1. Will the paving of the trail create conflicts between trail users and residents who live along Orchard Pond Road?

2A. How will the gap between Meridan Road and the Orchard Pond Park trailhead (where Orchard Pond Road forks off Orchard Pond Parkway) be addressed?

2B. Will the Greenway connect to the proposed bike/ped multi-use trail along Meridan Road - Forest Meadows Project?

I strongly support the SUNTrail project for Orchard Pond Road. Paving the trail will allow much more use.

Bridging Iron Bridge to allow cyclists and pedestrian will make it safer.

Support all alternatives.

Please keep this trail useable for equestrians. We love the parking area and this is a valuable trail for us as it is shady. If the trail is paved 10-12' wide there will be no room for us.

Equestrians generally have a lot invested financially (taxes on larger parcels of land, horse trailers, etc) and we don't want to lose our trails

Thank You!

Gaye Johnson

The old Orchard Pond Rd. is the only connection for the Havana Trail & the proposed SUN Trail from Chattahoochee to Leon Co Tallahassee → & the Coast.

The elimination & a multiuse trail along the old Orchard Pond Rd. would kill the business a connecting trail would give it.

Let them find someplace else to trailer their horse & ride 3½ miles!

THANK YOU FOR THE OPPORTUNITY TO LEARN MORE ABOUT THIS PROJECT AND ANSWERING THE QUESTIONS / LISTENING TO OUR THOUGHTS & COMMENTS. WE DO HAVE CONCERNS ABOUT THE INCREASE IN ACTIVITY ON THE TRAIL STANDARD SAFETY CONCERNS FOR PEDESTRIANS AND ADEQUATE PARKING ON THE EAST END / EAST TRAILHEAD IN THE WAKE OF THIS PROJECT, BUT WOULD PREFER A THOUGHTFULLY CONSIDERED PROJECT THAN A LONGER-TERM DECLINE / NEGLECT OF THE RESOURCE, WHICH IS A BEAUTIFUL TRAIL.

(1) Very distressing to see equestrians are not one of the project priorities & are not even included in the charts.
(2) As an equestrian, I will only be able to use the Old Orchard Pond trail. Allowing only swale use is dangerous & too narrow.
(3) The trail should be 10' wide at paved maximum. The character & nature of the old road would be better preserved at a 6' width like (heavily used) sidewalks all around the county.
(4) The survey is ridiculous. If presented all as being decided, with no opportunity for comment. A single Y/N question about awareness (of paving) may give some information but it is meaningless.

This plan looks amazing if you do not care about historical sites, nature, or preserving natural beauty.

It is SAD that the equestrians were left off the literature for "multiuse" trails. It is sad that equestrians are going to end up in a ditch where the excess water flows.

I have never been so disappointed in the Sun Trail as I am now.

I do plan on writing my governor, congressman, and senator.

I am a horseback rider and while I have myself not yet ridden on this trail, many of my friends have and really like that it is shaded all the way. Paving a 10-12' wide section will not leave enough room for equestrians to use this trail. The proposed "unpaved swale" sounds good but reality is that this will be the "ditch" with water standing in it and it will be too wet for horses to ride on/in it.

The survey was a JOKE!! It did not ask for input whether the user is in favor of paving or not. The last question "Do you support the development of addt'l multi-use Trails in Leon County?" can be interpreted either way – no input was asked if the user is in favor of paving, which would have been the MOST IMPORTANT question.

I understand the study limits presently stop at the Eastern Trailhead. The most important part of the Greenway, however, will be the eastern connection to Meridian and Bannerman, allowing eastern residents to use the Greenway without paying toll to access it via the Parkway.
Once that is accomplished it will be a truly great addition to the County Trails system, ~~please today~~ actually more important, in my mind, than paving the present trail. :)

I am an equestrian and the only part of this greenway I will be able to use is the county's Orchard Pond Trail. If paving is needed, it should be only 10 ft. for the entire length of the proposed greenway. Putting horses in an unpaved swale will not be safe because it will be too narrow and slippery when it rains.

I filled out the survey and was not able to make comments. It was designed to provide answers to questions for a specific purpose.

I am OPPOSED to paving the current Orchard Pond Trail. If the county paves it, over the objection of equestrians, then we would recommend leaving half of the width unpaved for horses and trimming the overstory to accommodate the height of horses.
The current parking is perfect the way it is for horse trailers on the west end.

We want to hear from you. Comments may be submitted via email or mailed to the Project Manager at:

Dear To whom it may concern,

Hello thank you for your time as well as your contribution of increasing pedestrian and bicycle safety increasing mobility + recreational opportunities enhancing quality of life + supporting the local economy. I believe the expanding of the regional trail network in the Capital Region + beyond is a great idea + will benefit many people. May I make a few suggestions... Plenty of restroom/ rest stops including drinking fountains for both pedestrian + their pets. As well as charging docks for mobile devices cellphones, electric wheel chairs, electric scooters etc. And the occasional vending machine packed with healthy snacks. Once again I appreciate all the good you are doing keep up good work
