AGENDA ITEM 7C

STRATEGIC INTERMODAL SYSTEM (SIS) POLICY PLAN UPDATE

TYPE OF ITEM: Action

STATEMENT OF ISSUE

An update to the Florida Department of Transportation's (FDOT) Strategic Intermodal System (SIS) Plan is currently underway. Staff from the FDOT will provide information related to the plan update (**Attachment 1**).

As a background, the SIS is Florida's high priority network of transportation facilities important to the state's economy and mobility and was established in 2003 by the Governor and Legislature. The SIS was created to focus the state's limited transportation resources on the facilities most significant for interregional, interstate, and international travel. As such, the SIS is the state's highest priority for transportation capacity investments and a primary focus for implementing the Florida Transportation Plan (FTP), the state's long-range transportation vision and policy plan.

A map of SIS facilities within FDOT District 3 is provided as **Attachment 2**.
