

Thomasville Road Multi-Use Path

Phase 2 - Design Plan (60% Plans)

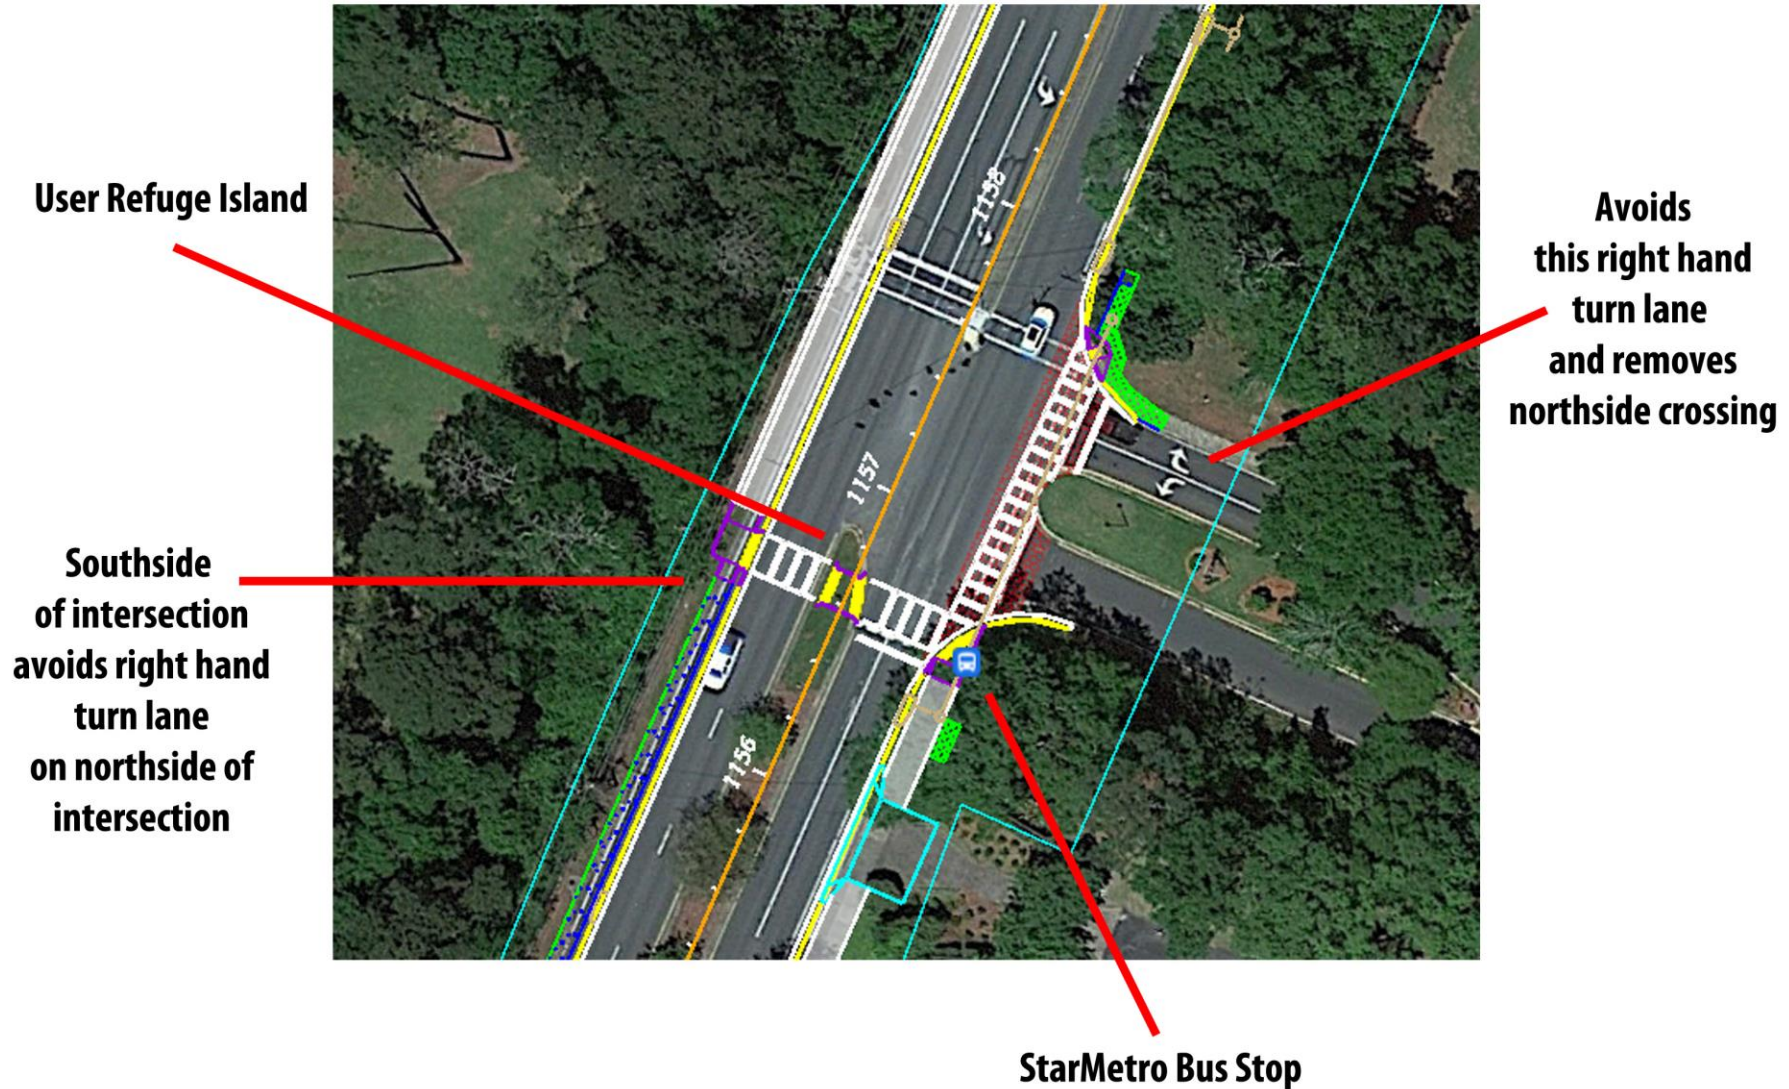

Common Comments Regarding the Thomasville Road Multi-Use Path

Safety

The following are topics that the design addressed:

- **Bike Lane Removal** - provides improved sight distance, grassed buffer (typically varies from 2 feet to 6 feet, some locations have more than 6 feet) and a safer environment for bikes.
- **Sight Distance** - Sight distances are improved throughout the corridor.
- **Signage** - The design includes a Signage Plan based upon the FDOT Design Manual.
- **Woodgate Way** - The path crossing is located on the southside of the intersection includes a pedestrian island, actuation buttons, and is co-located with StarMetro bus stop.

Woodgate Way at Thomasville Road

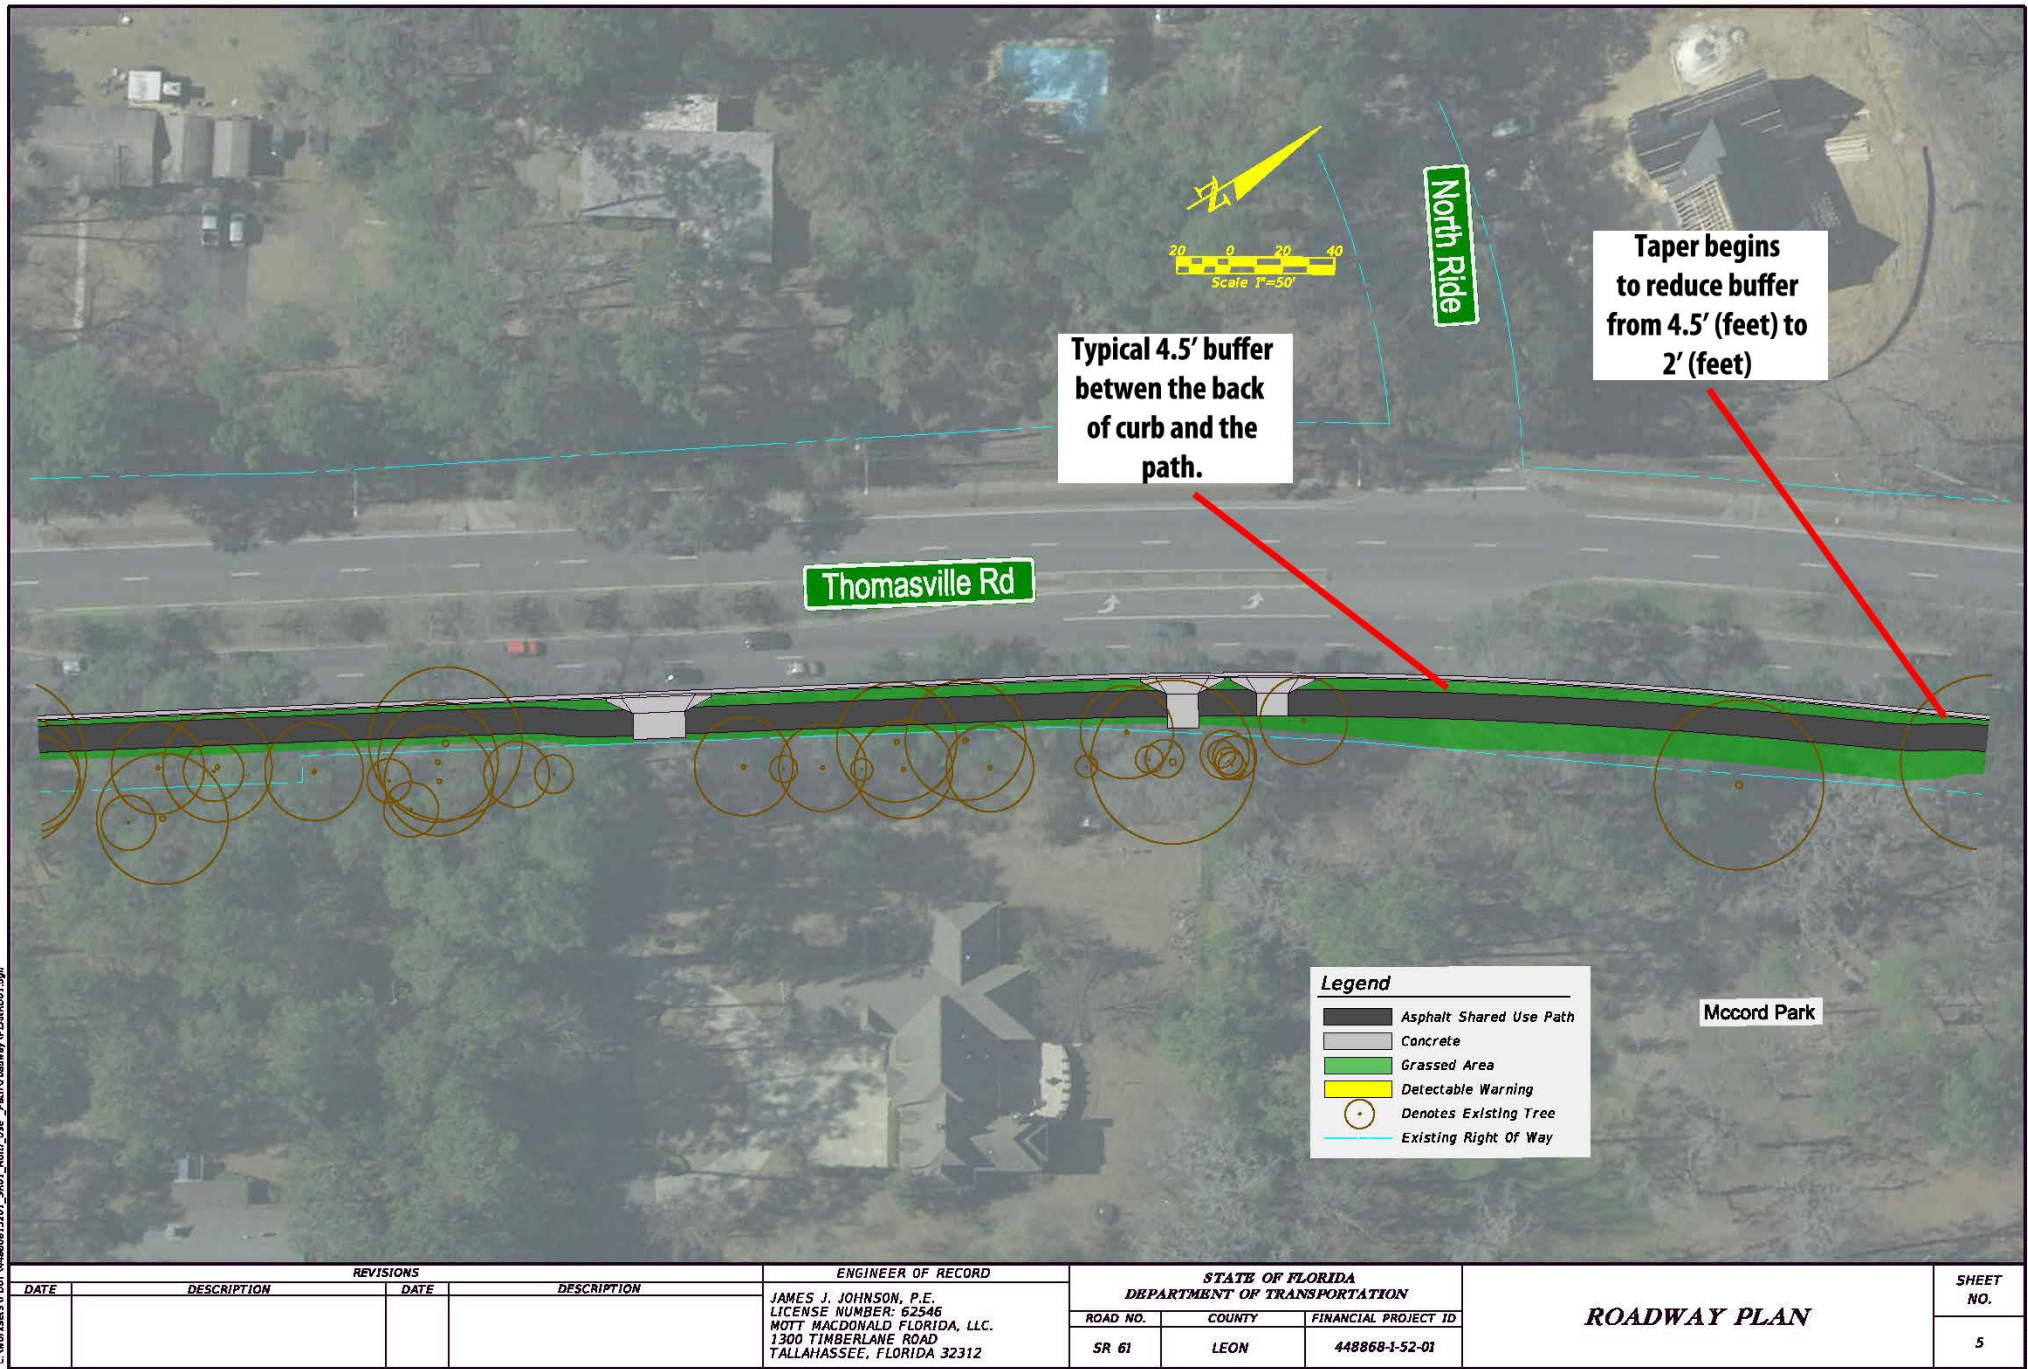

Common Comments Regarding the Thomasville Road Multi-Use Path

Trees

The Feasibility Study included a survey of significant trees by the City's Urban Forester. The design does not impact any of the trees identified in the survey.

- **Tree Removal**- No tree greater than 4" (inches) in diameter was removed for the path. The design includes a Selective Clearing and Grubbing Plan to guide the contractor during construction.
- **Specific Tree Locations**- There are several special locations of note including McCord Park, Rabbit Hill, Savannah Trace, and Preakness Point where trees were specifically addressed in terms of their special locations.

Common Comments Regarding the Thomasville Road Multi-Use Path

Sidewalk

During the Public Engagement phase of the Feasibility Study, citizens asked about the potential to include a sidewalk from Waverly Road to Gardenia Drive on the westside of Thomasville Road. The design incorporated the sidewalk to link the intersection of Gardenia Drive to the Thomasville Road MUP.

Common Comments Regarding the Thomasville Road Multi-Use Path

Landscaping

Two specific locations requested information regarding the impact of the path on the existing landscaping (in the FDOT right of way).

Greenbriar Lane - HOA asked about the landscaping that they installed being removed. The design plan shows the removal of a small portion of the landscaping currently in FDOT right of way when the driveway is rebuilt.

Tallahassee Nurseries - No trees removed - slight impact to one of the flower beds currently located within the FDOT right of way.
