coast Guard, and commuter rail operations that are regulated by the Federal Railroad Administration.

The PTASP must include performance targets for the performance measures established by FTA in the [National Public Transportation Safety Plan](#), which was published on January 28, 2017. The transit safety performance measures are:

- Total number of reportable fatalities and rate per total vehicle revenue miles by mode.
- Total number of reportable injuries and rate per total vehicle revenue miles by mode.
- Total number of reportable safety events and rate per total vehicle revenue miles by mode.
- System reliability – mean distance between major mechanical failures by mode.

In Florida, each Section 5307 or 5311 public transportation provider must develop a System Safety Program Plan (SSPP) under Chapter 14-90, Florida Administrative Code. FDOT technical guidance recommends that Florida's transit agencies revise their existing SSPPs to be compliant with the FTA PTASP requirements.<sup>1</sup>

<sup>1</sup> FDOT Public Transportation Agency Safety Plan Guidance Document for Transit Agencies. Available at [ptasp-14-90-guidance-document\\_09112019.docx \(live.com\)](#)

### **Transit Safety Performance (Cont.)**

Each public transportation provider that is subject to the PTASP regulations must certify that its SSPP meets the requirements for a PTASP, including transit safety targets for the federally required measures. Providers were required to certify their initial PTASP and safety targets by July 20, 2021. Once the public transportation provider establishes safety targets it must make the targets available to MPOs to aid in the planning process. MPOs are not required to establish transit safety targets annually each time the transit provider establishes targets. Instead, MPO targets must be established when the MPO updates the LRTP (although it is recommended that MPOs reflect the current transit provider targets in their TIPs).

When establishing transit safety targets, the CRTPA may either agree to program projects that will support the transit provider targets or establish its own separate regional transit safety targets for the MPO planning area. In addition, the CRTPA must reflect those targets in LRTP and TIP updates.

### Transit Safety Targets

The following transit providers operate in the CRTPA planning area: (1) Tier I transit service provider - StarMetro (City of Tallahassee) and two (2) Tier II providers - Big Bend Transit, Inc. and Wakulla Senior Citizens Council, Inc. Of these providers, StarMetro is responsible for developing a PTASP and establishing transit safety performance targets annually.

### Transit Agency Safety Targets

StarMetro established the transit safety targets identified in the below table on January 2021:

#### Transit Safety Performance Targets for StarMetro

Transit Safety Performance Targets for StarMetro							
Transit Mode	Fatalities (total)	Fatalities (rate)	Injuries (total)	Injuries (rate)	Safety Events (total)	Safety Events (rate)	System Reliability
Fixed Route Bus	0	0	5	0.2	7	.028	9,500
ADA/ Paratransit	0	0	2	0.1	1	0.1	68,456

### CRTPA Transit Safety Targets

As discussed above, MPOs are not required to establish transit safety targets annually each time the transit provider establishes targets. Instead, MPO's must revisit targets each time the MPO updates the LRTP. MPOs can either agree to program projects that will support the transit provider targets or establish separate regional transit safety targets for the MPO planning area. MPO targets may differ from agency targets, especially if there are multiple transit agencies in the MPO planning area.

### **CRTPA Transit Safety Targets (Cont.)**

To that end, on May 18, 2021, the CRTPA agreed to support StarMetro's transit safety targets as contained within the PTASP, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the targets. The CRTPA's TIP was developed and is managed in cooperation with StarMetro. It reflects the investment priorities established in the CRTPA's 2045 Regional Mobility Plan. The CRTPA supports StarMetro's transit safety targets and agrees to plan and program projects in the TIP that will, once implemented, make progress toward achieving the transit provider's targets.

### **Transit Safety Investments in the TIP**

The CRTPA's TIP was developed and is managed in cooperation with StarMetro (City of Tallahassee), Big Bend Transit, Inc., and Wakulla Senior Citizens Council, Inc. It reflects the investment priorities established in the CRTPA's 2045 Regional Mobility Plan.

The TIP has been evaluated and the anticipated effect of the overall program is that, once implemented, progress will be made towards achieving the transit safety performance targets. FTA funding, as programmed by the region's transit providers and FDOT, is used for programs and products to improve the safety of the region's transit systems. The focus of the CRTPA's investments that address transit safety performance include:

- Pedestrian infrastructure projects that expand pedestrian connectivity and safety within the region to transit facilities that are included in Section B (Bicycle and Pedestrian) section of the TIP, including:
  - Paul Russell Road Sidewalk (Monday Rd to Apalachee Parkway) CST in FY 25
  - Monroe Street Sidewalk (Lakeshore Dr to John Knox Rd) CST in FY 25
  - Old St. Augustine Road Sidewalk (Lafayette St to Paul Russell Rd) CST in FY 26
- Roadway resurfacing projects that are included in Section F (Resurfacings).
- Transportation System Management & Operations (TSM&O) projects included in Section G (Transportation Systems Management) that include intersection improvements that enhance pedestrian safety.

Transit safety is a consideration in the methodology CRTPA uses to select projects for inclusion in the TIP. The TIP includes specific investment priorities that support all of the CRTPA's goals, including transit safety, using a prioritization and project selection process established in the RMP. This process evaluates projects that, once implemented, are anticipated to improve transit safety in the CRTPA planning area.

### Transit Safety Investments in the TIP (Cont.)

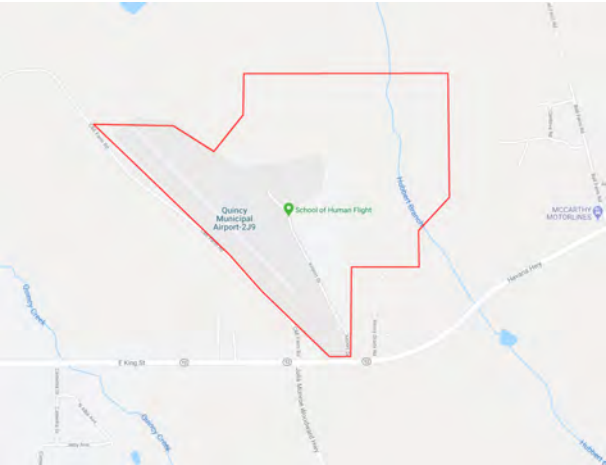

This prioritization process considers the following criteria:

Prioritization Criteria	Weighting
Safety Improvement	75
Universal Accessibility	60
Growth Center/Economic Development	30
Existing Congestion Reduction	25
Supportive of Bicycle and Pedestrian Mobility and Accessibility	20
Supportive of Transit Priorities and Accessibility	20
Future Congestion Reduction	15
Supportive of Freight Priorities	15
Supportive of Transportation Technology	15
Resilience	10
Evacuation Route	5
Travel and Tourism	5
Tiebreaker: Funding Commitment	1
<b>Total Potential Points</b>	<b>296</b>

The CRTPA TIP has been evaluated and the anticipated effect of the overall program is that, once implemented, progress will be made towards achieving the transit safety performance targets. The CRTPA will continue to coordinate with the StarMetro to maintain and improve the safety of the region's transit system and maintain transit assets in a state of good repair.

**2045 RMP Page 5-11- Table 5-10**

This project was amended at the December 2, 2024 Executive Committee Meeting to add the project and associated project costs.

FY 2023 FTA money and matching local monies from the City of Tallahassee (COT) to fund the purchase of battery-electric buses, to support charging infrastructure and the development of a workforce training program for its mechanics and operators to maintain the fleet. The project will help reduce emissions and improve service and reliability for riders in and around Tallahassee.

**2045 RMP Page 5-11 - Table 5-10**

This project was amended at the December 2, 2024 Executive Committee Meeting to add the project and associated project costs.

FY 2024 FTA money, matching local monies from the City of Tallahassee and State toll revenue credits to StarMetro to buy new battery-electric buses to replace older vehicles and install charging equipment. The project will reduce emissions, improve service and reliability, and help the city achieve its goal for 100% battery electric bus transportation by 2035.

## TIP Abbreviations, Acronyms and Fund Codes

## TIP Abbreviations/Acronyms & Definitions

BPIA	Blueprint Intergovernmental Agency –local agency that implements a portion of the Leon County penny sales tax funding for use on infrastructure and natural resource management in Tallahassee/Leon County.
BIL	Signed into law on November 15, 2021 the <a href="#">Infrastructure Investment and Jobs Act (IIJA) (Public Law 117-58, also known as the “Bipartisan Infrastructure Law”)</a> provides the largest long-term investment in our infrastructure and economy in our Nation’s history. It provides \$550 billion over fiscal years 2022 through 2026 in new Federal investment in infrastructure, including in roads, bridges, and mass transit, water infrastructure, resilience, and broadband.
CMAC	Citizens Multimodal Advisory Committee – one of the two committees that advises the C RTPA Board and is comprised of individuals in the community.
CPGA	Consolidated Planning Grant Agreement
C RTPA	Capital Region Transportation Planning Agency – the regional transportation planning agency (or Metropolitan Planning Organization) for Florida’s capital region (Gadsden, Jefferson, Leon and Wakulla counties) responsible for coordinating regional transportation planning.
CTD	Florida Commission for the Transportation Disadvantaged, a state agency.
FAA	Federal Aviation Administration – the federal agency within the United States Department of Transportation with authority to regulate and oversee all civil aviation in the United States.
FAST Act	On December 4, 2015, President Obama signed the Fixing America’s Surface Transportation (FAST) Act (Pub. L. No. 114-94) into law—the first federal law in over a decade to provide long-term funding certainty for surface transportation infrastructure planning and investment. The FAST Act authorizes \$305 billion over fiscal years 2016 through 2020 for highway, highway and motor vehicle safety, public transportation, motor carrier safety, hazardous materials safety, rail, and research, technology, and statistics programs.
FDOT	Florida Department of Transportation – the state transportation agency responsible for transportation planning in Florida.
FHWA	Federal Highway Administration – the federal agency within the United States Department of Transportation that provides stewardship over the construction, maintenance and preservation of the Nation’s highways, bridges and tunnels.
FTA	Federal Transit Administration – the federal agency within the United States Department of Transportation that provides technical assistance to local public transit systems.
ITS	Intelligent Transportation Systems – related to transportation, ITS are techniques and methods for relieving congestion, improving road and transit safety, and increasing economic productivity.
PPL	Priority Project List(s) – the annually adopted C RTPA listing of project priorities providing funding guidance to the FDOT.

## TIP Abbreviations/Acronyms & Definitions (Cont.)

<b>RMP</b>	Regional Mobility Plan – The C RTPA's long range transportation plan that identifies needed transportation projects in the C RTPA region over a 20-year time period to address the region's mobility.
<b>SIS</b>	Strategic Intermodal System – a transportation system in Florida that is comprised of facilities and services of statewide and interregional significance.
<b>STIP</b>	State Transportation Improvement Program - is a federally mandated document which must include a listing of projects planned with federal participation in the next four fiscal years.
<b>SUNTrail</b>	The Florida Shared-Use Nonmotorized (SUN) Trail Network -state program directing FDOT to make use of its expertise in efficiently providing transportation projects to develop a statewide system of paved non-motorized trails as a component of the Florida Greenways and Trails System (FGTS), which is planned by the Florida Department of Environmental Protection (FDEP).
<b>TAC</b>	Technical Advisory Committee – one of the two committees that advises the C RTPA Board and comprised of local and state planners and engineers with expertise in the area of transportation planning, engineering or management.
<b>TATMS</b>	Tallahassee Advanced Traffic Management System – the region's traffic management center.
<b>TD</b>	Transportation Disadvantaged - Transportation disadvantaged are those who cannot obtain their own transportation due to a disability, age, or income.
<b>TIP</b>	Transportation Improvement Program – C RTPA document adopted annually that provides a prioritized listing of transportation projects within the C RTPA region over a five-year period that have received identified funding and is consistent with the agency's long range transportation plan.
<b>TPM</b>	Transportation Performance Measures
<b>TRIP</b>	Transportation Regional Incentive Program – competitive FDOT program providing state funding for regionally significant projects.

## Project Phase Information

The following provides information detailing the project phase abbreviations contained on the project pages within the TIP.

<u>Phase Group</u>	<u>Description</u>	<u>Phase Type</u>	<u>Description</u>
1	Planning (PLN)/Feasibility Study (FS)	1	In-House/Consultant
2	Project Development & Environment Study (PD&E)	2	Consultant/Contractor
3	Preliminary Engineering (PE)	3	Purchase
4	Right-of-Way (ROW)	4	Grant
5	Construction (CST)	5	Relocate
6	Construction Support (CEI)	6	Utility
7	Maintenance (MAINT)	7	Railroad
8	Operations (OPS)	8	Other Agency
9	Capital (CAP)	9	Indirect Support
A	Administration (ADMIN)	A	Contract Incentive
B	Research (RES)	B	Service Contract
C	Environmental (ENVIR)		

## **TIP Fund Codes**

## Project Status

## CRTPA REGION PROJECTS - STATUS FY 2025

Project Name/Limits	Project Description & Project No.	Current Status
<b>Capital City to the Sea: Coastal Trails Project</b> <i>US 98 (approximately 24 miles)</i>	Construct multiuse trail on US 98	Completed from Surf Road to St. Marks Trail. The St. Marks Trail to Lighthouse Road construction (CST) in FY 24.
<b>Orange Avenue (SR 373)</b> <i>Capital Circle SW to Monroe Street (SR 61)</i>	Widen Orange Avenue to 4 lanes. Multi-modal enhancements Project No. 4379021 (Leon Co.)	Design (PE), which was funded in FY22, is ongoing through October of 2024. Seeking Right-of-Way funding.
<b>Woodville Highway (SR 363)</b> <i>Capital Circle to Paul Russell Rd (2.1 miles)</i>	Widen roadway to 4 lanes. Multi-modal enhancements Project No. 4240094 & 4240095 (Leon Co.)	Design funded is complete. Right-of-way acquisition is on hold.
<b>Capital Circle, SW (SR 263)</b> <i>Springhill Rd to Orange Ave (3.4 miles)</i>	Construct 6 lane roadway and multi-modal enhancements. Project No. 2197492 (Leon Co.)	Construction (CST) is progressing. Anticipate completion in 2024.
<b>Capital Circle, SW (SR 263, US 319)</b> <i>Crawfordville Rd to Springhill Rd (2.3 miles)</i>	Construct 6 lane roadway and multi-modal enhancements. Project No. 2197492 (Leon County)	ROW acquisition in FY25. CST is funded in FY26. <a href="#"><u>Moving Florida Forward Initiative</u></a>
<b>Crawfordville Road (US 319)</b> <i>LL Wallace Rd to S of SR61 Intersection Wakulla Co Line to LL Wallace Rd</i>	Widen roadway to 4 lanes from Project Nos. 2198811, 2198814 and 2198815 (Leon Co.)	Design (PE) is underway through the Fall of 2024. ROW programmed in FY26 & FY27.
<b>Crawfordville Road (US 319)</b> <i>S of Ivan Road to Wakulla Arran Rd</i>	Widen roadway to 4 lanes from Project No. (Wakulla Co.)	SR267 to S of SR61 Intersection CST FY 22 Right-of-Way.
<b>Thomasville Road (SR 61) Multi-Use Path</b> <i>Betton Rd to Metropolitan Blvd.</i>	Construct multiuse trail on Thomasville Road. Project No. 4488681 (Leon Co.)	Design (PE) started in FY 22, to be completed in 2024. Seeking Construction (CST) funding
<b>Bloxham Cutoff Road (SR267) Multi-Use Trail</b> <i>Wakulla Springs State Park to St Marks Trail</i>	Construct multiuse trail on Bloxham Cutoff Rd. Project No. 4101722 (Wakulla County)	Design is underway. Seeking Construction (CST) funding through SUN Trails.
<b>N Monroe Street Sidewalk</b> <i>John Knox Rd to Lakeshore Dr</i>	Sidewalk on the west side of Monroe Street. Project No. 445053-1 (Leon Co.)	Right-of-way acquisition (ROW) is funded in FY 24 and Construction (CST) in FY 25.
<b>US 90 Shared Use Trail</b> <i>Pedrick Road to Jefferson County Line</i>	Sidewalk on the west side of Monroe Street. Project No. 445053-1 (Leon Co.)	Feasibility Study completed. PD&E is funded in FY29.

# APPENDIX C

## TRANSPORTATION DISADVANTAGED SUMMARY (LISTED BY CRTPA COUNTY)

State of Florida  
Commission for the Transportation Disadvantaged  
Fiscal Year 2022-2023 Annual Performance Report

# 2022-2023 Annual Operating Report

## County Summaries and Data Tables

January 1, 2024

## 2022-23 COORDINATED TRANSPORTATION OPERATING DATA REPORT

---

Each September, CTCs are required to compile and submit operating data on their respective service areas within the AOR to CTD (s. 427.0155(2), F.S., and Rule 41-2.007(6), F.A.C.). The AOR provides a **macro-level, systemwide** overview of all coordinated transportation services provided to the TD population, including trips funded by CTD and other purchasing agencies.

The AOR data reflect aggregate totals of all trips (sponsored and non-sponsored) provided in the fiscal year, including:

- Total unduplicated passenger head count (UDPHC) served by the Coordinated System;
- Total number of Coordinated System trips and miles provided by service type (e.g., fixed route, paratransit, Transportation Network Company or Taxicab, etc.), revenue source, passenger type (i.e., person with a disability, older adult, etc.), and trip purpose;
- Total number of unmet trip requests, no-shows, complaints, and commendations;
- A summary of revenues from each of the purchasing agencies and expenses categorized by the source (labor, benefits, services, supplies, taxes, etc.); and
- Qualitative data on the CTC, such as network type (not-for-profit, for-profit, governmental), operating environment (rural or urban), whether the CTC provides out-of-county trips, and listings of any transportation operators.

Additionally, a county's AOR may include data on services provided by "coordination contractors," which are agencies that have a written contract with the CTC to perform some, if not all, of its own transportation services to a segment within the TD population (e.g., a day program serving individuals with IDD). The contractor provides data on its services (trips and miles) to the CTC, which is compiled within the AOR.

As the AOR represents a compilation of data derived from the submission of each individual CTC, there are inconsistencies in the way this data is gathered and reported from some 60 different sources. This inconsistency is increased when the CTC includes information from coordination contractors, where the CTC does not have oversight or ability to verify the data submitted by these organizations. Though the AOR may provide a "summary" of services provided in each county, CTD cannot currently authenticate the accuracy of data reported across all performance measures within the AOR.

# **APPENDIX E**

## **CRTPA FY 2025 – FY 2029**

### **Project Priority Lists**

*(Adopted on June 19, 2023 )*

*(Amended on September 19, 2023)*

*(Amended on November 21, 2023)*

May 23, 2022

Mr. Phillip Gainer, PE, Secretary  
Florida Department of Transportation, District Three  
PO Box 607  
Chipley, FL 32428

Subject: Adopted FY 2024 – FY 2028 CRTPA Project Priority Lists

Dear Secretary Gainer:

The purpose of this letter is to inform you that on May 17, 2022, the Capital Region Transportation Planning Agency (CRTPA) Board adopted the following Fiscal Year (FY) 2024 – FY 2028 Project Priority Lists (PPLs):

- Regional Mobility Plan Roadways PPL
- Regional Mobility Plan Bicycle and Pedestrian PPL
- Regional Mobility Plan Regional Trails PPL
- Transportation Systems Management and Safety PPL
- Intelligent Transportation Systems PPL
- StarMetro PPL
- Tallahassee International Airport PPL
- Transportation Alternatives PPL

Attached please find *Attachment I* containing the adopted Project Priority Lists and *Attachment II* which provides an overview of the changes reflected in the adopted lists from last year's adopted lists. In addition, the CRTPA requests that FDOT program the \$1.4 million of additional SU funding for Planning budget for the CRTPA Work Program in FY 24.

We are looking forward to meeting with you to discuss the programming of the CRTPA's projects. If you have any questions, please do not hesitate to contact me at 850.694.1440 or Greg Burke at 850.891.8627.

Sincerely,

A handwritten signature in blue ink, appearing to read "Greg Slay".

Greg Slay, AICP  
Executive Director  
Capital Region Transportation Planning Agency

PRIORITY NO.	PROJECT NAME and DESCRIPTION	COST
<i>Monitor and Audio Equipment at C.K. Steele Plaza</i>		
1	C.K. Steele Plaza, located downtown and serving as StarMetro’s main transit center with 24 bus bays, does not have digital signage or a digital information kiosk and has substandard speakers and audio equipment. This project will provide digital signage at C.K. Steele Plaza for real-time service schedules, emergency messages, and other information for customers. StarMetro will also update and upgrade the public announcement system simultaneously with digital sign installation and implementation and two digital information kiosks which have audio capabilities for ADA compliance.	\$500,000
<i>Construction of multi-bay South Side Transit Center - (Meridian and Orange)</i>		
2	This SuperStop will provide an off-street location and possibly on street bus bays for customers to transfer between multiple routes, serve as a layover point for operators, will assist to improve system performance, will have public restrooms, an information booth, supervisor offices, and meeting space. The building will be constructed with solar panels on the roof, overhead charging stations for transit buses and plug in chargers for staff vehicles. In addition, the SuperStop will allow StarMetro to develop neighborhood circulators on the Southside to efficiently provide transportation options for elderly, disabled and low-income individuals located in the area and improve service to the Veteran’s Administration Clinic.	\$5 M
<i>Charging Infrastructure to support an all-Electric Bus Fleet</i>		
3	Install depot charging for 66 buses at StarMetro’s bus barn including electrical, structural, and civil engineering, design, and remote monitoring,	\$500,000
<i>Redevelopment of C.K. Steele Plaza Planning Study</i>		
4	Initiate an environmental assessment, feasibility study, and preliminary design of C.K. Steele Plaza to identify the needs, challenges, opportunities, and funding options to transform the Plaza from a single-use transit facility into a mixed-use, multistory intermodal facility with opportunities for housing StarMetro Administrative Staff; leasable space for office, restaurants, and retail activities; and connections to intercity transportation such as the Gadsden Express, Monticello Express, Greyhound, Megabus, Flixbus.	\$500,000

Roadway Project Priority List			
Project	Ranking	Action	Notes
Thomasville Rd Multi-modal	-	Funded	Removed as work is programmed with resurfacing.

- *Previous Project Priority No. 6, Thomasville Rd multi-modal improvements, is funded and therefore removed.*
- *All subsequent projects moved up one in the ranking. The total number of projects was reduced from 16 to 15.*

Regional Trails Project Priority List			
Project	Ranking	Action	Notes
Bloxham Cutoff Trail	No. 2	Added	Moved from the Bike-Ped to Trail PPL
Tallahassee North Connectors	No. 4	Added	Project added this year
Apalachee Parkway Connector	No. 5	Added	Moved from the Bike-Ped PPL to Trail PPL
Monticello Trail Extension	No. 6	Ranking	Moved from Priority No. 3 to No. 6
Forest Trail North	No. 7	Ranking	Moved from Priority No. 4 to No. 7
Nature Coast Trail	No. 8	Ranking	Moved from Priority No. 5 to No. 8

- *Project Priority No. 2, the Bloxham Cutoff Trail, is added to the list. Previously this project was ranked No. 4 on the Bicycle Pedestrian PPL.*
- *Project Priority No. 4, the Apalachee Parkway Connector Trail, is added to the list. Previously this project was ranked No. 6 on the Bicycle Pedestrian PPL.*
- *Project Priority No. 4 is introduced to the list. The three segments listed are associated with the trail system in North Leon County being developed by the Blueprint Intergovernmental Agency.*

Transportation Systems Management Project Priority List			
Project	Ranking	Action	Notes
Orange Avenue – Nims School	-	Removed	FDOT constructed safety improvements.
Lk Bradford Dr & Stadium Dr Int.	No. 1	Ranking	Moved from Priority No. 2 to No. 1.
Thomasville Rd Intersection	No. 2	Added	Request from City to add intersection improvement.
Pensacola St Safety Improvement	-	Removed	FDOT programmed safety improvements.

- *Project Priority No. 2, Signalization/Realignment of Ox Bottom Rd and Velda Dairy Rd at Thomasville Rd is added this year.*

Intelligent Transportation Systems Project Priority List			
Project	Ranking	Action	Notes
I-10 Trailblazers	-	Removed	City TMC staff requested the project be removed.
ATC Cabinet Upgrades	No. 2	Ranking	Moved from Priority No. 4 to No. 2.
Adaptive Traffic Signal Control (US 90)	No. 3	Revised	Specifies requested improvement is to US 90. Previously listed major arterials.
Adaptive Traffic Signal Control (US 27)	No. 4	Revised	Specifies requested improvement is to US 27. Previously listed major arterials.

- *I-10 Trailblazers, previously ranked as Priority No. 2, is removed.*
- *Adaptive Traffic Signals was listed as a single priority (No.3) for improvements to major arterials. As revised it splits the request into two ranked projects and lists specific arterials.*

## **FHWA – Eastern Federal Lands Highway Division Projects and Informational Items**

*(This information will be provided by FHWA and included once received.)*

# **APPENDIX G**

## **Public Involvement**

## PUBLIC MEETINGS TO PRESENT CAPITAL REGION'S TRANSPORTATION PLANS AND PROGRAMS

**Capital Region Virtual Meeting: Monday, June 10, 2024 from 11:30 AM – 1 PM**

---

**In-Person Meeting: Thursday, June 6, 2024 from 10 AM – 2 PM**  
**Renaissance Community Center, 457 W. Virginia Street, Tallahassee, FL 32301**

The Capital Region Transportation Planning Agency (CRTPA) is hosting a series of meetings to provide the public the opportunity to learn about the transportation projects in the CRTPA Capital Region (Gadsden, Jefferson, Leon, and Wakulla Counties) that have received funding, as well as the agency's proposed project priorities for the region. The Fiscal Year (FY) 2025 – FY 2029 Transportation Improvement Plan (TIP) and Project Priority Lists (PPLs) are scheduled to be adopted at the June 17, 2024, CRTPA Board meeting.

- **The TIP identifies transportation projects (including roadway, transit, bicycle, pedestrian, and aviation) located within the Capital Region that have received state and federal funding.**
- **The PPLs are adopted annually and identify the agency's regional and/or local transportation priorities.**

***Access the FY 2025 – FY 2029 TIP & PPL documents on the CRTPA webpage ([www.crtpa.org](http://www.crtpa.org)) Latest News.***

***To participate virtually:*** The virtual meeting will be streamed live on June 10, 2024. ***To access the virtual meeting see the CRTPA webpage ([www.crtpa.org](http://www.crtpa.org)) Latest News.***

***The public may also submit questions or comments prior to or at the June 17, 2024 CRTPA meeting.*** Comments may be provided in several ways. Written comments may be provided via the CRTPA website under Contact Us ([www.crtpa.org/contact-us/](http://www.crtpa.org/contact-us/)), or emailed to [Suzanne.Lex@crtpa.org](mailto:Suzanne.Lex@crtpa.org). Comments can also be mailed to: CRTPA, 300 S. Adams St. A-19, Tallahassee, FL 32301. In-person comments may be made at the June 17, 2024 CRTPA meeting (1:30 PM) held at City Hall, 300 S. Adams St. Tallahassee. Comments received by 5 PM Sunday June 16, 2024 will be provided to the CRTPA Board members at their June 17<sup>th</sup> Meeting.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status. If you have a disability requiring accommodations or need translation services, please contact the Capital Region Transportation Planning Agency at (850) 891-8630. The telephone number of the Florida Relay TDD Service is # 711.

***This notice and meetings satisfy StarMetro's Program-of-Projects requirements of the Section 5307 Urbanized Area Formula Program Grant as administered by the Federal Transit Administration.***

# Challenges to 6-member juries rejected

Jim Saunders

The U.S. Supreme Court on Tuesday rejected constitutional challenges to Florida’s use of six-member juries in most felony trials, with Florida one of only a handful of states not requiring 12-member juries in criminal cases.

The Supreme Court, as is common, did not explain its reasons for declining to take up 13 cases about the issue. But Justice Neil Gorsuch wrote a dissenting opinion that said the court should reconsider a 1970 ruling in a Florida case, saying the constitutional right to trial by a jury is not met by six-member juries.

Gorsuch also wrote that “nothing prevents the people of Florida and other affected states from

revising their jury practices to ensure no government in this country may send a person to prison without the unanimous assent of 12 of his peers.”

“If we (justices) will not presently shoulder the burden of correcting our own mistake, they have the power to do so,” Gorsuch wrote. “For, no less than this (Supreme) Court, the American people serve as guardians of our enduring Constitution.”

Gorsuch wrote the dissent in a challenge filed by attorneys for Natoya Cunningham, who was sentenced to eight years in prison in 2022 after being convicted by a six-member Martin County jury on charges of aggravated battery and retaliation against a wit-

ness or informant, both second-degree felonies.

Cunningham’s attorneys went to the U.S. Supreme Court after the state’s 4th District Court of Appeal rejected the challenge to use of the six-member jury.

Florida uses six-member juries except in capital cases, where 12-member juries are required. The state’s use of six-member juries dates to 1877, according to documents filed at the Supreme Court.

Attorney General Ashley Moody’s office said in an October 2023 brief that Arizona, Connecticut, Indiana, Massachusetts and Utah also use juries of fewer than 12 people in criminal cases.

Moody’s office argued that the Supreme Court

ruled correctly in the 1970 case, known as Williams v. Florida, that six-member juries could be used. Also, the brief pointed to potential far-reaching effects for courts if the 1970 decision were overturned.

“Florida is the third most populous state in the country and tries all noncapital crimes before six-person juries,” the brief said. “Currently, roughly 5,000 criminal convictions are pending on direct appeal in Florida. Overruling Williams would force the use of public resources to conduct thousands of retrials on top of the trials already pending and might well result in the release of convicted criminals into the public.”

The Cunningham case focused on the use of

six-member juries in felony cases, not cases involving misdemeanor charges. In a petition filed last year, her attorneys wrote that Florida began using six-member juries as the Reconstruction era ended and Jim Crow laws began.

“The jury-of-six thus first saw light at the birth of the Jim Crow era as former Confederates regained power in southern states and state prosecutors made a concerted effort to prevent blacks from serving on jurors,” the petition said.

A brief filed in October by Cunningham’s attorneys, including former U.S. Solicitor General Seth Waxman, cited studies and said 12-member juries “deliberate longer and share more facts, ideas, and

challenges to conclusions during higher-quality deliberations.” It also said empaneling a “smaller jury also decreases the probability that members of minority groups (be they racial, religious, political, or socio-economic) will serve.”

But Moody’s office disputed that Florida’s use of six-member juries was approved to suppress minority participation.

“Beyond noting that the rule dates from Reconstruction ... petitioner cites no evidence suggesting that is so, and makes no attempt to explain how a rule establishing the size of juries without regard to race could be a covert instrument of racism,” the brief said.

# Vouchers for home education increase

Ryan Dailey

A state voucher program that began in the 2023-2024 school year is on pace to double in size — at least — as applications roll in from families who educate children at home and are seeking funds to make a range of purchases.

What’s known as the Personalized Education Program provides voucher funds to students who are not enrolled full-time at public or private schools. The program was established through a 2023 law (HB 1) that massively expanded the state’s voucher programs.

The law allowed for the Personalized Education Program to provide vouchers for 20,000 students in its inaugural year, and the program almost hit its cap, with vouchers for 19,514 students funded.

The program is allowed to grow by 40,000 students a year under the law, meaning the maximum capacity would grow in the 2024-2025 school year to 60,000 students.

As of Thursday, 39,690 applications had been submitted for the coming school year, and 31,991 vouchers had been awarded — with months to go for applications to come in, potentially increasing the number toward the maximum of 60,000.

Step Up for Students, an organization that administers vouchers for the state, will continue to accept applications through the beginning of the school year. More applications come in every day.

Scott Kent, director of media and strategic communications for Step Up for Students, said in an email to The News Service of Florida that not every scholarship that gets awarded ultimately results in money being used. That means the final number of PEP vouchers funded next school year will not become clear for months.

“As with every scholarship program, not every student who is awarded a scholarship uses it,” Kent said.

Money from the Personalized Education Program can be used to

purchase such things as instructional materials, virtual education courses, tutoring and contracted services at public schools. It is provided to students through what are known as education savings accounts.

Money for the PEP vouchers comes from the longstanding Florida Tax Credit Scholarship program, which provides tax credits to businesses that contribute money for vouchers. Voucher amounts typically range from about \$7,000 to \$9,000 per student, depending on what counties they live in.

But a notice on the Step Up for Students website said 2024-2025 award amounts will not be finalized until after Gov. Ron DeSantis has signed a state budget for the fiscal year that will start July 1. As of Tuesday morning, the Legislature had not formally sent the budget to DeSantis.

A fact sheet on the Florida Department of Education website describes PEP recipients as part of a broader home-education population. It says the PEP program “was created to serve Florida’s home education population who would like access to an education saving account to fund their student’s learning.”

Families whose students receive PEP vouchers have to follow various requirements, such as submitting “student learning plans” each year to Step Up for Students. Parents develop the plans to guide instruction for students and to address needed

services, according to the Department of Education fact sheet.

Meanwhile, the overall number of homeschooled students has more than doubled in Florida during the past decade.

DeSantis on Friday posted information on social media that said 77,000 Florida students were homeschooled 10 years ago, compared to 155,000 home-schooled students in 2023.

DeSantis also spoke Thursday at the Florida Homeschool Convention in Orlando, where he touted Florida as the “number one state for home-school in all of these United States.”

“When you think about education and your kids, as a parent, the kids are in many ways an open book. And do you want to turn them over for eight hours a day to some indoctrination factory? Of course not. And so you want to be able to have choice to be able to direct the education and upbringing of your kids,” DeSantis said.

**PUBLIC MEETINGS TO PRESENT**

**CAPITAL REGION’S TRANSPORTATION PLANS AND PROGRAMS**

**Capital Region Virtual Meeting: Monday, June 10, 2024 from 11:30 AM – 1 PM**

**In-Person Meeting: Thursday, June 6, 2024 from 10 AM – 2 PM**

**Renaissance Community Center, 457 W. Virginia Street, Tallahassee, FL 32301**

The Capital Region Transportation Planning Agency (CRTPA) is hosting a series of meetings to provide the public the opportunity to learn about the transportation projects in the CRTPA Capital Region (Gadsden, Jefferson, Leon, and Wakulla Counties) that have received funding, as well as the agency’s proposed project priorities for the region. The Fiscal Year (FY) 2025 – FY 2029 Transportation Improvement Plan (TIP) and Project Priority Lists (PPLs) are scheduled to be adopted at the June 17, 2024, CRTPA Board meeting.

- **The TIP identifies transportation projects (including roadway, transit, bicycle, pedestrian, and aviation) located within the Capital Region that have received state and federal funding.**
- **The PPLs are adopted annually and identify the agency’s regional and/or local transportation priorities.**

**Access the FY 2025 – FY 2029 TIP & PPL documents on the CRTPA webpage ([www.crtpa.org](http://www.crtpa.org)) Latest News.**

**To participate virtually:** The virtual meeting will be streamed live on June 10, 2024. **To access the virtual meeting see the CRTPA webpage ([www.crtpa.org](http://www.crtpa.org)) Latest News.**

**The public may also submit questions or comments prior to or at the June 17, 2024 CRTPA meeting.** Comments may be provided in several ways. Written comments may be provided via the CRTPA website under Contact Us ([www.crtpa.org/contact-us/](http://www.crtpa.org/contact-us/)), or emailed to [Suzanne.Lex@crtpa.org](mailto:Suzanne.Lex@crtpa.org). Comments can also be mailed to: CRTPA, 300 S. Adams St. A-19, Tallahassee, FL 32301. In-person comments may be made at the June 17, 2024 CRTPA meeting (1:30 PM) held at City Hall, 300 S. Adams St. Tallahassee. Comments received by 5 PM Sunday June 16, 2024 will be provided to the CRTPA Board members at their June 17<sup>th</sup> Meeting.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status. If you have a disability requiring accommodations or need translation services, please contact the Capital Region Transportation Planning Agency at (850) 891-8630. The telephone number of the Florida Relay TDD Service is # 711.

The TIP and PPLs are scheduled to be adopted at the June 17, 2024 CRTPA meeting.

**This notice and meetings satisfy StarMetro’s Program-of-Projects requirements of the Section 5307 Urbanized Area Formula Program Grant as administered by the Federal Transit Administration.**

## MEETING NOTICE

The next regular meeting of the Gadsden County Board of County Commissioners will be on Tuesday, June 4, 2024, starting at 6:00 p.m. The following items have been agendaed: **Awards, Presentations, and Appearances:** Proclamation National Homeownership Month, Recognition of Anita Green, Recognition of Rev. and Mrs. William Hinson, Presentation by the Apalachee Regional Planning Council (ARPC) of progress to develop the Gadsden County Economic Development & Resiliency Plan, Presentation by Purvis and Gray of Gadsden County 09/30/2023 Audited Financial Statements. **Consent:** Ratification Memo, BOCC Meeting/Workshop Minutes: May 07, 2024, Regular BOCC Meeting, May 11, 2024, Emergency Meeting, Approval of Supplemental Agreement for Iron Bridge Road, Approval of the GA Food Service Agreement with Gadsden County Elderly Affairs, Approval to Accept the Florida E911 Rural County Grant Program Agreement to Replace the Current 911 Call Handling System with Motorola VESTA 911 Call Handling System, Approval of Modification #3 to the State-Funded Small County Emergency Operations Center Design Initiative Grant F0073, Approval of the Agreement for Gadsden County Emergency Debris Removal Services with Crowder Gulf, Approval of the Agreement for Gadsden County Emergency Debris Removal Services with DRC Emergency Services, Approval of the Agreement for Gadsden County Emergency Debris Monitoring Services with Tetra Tech, Inc., Approval of the Agreement for Gadsden County Emergency Debris Monitoring Services with Thompson Consulting Services, Approval for An Emergency Purchase and Replacement of Two HVAC (Heating, Venting, and Air Conditioning) Units for the Simon Scott Building, Approval to Apply for the Healthy Kids Initiative Funding Provided by Play & Park Structures for Shiloh Park, St. John Park, Sawdust Park, and Fantana Trail Park, Approval of the Florida Council on Aging Partnership Memorandum of Understanding with Gadsden County Elderly Affairs. **(Items Pulled for Discussion: Citizens Requesting to be Heard on Non-Agenda Items (3-minute limit):** The Gadsden County Board of County Commissioners welcomes and encourages public participation at all meetings of the Board. Citizens are free to speak for up to three (3) minutes on non-agenda items. Public comments and participation are also encouraged for items on the agenda. Additionally, if you cannot attend a meeting in person, comments from the Public can also be submitted via email to [CitizensToBeHeard@gadsdencounty-fl.gov](mailto:CitizensToBeHeard@gadsdencounty-fl.gov) until noon on the date of the meeting. Comments submitted after the deadline, but prior to the meeting, will be added to the official record, but the County cannot guarantee that Commissioners and staff will have adequate time to review comments prior to the meeting. Citizens are further encouraged to participate on the County’s website at [www.gadsdencountyfl.gov](http://www.gadsdencountyfl.gov). **Public Hearings:** Adoption of Ordinance No. 2024-02: School Zones Speed Detection System. **General Business:** Approval of Lease Agreement for St. Hebron Park. **Clerk of Court:** Updates; **County Administrator:** Updates; **County Attorney:** Updates; **Discussion Items by Commissioners:** Updates. (This agenda, as well as a listing of the Receipt/File items, may be viewed in electronic format on the County’s website at [www.gadsdencountyfl.gov](http://www.gadsdencountyfl.gov).) If a person decides to appeal any decision by the Board of County Commissioners with respect to any matter considered at such public meeting, he/she will need a record of the proceedings and for such purpose, he/she may need to ensure that a verbatim record of the proceedings is made, which record includes testimony and evidence to which the appeal is to be heard. In accordance with Section 286.26, Florida Statutes, persons needing a special accommodation to participate in this meeting should contact the Facilities Management Office, 9-B East Jefferson Street, Quincy, FL 32351, by written request at least 48 hours prior to the meeting. Telephone: (850) 875-8658 or 850-694-2227.

## PUBLIC MEETINGS TO PRESENT CAPITAL REGION'S TRANSPORTATION PLANS AND PROGRAMS

NATIONAL SECURITY MATTERS

Joe Boyles  
Guest Columnist

Let’s examine a few of those measures to ensure I have facts to back up my assertion. The stock market is off about 30 percent since Biden was elected in November 2020. Together with a drop in home values, the American investor is far worse off than under the previous administration.

Inflation has risen about three times historic rates over the last four decades. In an effort to damp out inflation, the Federal Reserve has increased the federal funds rate, the cost that your bank must pay to borrow money for loans, ten times in the past year. The Fed is trying to cool the economy until inflation calms down. This has created a credit

crunch. Small businesses are having trouble getting loans. New home buyers are backing out of contracts because the cost of borrowing has increased so much. Not surprising, new construction is down about 17 percent.

The biggest factors that have driven the biden-fla-tion are federal spending (like pouring fuel on a fire) and restricting energy driving up the price. This has caused inflation on so many other goods and services. Since taking office, the Biden Administration has spent in excess of \$5 trillion of unearned income, dumping it into our economy; result – inflation. It has also caused labor participation to fall to record low, especially among young men. Why should I work if the government is going to pay me to do nothing? Instead, maybe I can write poetry or work on flower design, as Nancy Pelosi once suggested.

But you might counter that wages are up under Biden. That’s true, but it doesn’t over the price of inflation. All during the Trump years, wages topped the cost of goods and services, but that reversed in March of 2021, two months after ‘old tired Joe’ took office and ever since then, inflation has outstripped wages, a net loss in income. So, we are not only poorer (stocks and home prices declining), but we are not improving our situation with net

Our Economy

positive income. The short-lived Covid-recession of mid-2020 was over by election time and recovery was well underway...until Biden put his hand on the tiller.

So much of the cause of this economic wreckage is the result of the Biden Administration’s ideological war on fossil fuels. The so-called Climate Crisis is a myth. These green zealots wouldn’t know a crisis if it hit them in the face. Sure, temperatures have been rising over the last forty years and there is a responsible way to address this through mitigation and technology. Challenge yes; crisis no.

Each of these problems can be easily addressed by a new administration. The results of more responsible policies would have immediate effect; however, it will take time and healing to climb out of the economic hole dug by the current administration.

This business of raising the debt ceiling goes back to foundational policy. Democrats want to spend whatever the consequences. Republicans spend plenty too, but not like the other side. Democrats want to lift the debt ceiling with no strings attached. Republicans, led by Speaker McCarthy, are willing to raise the debt, but only on condition of spending restraint.

As we approach \$32 trillion in public debt, don’t we need to promise in some way to restrain our tendency to spend money we don’t have? Or maybe these politicians think we can print our way out of debt by deflating the currency? Is somehow the federal government immune to a ‘kitchen table’ understanding of mounting deficits and endless red ink? When is enough enough?

When You're Silent, We're All Victims!

YOU REPORT IT, WE REWARD IT!

VIRTUAL PUBLIC MEETING

JEFFERSON COUNTY

TRANSPORTATION PLANS AND PROGRAMS

Wednesday, May 31, 2023, from 11:30 AM – 1 PM

The Capital Region Transportation Planning Agency (CRTPA) is hosting a virtual meeting to provide the public the opportunity to learn about the transportation projects in the CRTPA Capital Region (Gadsden, Jefferson, Leon, and Wakulla Counties) that have received funding, as well as the agency’s proposed project priorities for the Region. The Fiscal Year (FY) 2024 – FY 2028 Transportation Improvement Plan (TIP) and Project Priority Lists (PPLs) are scheduled to be adopted at the June 19, 2023, CRTPA meeting.

• The TIP identifies transportation projects (including roadway, transit, bicycle, pedestrian, and aviation) located within the Capital Region that have received state and federal funding.

• The PPLs are adopted annually and identify the agency’s regional and/or local transportation priorities.

PARTICIPATE VIRTUALLY: The virtual meeting will be streamed live on May 31st from 11:30 am – 1:00 pm. Access the May 31, 2023 virtual meeting and the TIP and PPL documents on the CRTPA webpage (www.crtpa.org) Latest News.

The public may submit questions or comments prior to or at the June 19, 2023 CRTPA meeting. Comments may be provided in several ways. Written comments may be provided via the CRTPA website under Contact Us (www.crtpa.org/contact-us/), or emailed to Suzanne.Lex@crtpa.org. Comments can also be mailed to: CRTPA, 300 S. Adams St. A-19, Tallahassee, FL 32301. In-person comments may be made at the June 19, 2023 CRTPA meeting (1:30 pm) held at City Hall, 300 S. Adams St. Tallahassee. Comments received by 5 pm Sunday June 18, 2023 will be provided to the CRTPA members at their June 19th Meeting.

Public participation is solicited without regard to race, color, national origin, age, The Capital Region Transportation Planning Agency (CRTPA) is hosting a virtual meeting to provide the public the opportunity to learn about the transportation projects in the CRTPA Capital Region (Gadsden, Jefferson, Leon and Wakulla Counties) that have received funding, as well as the agency’s proposed project priorities for the region.

The TIP and PPLs are scheduled to be adopted at the June 19, 2023 CRTPA meeting.

# Study names long COVID symptoms

Findings a critical step for effective treatment

Karen Weintraub  
USA TODAY

A clearer picture of what’s become known as long COVID-19 is starting to emerge, which should eventually allow researchers to treat symptoms that can devastate people’s lives for months or years after a COVID-19 infection.

In a new study funded by the National Institutes of Health, researchers identified symptoms that are the most distinctive to long COVID, including: fatigue, especially after exercise; brain fog; dizziness; gastrointestinal symptoms; heart palpitations; issues with sexual desire or capacity; loss of smell or taste; thirst; chronic cough; chest pain; and abnormal movements.

Each self-reported symptom is given a score and someone with a score of 12 or more “is a person who very likely has long COVID,” said Dr. Leora Horwitz, who helped lead the research from the New York University Grossman School of Medicine. “It doesn’t mean these symptoms are the most common, or the most severe, or the most burdensome, or the most important to people. It just means that these are the ones that help us identify people who have long-term consequences.”

More than 20% of people who’ve had COVID score high enough six months after their infection to meet this working definition of long COVID, although one-third of them no longer meet the criteria at nine months. But just because someone no longer meets this standard doesn’t mean they are free from suffering or fully recovered, Horwitz noted.

It’s not yet clear from this study whether people with long COVID can be classified into different groups according to their symptoms, Horwitz said, though other research has tried to do that. It’s possible that long COVID has

Fatigue, brain fog, dizziness, thirst and heart palpitations are a few of the symptoms of long COVID. RICK CRUZ/PACIFIC DAILY NEWS VIA IMAGN CONTENT SERVICES

different causes in different people, or that some people are affected by a combination of factors.

The survey of nearly 10,000 Americans found long COVID is more common among people infected before the omicron variant emerged in late 2021 and among those who were not vaccinated. Reinfection and severity of infection were also linked to a higher incidence of long COVID, according to the study, published Thursday in the Journal of the American Medical Association.

Researchers now plan to connect the survey responses with biological data, such as blood samples and scans, to delve into the causes of these symptoms.

Although the process seems slow – this study was started more than a year ago – it is essential to precisely define long COVID before researchers can pursue treatments, said Andrea Foulkes, the study’s other lead author. If they don’t have a way to distinguish people with long COVID from those without,

they won’t be able to tell if a treatment is making a difference.

“By coming up with a way of classifying people as having long COVID, we can now take the next step of really unraveling the mechanisms of disease,” said Foulkes, director of biostatistics at Massachusetts General Hospital and a Harvard Medical School professor. “Knowing who has long COVID, we can start to look at what are the factors that contribute to these different manifestations. And that’s of course important because ultimately it’s going to inform treatments.”

Long COVID has a long potential list of causes, including tiny blood clots affecting organ function, lingering virus or viral particles, and dysautonomia, where activities that happen without thought, like maintaining heart rate and blood pressure, are out of whack.

A number of the symptoms – such as gastrointestinal problems, brain fog, fatigue and thirst – are indicative of dysautonomia, said Tanayott Thaweethai,

a co-author on the study and a biostatistician at Massachusetts General Hospital and Harvard Medical School. Others, such as feeling worse after exercise, are known to occur after other post-viral illnesses like chronic fatigue syndrome.

Foulkes said she wants to continue to follow study participants to learn more about the characteristics of those who no longer meet the definition of having long COVID. It’s too soon to know if the recovery seen at nine months is real or if symptoms simply ebb and flow over time, said Foulkes, who wants “to really understand what recovery means.”

The RECOVER trial includes adults who were infected with the SARS-CoV-2 virus that causes COVID, along with people who were not knowingly infected and do not have COVID antibodies. Many of these people were enrolled right after getting COVID, so it was too soon to know whether they would develop long-lasting symptoms.

Of those – who began enrolling in December 2021, just as the omicron wave was sweeping the country – 10% meet the criteria for long COVID, a smaller percentage than in the group overall.

Vaccination clearly reduces the risk of long COVID, she said.

Horwitz said she’s very sympathetic to the fact that people who are suffering today don’t want to wait for a deeper understanding of the disease before they feel better. Science moves deliberately but, unfortunately, not quickly.

“From my perspective as a scientist, this is actually moving at warp speed,” she said. “We have enrolled over 10,000 people in under a year. We have a phenomenal amount of data here, looking at all parts of the body in a way that no one has put together in a study like this before.”

## VIRTUAL PUBLIC MEETINGS

### LEON COUNTY TRANSPORTATION PLANS AND PROGRAMS

Wednesday, May 31, 2023, from 11:30am – 1pm

The Capital Region Transportation Planning Agency (CRTPA) is hosting a virtual meeting to provide the public the opportunity to learn about the transportation projects in the CRTPA Capital Region (Gadsden, Jefferson, Leon, and Wakulla Counties) that have received funding, as well as the agency’s proposed project priorities for the Region. The Fiscal Year (FY) 2024 – FY 2028 Transportation Improvement Plan (TIP) and Project Priority Lists (PPLs) are scheduled to be adopted at the June 19, 2023, CRTPA meeting.

- The TIP identifies transportation projects (including roadway, transit, bicycle, pedestrian, and aviation) located within the Capital Region that have received state and federal funding.
- The PPLs are adopted annually and identify the agency’s regional and/or local transportation priorities.

**PARTICIPATE VIRTUALLY:** The virtual meeting will be streamed live on May 31st from 11:30 AM – 1:00 PM. Access the May 31, 2023 virtual meeting and the TIP and PPL documents on the **CRTPA webpage** ([www.crtpa.org](http://www.crtpa.org)) **Latest News**.

**The public may submit questions or comments prior to or at the June 19, 2023 CRTPA meeting.** Comments may be provided in several ways. Written comments may be provided via the CRTPA website under Contact Us ([www.crtpa.org/contact-us/](http://www.crtpa.org/contact-us/)), or emailed to [Suzanne.Lex@crtpa.org](mailto:Suzanne.Lex@crtpa.org). Comments can also be mailed to: CRTPA, 300 S. Adams St. A-19, Tallahassee, FL 32301. In-person comments may be made at the June 19, 2023 CRTPA meeting (1:30 PM) held at City Hall, 300 S. Adams St. Tallahassee. Comments received by 5 PM Sunday June 18, 2023 will be provided to the CRTPA members at their June 19th Meeting.

Public participation is solicited without regard to race, color, national origin, age, The Capital Region Transportation Planning Agency (CRTPA) is hosting a virtual meeting to provide the public the opportunity to learn about the transportation projects in the CRTPA Capital Region (Gadsden, Jefferson, Leon and Wakulla Counties) that have received funding, as well as the agency’s proposed project priorities for the region.

The TIP and PPLs are scheduled to be adopted at the June 19, 2023 CRTPA meeting.

**This notice and meeting satisfy StarMetro’s Program-of-Projects requirements of the Section 5307 Urbanized Area Formula Program Grant as administered by the Federal Transit Administration.**

# We Finance

Boats, RVs, ATVs, and Motorcycles

Rates as low as **5.99% APR\***  
**+ 90 Days No Payments**

- ✓ Flexible financing options
- ✓ Simple online application
- ✓ Loan protection options

**GoGulfWinds.com/fun**

\*Rates as low as 5.99% APR for up to 72 months on new and used RV and Boat purchases, and refinances. Monthly payments per \$1,000 for up to 72 months at 5.99% APR is \$16.57. Rates as low as 5.99% APR for up to 60 months on new and used motorcycles and all-terrain vehicle purchases and refinances. Monthly payments per \$1,000 up to 60 months at 5.99% APR is \$19.33. For all loans, maximum loan term will depend on the age of collateral and/or the amount of the loan. Account opening is subject to approval. Rates and terms are based on individual credit worthiness. Maximum loan term will depend on the age of collateral and/or the amount of the loan. The actual APR may vary based on the applicant’s credit history. Excludes current Gulf Winds Loans. Federally insured by NCUA.

## STUDY VOLUNTEERS NEEDED

To examine how functional performance, vascular health, and sleep are affected by 12 weeks of almond consumption

### Who Can Participate?

- Men and Women: Ages 50-64
- Participates in ≥30 minutes of moderate physical activity 3x/ a week
- Does not consume >2 servings of almonds/week

### What?

- Functional exercise testing
- Body composition measurements
- Blood flow and cardiovascular measurements
- Physical activity and sleep tracking

### Where?

- Florida State University Main Campus – Sandels Building
- Florida State University Main Campus – William Johnston Building

Compensation of up to **\$200.00** will be provided for those who complete the entire study.

custody for Possession of Methamphetamine.

During the investigation, arrest warrants were ob-

tained for Brian Taff and Summer Harris. Both were located and taken into custody.

### D-DAY

From page A1

The Carrabelle Beach Assault video will be shown throughout the day running every 10 minutes. This Army training short film shows the D-Day training as it happened on Carrabelle Beach during March of 1943. There are several well-recognized photos of the Carrabelle Beach as-

saults taken from this video footage, which was filmed by the U.S. Signal Corps. The amphibious training conducted at this site was to be the last training before shipping out to England. Also during this exhibit, there will be other displays to honor D-Day, including the three WWII military vehicles and the replica Higgins Boat on display.

Camp Gordon Johnston WWII Museum is located at

1873 Hwy 98 West, directly across from the very beach where the beach assault training occurred in 1942-1943. Carrabelle Beach was the site of many practice beach assault landings. For more information, contact Camp Gordon Johnston Museum at (850) 697-8575 or museum@campgordonjohnston.com. Funded in part by the Franklin County Tourist Development Council.

### LIGHTNING

From page A1

best protection for nearby structures is a properly installed system which is securely grounded.

A lightning protection system is important when an older tree has had cabling or rodding placed on it for structural support. This practice is common on stately live oaks when the owners or land managers want to extend the life of an exceptional tree while minimizing the risk of damage or injury from falling limbs.

The installation of metal cables or rods does not increase the chance of a lightning strike. However, if a strike occurs the metal fixtures and fittings will act as conductors. The lightning hit will like-

ly result in the energy being conducted into the woody part of the tree. The consequences will be extreme damage to the tree which would necessitate its removal.

If the tree has a lightning protection system properly installed which grounds all metal parts, it can serve to safely direct the strike away from the tree. This outlay

will serve to protect the investment made in the structural enhancement of a valuable and/or historic tree.

Lastly, hire a company with certified personnel who are trained and have experience in proper installation techniques. Industry approved methods for tree care can be found at American National Standards Institute ANSI-A300 website.

The Capital Region Transportation Planning Agency (CRTPA) is hosting a series of meetings to provide the public the opportunity to learn about the transportation projects in the CRTPA Capital Region (Gadsden, Jefferson, Leon, and Wakulla Counties) that have received funding, as well as the agency's proposed project priorities for the region. The Fiscal Year (FY) 2025 – FY 2029 Transportation Improvement Plan (TIP) and Project Priority Lists (PPLs) are scheduled to be adopted at the June 17, 2024, CRTPA Board meeting.

- **The TIP identifies transportation projects (including roadway, transit, bicycle, pedestrian, and aviation) located within the Capital Region that have received state and federal funding.**
- **The PPLs are adopted annually and identify the agency's regional and/or local transportation priorities.**

In addition, the draft update to the CRTPA's Public Involvement Plan (PIP) is available for review and comment. [CRTPA PIP](#)

***The public may also submit questions or comments prior to or at the June 17, 2024 CRTPA meeting.*** Comments may be provided in several ways. Written comments may be provided via the CRTPA website under Contact Us ([www.crtpa.org/contact-us/](http://www.crtpa.org/contact-us/)), or emailed to [Suzanne.Lex@crtpa.org](mailto:Suzanne.Lex@crtpa.org). Comments can also be mailed to: CRTPA, 300 S. Adams St. A-19, Tallahassee, FL 32301. In-person comments may be made at the June 17, 2024 CRTPA meeting (1:30 PM) held at City Hall, 300 S. Adams St. Tallahassee. Comments received by 5 PM Sunday June 16, 2024 will be provided to the CRTPA Board members at their June 17<sup>th</sup> Meeting.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status. If you have a disability requiring accommodations or need translation services, please contact the Capital Region Transportation Planning Agency at (850) 891-8630. # CRTPA Identifies “Take the Safe Route” Schools

By Staff on May 31, 2024 · 1 Comment

Like

On May 21<sup>st</sup>, the Capital Region Transportation Planning Agency (CRTPA) held their monthly meeting and discussed the “Safe Access to School Study” and their Public Involvement Plan.

The Board received a presentation from staff on Phase 2 of the CRTPA’s “Take the Safe Route – Safe Access to School Study”. This study was developed in two phases, the first being a comprehensive study of schools in the CRTPA Region (elementary, middle and high school) to identify those with the greatest need for capital improvements related to biking and walking facilities. Phase 1 identified 12 schools in the CRTPA region.

The Leon County schools identified include, Amos P. Godby High School, John G. Riley Elementary School, Raa Middle School, Ruediger Elementary School, Griffin Middle School, Leon High School, Nims Middle School, Rickards High School, Pineview Elementary School and Fairview Middle School.

The timeline for the implementation of the CRTPA "Take the Safe Route" program.

Staff explained that Phase 2 of the study (which was recently initiated) will involve an analysis for the recommended schools in Phase 1. This analysis includes on-site visits and an inventory of the existing facilities and infrastructure at the selected schools. The assessment will consider things such as sidewalk gaps, lighting and intersection improvements.

The Board was also given an update by staff on the CRTPA Public Involvement Plan (PIP) update. The CRTPA's PIP contains the policies, goals, objectives, and techniques used by the CRTPA to encourage public participation. Staff noted a major update is that information regarding CRTPA's meetings, plans, programs have been streamlined onto one page to make the information more accessible to the public.

Additionally, staff noted some of the desired outcomes of developing the PIP will be providing adequate public notice of public participation activities and time, providing timely notice and reasonable access to information, and holding public meetings at convenient and accessible locations and time.

*CRTPA Identifies "Take the Safe Route" Schools added by Staff on May 31, 2024*

# Purpose of the Public Meeting

*The purpose of this meeting is to:*

- ✓ Educate      Who is the CRTPA? Why a regional planning agency?
- ✓ Inform      What & where are the transportation projects & priorities.
- ✓ Engage      Staff encourages questions and comments.
- ✓ Include Participants comments are incorporated into the TIP & are provided to the CRTPA Board.

# CRTPA Program Documents

- Fiscal Year 2025 – Fiscal Year 2029  
Transportation Improvement Program (TIP)
- Fiscal Year 2026 – Fiscal Year 2030 Project  
Priority Lists (PPLs)

# The CRTPA is an MPO

- MPOs are federally mandated transportation planning organizations comprised of representatives from local governments and transportation authorities.
- CRTPA serves as the Capital Region's metropolitan planning organization (MPO).
- As such, the CRTPA is responsible for coordinating transportation planning within Florida's Capital Region
- CRTPA is to ensure Federal funds support local priorities.

# CRTPA Board and Committees

CRTPA voting board members include elected officials representing all four counties, a representative for the six municipalities of Gadsden County and a member of the Leon County School Board; along with representatives from StarMetro and the Florida Department of Transportation who serves as advisory members.

Two committees serve the CRTPA Board, Citizens Multimodal and Technical Advisory Committees.

# The CRTPA Mission and Vision

## Mission Statement

“The mission of the CRTPA is to act as the principal forum for collective transportation policy discussions that results in the development of a long-range transportation plan which creates an integrated regional multimodal transportation network that supports sustainable development patterns and promotes economic growth.”

## Vision Statement

“Create an integrated regional multimodal transportation network that provides the most options for moving people and goods economically, effectively and safely while protecting the environment, promoting economic development and maintaining a high quality of life with sustainable development patterns.”

Capital Region Transportation Planning Agency  
Fiscal Year 2025 – Fiscal Year 2029  
Transportation Improvement Program

Adopted: June 17, 2024

Amended:

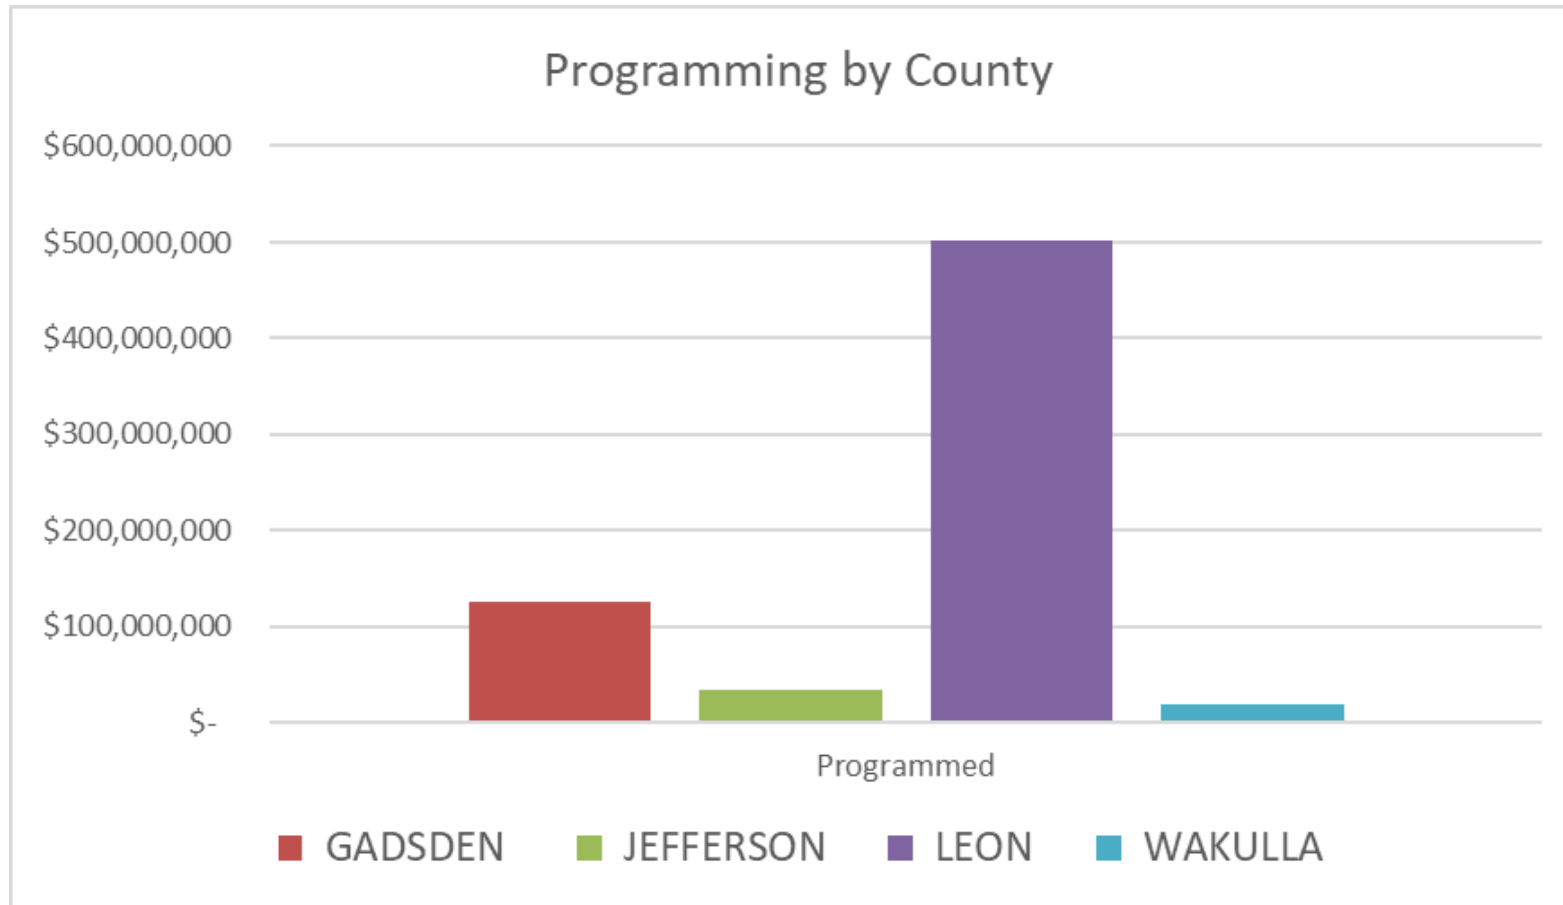

# Purpose of the TIP

- ❖ To develop a five-year program of transportation projects.
- ❖ To fulfill state and federal requirements to have coordinated transportation projects consistent with local & regional goals.
- ❖ To demonstrate the transportation projects are financially feasible.

# Transportation Improvement Program (TIP)

- Approved annually with a new fifth year added.
- Allocates resources among capital, planning and operating needs.
- Includes a schedule of improvements to the transportation system.
- Assigns available funding to specific projects.
- Consist of federal, state & locally funded transportation projects.
- Covers all modes of transportation in the Capital Region.
- Consistent with Connections 2045 Regional Mobility Plan; and,
- Consistent with the State Transportation Improvement Plan.

# Questions on the FY 2025 – FY 2029 TIP

Comments

# Project Priority Lists

# Project Priority Lists

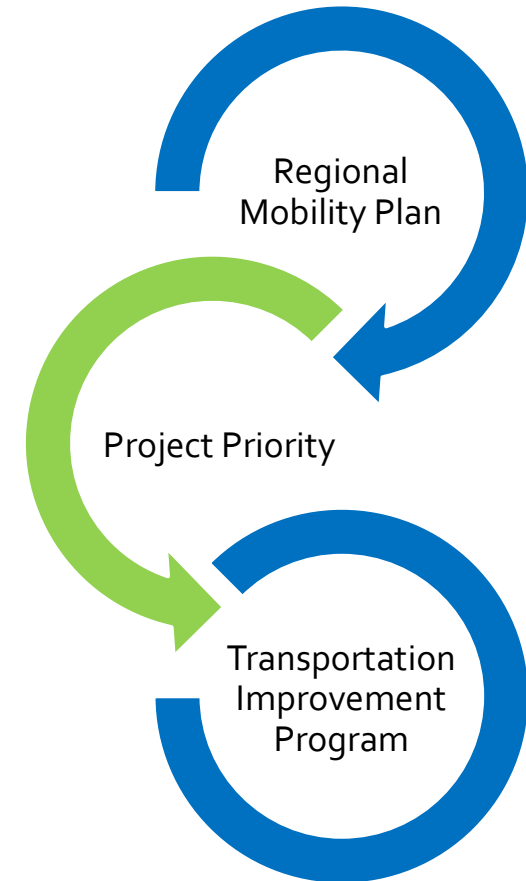

- Provide the public additional opportunities to comment on the TIP & PPLs
- Present the Draft FY 2025 – FY 2029 TIP for CRTPA Board Approval
- In-Person Meetings held in Leon and Wakulla Counties
- CRTPA Meeting - Monday, June 10, 2024, Virtual (11:30 A.M – 1:00 P.M.)
- Transmit the adopted FY 2024 – FY 2028 TIP to FDOT District 3 Secretary
- Governor approves final TIP/State Transportation Improvement Program

# Project Priority Lists (PPLs)

- Are developed for all modes of transportation.
- Long-term needs are identified in the Regional Mobility Plan.
- Establishes project priorities for the Capital Region.
- Approved annually.
- Identify projects, or projects phases that are not fully funded.
- When funding becomes available the project is programmed in the FDOT Five-year Work Program.

"Each M.P.O. annually shall prepare a list of project priorities and shall submit the list to the appropriate district of the [Florida] department [of Transportation] by October 1st of each year..."

(Chapter 339.175 (8)(b) Florida Statutes

# How are the projects identified?

Through agency and local government plans:

- CRTPA Long Range Transportation Plan “The 2045 Regional Mobility Plan”
- CRTPA Congestion Management Plan
- StarMetro’s Transit Development Plan
- Tallahassee International Airport’s Master Plan
- Intelligent Transportation Systems Master Plan

Or through a competitive project search:

- Transportation Alternatives Program

Connections 2045 Regional Mobility Plan

- Title VI of the Civil Rights Act ***Prohibits*** Federally assisted programs from ***discrimination*** based on ***race, color, or national origin***.
- Executive Order 12898 Describes ***requirements*** for Federal actions ***to address environmental justice concerns for low-income & minority populations***. (1994)
- Executive Order 13166 Describes ***requirements to develop plans for people for whom English is not their native language*** or who have limited ability to read, speak, write, or understand & English. Americans with Disabilities Act (ADA) ***Prohibits discrimination*** & ensures equal opportunity for ***persons with disabilities***. (2000)
- Executive Order 13985 Directs the federal government to ***revise agency policies*** to ***account for racial inequities*** in their ***implementation***. (2021)

# STATE STATUTES

- State Government-in-the-Sunshine Law  
s.286.011, F.S. *Provides the public with basic right of access to most meetings & records of boards, commissions, & other governing bodies* of State & local governmental agencies; & *requires meeting minutes to be publicly accessible.*
- Metropolitan Planning Organizations  
s.339.175, F.S. *Describes public involvement requirements for MPO* planning activities.
- Public Meetings on School Grounds  
s.1012.465, F.S. Jessica Lunsford Act, which *requires background checks of all persons entering school grounds* when children are present.

# MAJOR UPDATE

Revised to streamline information on meetings, plans & programs.

Includes information on the Executive Committee & emergency meetings.

---

Details meeting schedules, times & how to be involved.

Framework of goals to inform, involve, engage & collaborate.

Evaluation of engagement strategies & techniques ongoing, summarize annually.

Update to Title VI process & forms to be presented separately for approval.

# GOALS

➤ **TO INFORM**

Provide accurate & timely information to the public about the CRTPA transportation planning programs, processes, & projects.

➤ **TO INVOLVE & ENGAGE**

Make available a wide range of opportunities for the public & stakeholders to be involved & to stay engaged throughout the planning process, & plan or project development.

➤ **TO COLLABORATE**

Collaborate with transportation planning partners, providers, stakeholders, & the public to support a continuous, comprehensive, & coordinated exchange of information, ideas & resources.

➤ **TO EVALUATE**

Document & assess the success of the techniques & strategies throughout the process & evaluate the effectiveness of the Public Involvement Plan.

# DESIRED OUTCOMES

The CRTPA is required to develop the PIP in consultation with all interested parties & must, at a minimum, describe explicit procedures, strategies, & desired outcomes for:

- ***Providing adequate public notice*** of public participation activities & time for public review & comment at key decision points, including on the proposed LRTP & the TIP;
- ***Providing timely notice & reasonable access*** to information about transportation issues & processes;
- ***Employing visualization techniques*** to describe LRTPs & TIPs;
- Making public ***information*** available in ***electronically accessible formats & means***;
- Holding any ***public meetings*** at ***convenient & accessible locations & times***;

# DESIRED OUTCOMES

- Demonstrating *explicit consideration & response to public input* during the *development of the LRTP & TIP*:
- *Seeking out & considering* the needs of those *traditionally underserved by existing transportation systems*;
- Providing an *additional opportunity for public comment*, if the final *LRTP or TIP differs significantly* from the draft version;
- *Coordinating with* the *statewide* transportation planning *public involvement & consultation processes*; &
- *Periodically reviewing the effectiveness* of the *public involvement procedures & strategies* contained in the PIP to ensure a full & open participation process.

# NEXT STEPS

June 17, 2024, Adopt PIP (Major Update)

Approved document will be reformatted, & graphics added.

Information may be added on strategies & tools or to incorporate innovative techniques.

---

Evaluation forms & outline for annual summary as an appendix.

Additional material or minor revisions as appropriate.

Notice in the fall for a 45-day comment period for the minor update to the PIP.

Approval following at next regularly scheduled meeting after 45-day comment period.

**Capital Region Transportation Planning Agency  
Board Meeting**

**Date:** May 21, 2024

## **FDOT Review Checklist**

## TRANSPORTATION IMPROVEMENT PROGRAM (TIP) REVIEW CHECKLIST

---

The following TIP Review Checklist is provided to assist in the review of the TIP. This Review Checklist is to be completed and included in the MPO's final TIP Document.

Comments should be categorized as:

**Editorial:** The MPO may address comments regarding grammatical, spelling, and other related errors, but this would not affect the document's approval.

**Enhancement:** Comments may be addressed by the MPO but would not affect the approval of the document, i.e., improve the quality of the document and the understanding for the public (improving graphics, re-packaging of the document, use of plain language, reformatting for clarity, removing redundant language).

**Critical:** The comment MUST be addressed to meet the minimum state and federal requirements for approval. The reviewer must clearly identify the applicable state or federal statutes, regulations, policies, guidance, or procedures to which the document does not conform.

If a question is categorized, a comment must accompany it. If a question is answered with "no," a comment must accompany it.

## TIP Narrative

Does the TIP begin with a statement of purpose (provide a prioritization of projects covering a five-year period consistent with the LRTP, containing all transportation projects funded with FHWA & FTA funds and regionally significant projects regardless of funding source)? [23 CFR 450.326(a)]; [49 USC Chapter 53]

Yes ☒ No ☐

[No comment](#)

[Click here to enter comments](#)

Page Numbers: 8

[Click here to enter notes](#)

Did the MPO develop the TIP in cooperation with the state and public transit operator(s), who provided the MPO with estimates of available federal and state funds for the MPO to develop the financial plan? [s. 339.175(8) FS]; [23 CFR 450.326(a)]

Yes ☒ No ☐

[No comment](#)

[Click here to enter comments](#)

Page Numbers: 11

[Click here to enter notes](#)

Does the TIP demonstrate sufficient funds (federal, state, local, and private) to implement proposed transportation system improvements, and identify any innovative financing techniques by comparing revenues and costs for each year? It is recommended that the TIP include a table(s) that compares funding sources and amounts, by year, to total project costs. [23 CFR 450.326(k)]; [23 CFR 450.326(j)]; [s. 339.175(8)(c)(3) FS].
