The purpose of this meeting is to present the study results and provide interested persons an opportunity to review the findings and provide input on the recommended alternative. Project maps and exhibits will be on display. CRTPA representatives and project team members will be available to explain proposed improvements, answer questions, and receive comments. The Capital Region Transportation Planning Agency (CRTPA) has conducted an Environmental Impact and Alternatives Study to evaluate existing conditions, identify community needs and potential impacts, and develop conceptual design plans for a paved multi-use trail. The proposed trail would extend along Old Bainbridge Road from the Leon County line to Orchard Pond Road, and along Orchard Pond Road from Old Bainbridge Road to the eastern trailhead of Orchard Pond Parkway in Leon County. The total study length is approximately 4.4 miles. The existing unimproved trail, approximately 3.6 miles, is located between the western and eastern trailheads and accommodates equestrian, pedestrian, and bicycle user groups. The project will improve pedestrian and bicycle safety, increase mobility and recreational opportunities, enhance quality of life, and support the local economy. Additionally, it provides a critical link in expanding the regional trail network in the Capital Region and beyond.

WE WANT TO HEAR FROM YOU

We invite you to participate by providing your comments and ideas on the proposed improvements. You can get involved in various ways—through phone, mail, or email. All comments provided, or postmarked, on or before **Thursday, November 19, 2026**, will become part of the official project record.
