CRTPA COMMITTEE MEETINGS

At the November 7, 2023 meetings, the Technical Advisory Committee and the Citizens Multi-Modal Advisory Committee recommended the Board adopt Resolution No. 2023-11-6A.

HISTORY AND ANALYSIS

Adopted annually, the CRTPA’s Transportation Improvement Program reflects those projects in the region that have received state and federal funding in the Florida Department of Transportation (FDOT) Five-year Work Program. Subsequent to adoption, the TIP is occasionally amended to reflect project changes, such as the addition or deletion of a project. The FDOT District Three requested Project No. 442542-3, and the associated federal funding, be amended into the CRTPA’s TIP for the purpose of tracking the project.

Awarded through the Rebuilding American Infrastructure with Sustainability and Equity competitive grant process, the 15 million in [TGR] funding will support the construction of the Southside Transit Center. Once complete the project enhances access to public transportation and furthers the City of Tallahassee’s goal to provide a safe, sustainable, and reliable transportation system for all. In addition, while not reflected in the funding line, one million dollars in state monies is programmed as part of the required funding match. This is noted on the project page.

Subsequent to Board approval, the executed Resolution and TIP project page will be forwarded to the Department of Transportation and the FY 2024– FY 2028 TIP will be updated to reflect the addition of the project.
