A. CRTPA 2026 Safety Targets

This item seeks adoption of the 2026 CRTPA Safety Performance Targets for the safety performance measures that the CRTPA is required to annually address.

RECOMMENDED ACTION: Recommend the CRTPA adopt the draft 2026 CRTPA Safety Targets and a long-term safety goal of zero fatalities and serious injuries for the CRTPA region to be achieved by the year 2040.

Mr. Burke introduced the CRTPA 2026 Safety Targets. He briefly provided background stating annually the CRTPA adopts the Safety Targets. Mr. Burke outlined the five safety performance measures:

- number of fatalities;
- rate of fatalities;
- number of serious injuries;
- rate of serious injuries; and,
- number of non-motorized fatalities and serious injuries.

Mr. Burke noted the CRTPA's long-term safety goal of achieving zero fatalities and serious injuries in the region for consistency with the Florida Department of Transportation's Target Zero initiative to eliminate all roadway deaths and serious injuries by 2040.

He next discussed the trends over the last five years and noted that fatalities have increased; serious injuries have decreased and ped/bike fatalities and serious injuries have also increased. Mr. Burke stated that in 2025, which has not been captured in the five-year average, shows a decrease in annual fatalities.

Mr. Burke highlighted examples of safety enhancements throughout the CRTPA Region including newly funded projects. He discussed other programs to address safety within the region including the CRTPA's helmet fitting and training events, that include training of proper fitting of helmets and helmet giveaways in the community. Mr. Burke discussed safety studies that have been adopted by the CRTPA to enhance safety including the Safe Streets for All Plan, N. Monroe Street Safety Implementation grant award, W. Tennessee Street SS4A Planning Grant award and the N. Monroe Street Safety Study (Phase II). He discussed the coordination with law enforcement on the High Visibility Enforcement, which increases awareness and compliance with traffic laws that protect the safety of pedestrians and cyclists on the region's roadways. Mr. Burke noted other enhancements to improve safety including speed zone cameras at school zones; regional trail expansions through the SUNtrails program. Finally, he stated that information can be found at the CRTPA's safety page "Focus on Safety", which highlights the safety efforts in the region.

Mr. Guffey asked how a serious injury was defined. Mr. Burke stated that any person needing to be transferred by ambulance would typically be defined as a serious injury. Mr. Alfano asked if there was analysis to determine if there were clusters of the pedestrian. Mr. Slay noted there was not any area that could be determined as a cluster with a definite improvement that would prevent a fatality. He also noted there was a project on Aenon Church road to improve lighting. Mr. Kostrzewa stated the High Injury Network (HIN) list has been updated but noted the top five are already ongoing projects for improvements.

Committee Action: Mr. Alfano made a motion to recommend adoption of the 2026 CRTPA Safety Targets and a long-term safety goal of zero fatalities and serious injuries for the CRTPA region to be achieved by the year 2040. Mr. Wu seconded the motion. The motion was passed with Ms. O'Brien voting in opposition.

COMMITTEE AGENDA ITEM 5.A
**FISCAL YEAR 2027 – FISCAL YEAR 2031
TRANSPORTATION IMPROVEMENT PROGRAM (TIP)
ADOPTION**

TYPE OF ITEM: Presentation/Discussion/Action

STATEMENT OF ISSUE

The Capital Region Transportation Planning Agency (CRTPA) Fiscal Year (FY) 2027– FY 2031 Transportation Improvement Program (TIP) has been developed for Board adoption. The FY 2027– FY 2031 TIP is **Attachment 1** and can be viewed on the [CRTPA's website](#).

BACKGROUND

The purpose of the TIP is to inform the public and governmental agencies of transportation projects (planning through construction) that have received funding during the next five-year period (FY 2027– FY 2031) within our region (Gadsden, Jefferson, Leon, and Wakulla counties).

The CRTPA Transportation Improvement Program identifies regional transportation projects (roadway, bicycle and pedestrian, transportation systems management, transportation enhancement, public transportation, aviation, resurfacing and bridge projects) that have received funding in the Florida Department of Transportation's (FDOT) Draft Five-Year Work Program. The TIP is developed in accordance with 23 U.S.C. 134(h), 23 CFR 450 and Chapter 339.175(7), F.S., and is one of the annual requirements of the metropolitan transportation planning process for the CRTPA.

PUBLIC INVOLVEMENT

The Capital Region Transportation Planning Agency (CRTPA) has scheduled a virtual and an in-person public meetings to present the Draft FY 2027– FY 2031 TIP and the FY 2028 – FY 2032 Project Priority Lists (PPLs). These meetings provide the public an opportunity to learn about the CRTPA's programs and plans. Comment is solicited for both the TIP and PPLs. In addition, Star Metro partnered with the CRTPA to present the update to the Transit Development Plan. The Transit Development Plan is a strategic planning document that outlines the direction of the agency for the next decade. These meetings provide the public an opportunity to provide input on Star Metro's transit planning document.

PUBLIC INVOLVEMENT (CONT.)

Notice of the upcoming public meetings, are posted on the CRTPA website, including a link to the Interactive TIP and an opportunity to provide comment at the Committee and Board meetings. In addition, the meetings were noticed on the CRTPA’s Facebook page, distributed to local governments and the emailed to the CRTPA contact list of stakeholders and citizens. Appendix G of the FY 2027– FY 2031 TIP includes the publication notices for the upcoming meetings.

TOTAL	\$ 489,761,657

Table 2

The TIP is developed by the CRTPA in cooperation with the transit operator, StarMetro, and the Florida Department of Transportation (FDOT) who provide the CRTPA with estimates of available federal and state funds for use in development of the financial plan. In the FY 2027 - FY 2031 Transportation Improvement Program a total of \$489,761,657 million is programmed. **Table 1** presents a breakdown of funding by source and **Table 2** presents the breakdown of the funding programmed for each county. The revenue and expenditures demonstrate that the TIP is fiscally constrained as existing and projected revenue sources are sufficient to cover programmed expenditures. Sections A through I of the TIP present projects by mode or type and also identify, as applicable, the project priority by and list.

NEXT STEP

Subsequent to CRTPA Board adoption of the FY 2027 – FY 2031 TIP staff will transmit the document to state and federal review agencies.

RECOMMENDED ACTION

Option 1: Recommend the CRTPA Board adopt the FY 2027– FY 2031 Transportation Improvement Program by Resolution No. 2026-06-7A (**Attachment 2**).

- 1. Technology Upgrades** - Today with the rapid rate in which technology changes, it is imperative that transit system solutions such as scheduling software, passenger counters, and CAD/AVL are fully integrated. The integration of these systems improves efficiency, allows for real time monitoring and communication, and provides for enhanced reporting. In addition, customer facing applications for trip scheduling, trip planning and mobile fare purchases must continue to meet the needs of customers. **\$1,200,000**
- 2. Expansion of the Options Program** – Options is a rider’s choice program providing same-day transportation for paratransit customers. The program uses third-party app-based services to facilitate a flexible transportation choice for citizens within the City of Tallahassee and Leon County. The program was piloted in 2022. The proposed next phase of the Options would be to expand the program to ten percent of the active DAR customer base to continue to enhance paratransit services and operational efficiency. **\$300,000**
- 3. Neighborhood Circulators/Mobility on Demand/Micro-Mobility** – This pilot initiative aims to deploy innovative mobility services in the community to provide more flexible options that complement the fixed route system. Neighborhood circulators, mobility on demand, or micro-mobility options can connect citizens to popular local destinations like schools, grocery stores, and shopping centers while also connecting with fixed route bus lines. These options will improve neighborhood mobility and enhance fixed route service. Fixed route resources can be reallocated to improve service elsewhere while these options cover areas where fixed route service was less effective. **\$750,000**
- 4. Redevelopment of C.K. Steele Plaza Planning and Design Study** – Located at the intersection of W. Tennessee and Adams Street, the C.K. Steele Plaza was built in the late 1980s and serves as StarMetro’s main bus terminal. This project proposes conducting an environmental assessment, feasibility study, and preliminary re-design of the C.K. Steele Plaza. The study would include identifying the needs, challenges, opportunities, and funding options to transform the Plaza from a single-use transit facility into a mixed-use, multistory intermodal facility with opportunities for housing StarMetro administrative staff, leasable space for office, and retail activities as well as connections to intercity transportation such as the Gadsden Express, Monticello Express, and Greyhound. **\$700,000**
